World Environmental Day 5.6.2020

MGMIHS celebration

MGMIHS celebration

World Environment day 5.6.2020

Theme :Time for Nature

It's time to protect **OUR planet.**

We were and are all too preoccupied with our personal lives and have got disconnected from nature. We cannot survive without nature which gives us food ,energy and all the resources we use. Human behaviour has destroyed nature which has actually given us life.We always look for ways to exploit nature. We now need to think of protecting it.

It is predicted that 1 million species of plants and animals are likely to disappear soon. In fact we are in midst of a crises where humankind is on the verge of a breakdown.

It is our responsibility to protect our nature and planet for the generations to come. Nature is a great gift, lets all nurture it together.

I request all the students to participate in the competition by sharing your thoughts on

- What does “Time for Nature” mean to you .
- How would you be able to make a difference?

It can be expressed as a:

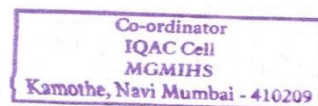

1. SLOGAN
2. ESSAY (Maximum of 500 words)
3. POEM

It can be done in any language for free expression of thoughts .Selected ideas will be displayed on notice board along with your names.

Kindly send the document to iqac@mgmuhs.com by 15th June 2020.

Poetry by Dr Bhavana Junagade expressing the joy of going through the poems and encouraging the students to participate

*“ It has been a breath of fresh air, to know that future cares
About what really matters, in these times of despair
So many moments of joy, while reading their thoughts
Was a stroll through art gallery, not just words on paper
Most perceive this ‘a nature’s wrath’ and getting what we deserve
Think it’s time to go green and nurture what is rare
I hope the great ideas get converted in to action
For us humans, time has come, to show that we care
All the best to every student who took time to participate
Do not lose this side of you, even when the world is not fair ”*
