Value Added Course

Basic Course in Biomedical Waste management and Infection control Venue: MGM Hospital, Physiotherapy OPD, Sector- 1,

Kamothe, Navi Mumbai.

Objectives

- ✓ Basics of Biomedical waste and Hospital acquired Infections.
- ✓ Segregations and collection of biomedical waste, Treatment, processing and disposal of biomedical waste.
- ✓ Patient and caregiver hygiene

Attendees:

✓ Interns, Bachelor of physiotherapy students, Masters of Physiotherapy scholars & clinicians

Learning Outcomes:

- ✓ Enhance understanding of biomedical waste management
- ✓ Enhance understanding of infection control in hospital setup.

Resource Person: Dr.Bhoomika Sawant (PT), Dr.Ramandeep Saini(PT)

MGM INSTITUTE OF HEALTH SCIENCES (Deemed University u/s 3 of UGC Act, 1956) Grade 'A++' Accredited by NAAC MGM SCHOOL OF PHYSIOTHERAPY Sector-1, Kamothe, Navi Mumbai – 410209

- Introduction to types of waste and its segregation.
- Introduction to Waste disposal and different colour codes of trash cans.
- Standards for autoclave of biomedical waste, Standards for Deep burial
- Standards for efficacy of chemical disinfection, Standards for dry heat sterilization, Standards for Liquid waste.
- Introduction to hospital acquired infection
- Patient and caregiver education, sanitization
- Education for health practitioners to prevent infection
- · Hand hygiene

Infection Control and Biomedical waste management

Date	:	27 th August 2022 & 3 rd September 2022
Venue	:	Second Floor Classroom, MGM School of Physiotherapy, MGM Institute of Health Sciences, Kamothe, Navi Mumbai
Time	:	9.00 pm- 5:00pm
Total Hours	:	16 Hrs
Meeting Coordinator	:	Dr. Bhoomika D Sawant (PT) & Dr. Ramandeep Saini (PT)
Departments	:	Department of Physiotherapy.
•	:	
Speakers	:	Dr.Bhoomika D Sawant (PT) & Dr.Ramandeep Kaur Saini(PT)
Total number of students enrolled	:	54
Total number of students completed Value added course	:	54
value added course		Infection Control Biomedical waste management Seminar

Objectives of Celebration:

- 1. Understand the role and structure of infection prevention and control (IPC) program
- 2. Be able to describe key indicators of IPC program
- Know the basics of IPC audits
- 4. Know how to draft IPC policies and reports
- 5. Understand the relationship between IPC and occupational health and safety program.
- 6. To increase awareness on biomedical waste management and waste disposal in MGM Hospital.
- 7. To increase awareness on prevention of infection in IPD and OPD Setup.
- 8. To encourage Health care practitioners to maintaining Hand Hygiene in Hospital.

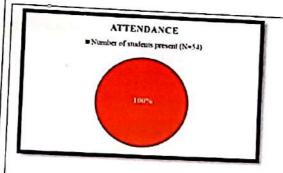

Activities of Event:

A Value Added Course on Infection Control and Biomedical Waste management was conducted by Dr.Bhoomika D Sawant(PT) & Dr.Ramandeep Kaur Saini(PT), Assistant Professor, MGM School of Physiotherapy, MGM Institute of Health Sciences, Kamothe, Navi Mumbai. Fifty-four students of MGM School of Physiotherapy, Kamothe attended the Value Added Course. Dr. Bhoomika S (PT) conducted a session on Infection control where she covered the topics like

hospital acquired infections and types of common infection. She also taught the basic rule of hand hygiene in clinical setup. On the next day of the course Dr. Ramandeep S (PT) conducted a session on biomedical waste management where she covered the topic like waste generation, segregation, transportation and treatment. Students were encouraged to actively participate in the course with questions and quizzes. The course outcome was evaluated using multiple choice questions. Fifty-four students successfully completed the value-added course.

MGM SCHOOL OF PHYSIOTHERAPY Sector-1, Kamothe, Navi Mumbai - 410209

Value Added Course

Basic Course on Road Safety and Traffic Rules 16hours (2022-2023)

Objectives:

- ✓ To improve road users behavior and acceptance of traffic rules and enforcement initiatives.
- ✓ Formulate and implement road safetypolicies
- ✓ Deliver post-crash care and transfer techniques

Attendees:

✓ I BPT students from MGM School of Physiotherapy, Navi Mumbai

Learning Outcomes: .

On completion of the course, student will be able to-

- ✓ Generate awareness about number of people dying every year in road accidents, traffic rules and characteristics of accident.
- ✓ Gain information and knowledge about people responsible for accidents and their duties
- ✓ Understand the importance of multidisciplinary approach to planning for traffic safety and rehabilitation

Course Co-ordinator: Dr. Neha Padia (PT)

Faculty Members: Dr. Shrutika Parab (PT),) Dr. Hiranmayee Bagwe (PT), Dr. Aamreen Ryain (PT),

Dr. Neha Padia (PT)

Road Safety and Traffic Rules 2022

Date	:	20/8/2022, 27/8/2022, 29/8/2022
Venue	:	MGM School of Physiotherapy, MGM Institute of Health
		Sciences, Kamothe, Navi Mumbai
Time	:	9:00pm- 5:00pm
Total Hours	:	16 Hrs
Meeting Coordinator	:	Dr. Neha Padia (PT), Assistant Professor, MGM School of
		Physiotherapy, Kamothe, Navi Mumbai
Departments	:	MGM School of Physiotherapy MGM Institute of Health
-		Sciences, Kamothe, Navi Mumbai
Speakers	:	Dr. Neha Padia (PT), Dr. Hiranmayee Bagwe (PT), Dr. Shrutika
		Parab (PT) & Dr. Aamreen Ryain (PT)
Attendees	:	Traffic rule- 83 students, Semester II BPT
		Road safety- 83 students, Semester II BPT
Event	:	Road safety and Traffic rules seminar and practical

Objectives:

- To acquire knowledge and understanding of the road environment.
- To inculcate decision making and behavioral skills necessary to survive in the road environment.
- To impart knowledge and understanding of the causes and consequences of accidents.
- To understand roles and responsibilities in ensuring road safety.

Activities of Event:

MGM School of Physiotherapy conducted a Value Added Course on Road safety and Traffic rules by Dr. Neha Padia (PT) & Dr. Aamreen Ryain (PT), Assistant Professor, MGM School of Physiotherapy, Kamothe Navi Mumbai. 99 students of Semester II BPT, MGM School of Physiotherapy, Kamothe attended the session. The seminar was conducted offline at second floor classroom 4 at MGM School of Physiotherapy, Kamothe Navi Mumbai.Dr. Shrutika Parab (PT) started with introduction on road safety and its importance. Dr. Aamreen Ryain (PT) took session on Traffic Rules, the traffic rules, signs and types of upper and lower limb injuries during the motor vehicle accident were explained. She also taught the basic guidelines to be followed while driving. Dr. Hiranmayee Bagwe took the session on chest and abdominal

trauma during road traffic accidents. Dr. Neha Padia (PT) emphasized upon spinal cord and brain injuries during motor vehicle accidents. She also elaborated upon the importance of maintaining speed limit, helmet on two-wheelers and seatbelts in four-wheelers. On accident site quick assessment followed by immediate helpline to inform upon. The next session was conducted by Dr. Neha Padia (PT), based on practical demonstration on safe carrying and lifting techniques during the road traffic accidents, with the help of available tools.

Dr. Aamreen Ryain (PT) explaining about traffic signs and rules

Dr. Aamreen Ryain (PT) demonstrating the types of upper limb injuries

Dr. Neha Padia (PT) demonstrating lifting and carrying techniques

Dr. Neha Padia (PT) instructing the students about the tools that can be used for safe lifting and carrying

Mahatma Gandhi Mission's Medical College

Value Added Course Computer Application [Conducted by School of physiotherapy, Aurangabad]

COMPUTER APPLICATION IN HEALTH CARE

The goals of medical education are to provide students and graduate clinicians specificfacts and information, to teach strategies for applying this knowledge appropriatelyto the situations that arise in medical practice, and to encourage development of skills necessary to acquire new knowledge over a lifetime of practice.

Information technology is an increasinglyimportant tool for accessing and managing medical information—both patientspecificand more general scientific knowledge. Medical educators are aware of theneed for all medical students to learn to use information technology effectively.

Computers also can play a direct role in the education process; students may interact with educational computer programs to acquire factual information and to learn and practice problem-solving techniques. In addition, practicing physicians may use computers to expand and reinforce their professional skills throughout their careers. The application of computer technology to education is often referred to as computer assistedlearning, computer-based education (CBE), or computer-aided instruction (CAI).

With its vast storage capacity, a computer can bean extension of the student's memory, providing quick access to reference and new content.

Multimedia capabilities allow the computer to present rapidly a much larger number of images than can be accessed through a book or an atlas and to supplement the static images with sounds, video clips, and interactive teaching modules. Immersive interfaces, which present three-dimensional worlds and allow touch and force feedbackthrough a joystick or instrumented glove, promise to support the training environment of tomorrow.

Ways Computers Are Used in Medicine

Medical Imaging

Medical imaging is a broad term that covers technology used to create images of the human body for study and diagnosis.

Patient Monitoring

Modern computer-based patient monitoring machines allow heart rate, respiratory activity, blood pressure and other critical vital signs to be collected automatically in digital form.

Computer-Assisted Surgery

Computers are used to assist in planning, teaching and performing many surgical procedures.

1 | Page

Principal
MGM School of Physiotherapu

Networks and Digital Communication

Computer networks and the internet have increased the means of communication between medical professionals with email, instant messaging, video chats and webinars.

Telemedicine

The concept of a house visit is returning to health care in the form of telemedicine.

Electronic Health Records

Perhaps one of the newest major developments in health care, the electronic health record (EHR) is also one of the most far-reaching.

Medical Databases

Computers have brought the development of many useful software solutions in the medical

Medical Research

Much of the current research being done into incurable diseases like AIDS and cancer involves the creation of complex computer simulations.

Computers and Hospital Administration

Most hospitals depend heavily on computers and specialized software that handles patient records, supply inventory, personnel scheduling and all the other details required to care for patients.

Uses of Computer in Offices

- > The typical doctor's office relies heavily on computer technology for day-to-day operations.
- > Everything from patient scheduling to billing to filing insurance claims takes place through a computer. Many doctors no longer write prescriptions, but instead send a digital prescription from their office computer directly to the patient's pharmacy.
- During diagnosis, many doctors consult online databases of medical conditions using a computer instead of looking at a medical book.

Why to learn computer skills:

- For this acquiring basic computer skill to use it effectively. To minimise error during working, patient care and early diagnosis with integrated approach for management of patient.
- ii. To get updated Knowledge and remain as lifelong learner.
- iii. To learn easy and swift communication skills such e-communication.
- iv. Most important be aware of research and innovation around the world and able to collaborate with various agencies. For that to become effective presenter of project.

'Hence this program to develop paperless hospital in future'

Eligibility:

Medical students (MBBS); MSc; BSc allied health science, Post Graduate and PHD

Short event report

Title: "Course in Zebra Fish Husbandry Education".

Location: Dept. of Medical Biotechnology, MGMSBS, Navi Mumbai

Dated on: 1st to 3rd March 2022

Value added course was organized by **Dept of Medical Biotechnology, MGMSBS, Navi Mumbai**. The training was for three days (1st to 3rd March 2022) at Zebrafish lab, Central research lab. In this 2 days course the attendees were 07. The organizers were **Dr. Himanshu Gupta** and **Dr. Mansee Thakur**.

During this training the importance of zebra fish as a model organism was discussed. The basics and scientific information of zebra fish was shared. Zebra fish has fully sequenced genome, easy genetic manipulation, high fecundity, external fertilization and rapid development, and nearly transparent embryo, zebra fish are a unique model animal for biomedical research, including studies of biological processes and human diseases. The theoretical knowledge as well as practical knowledge was provided.

Prior starting the theory session one MCQ pre test was conducted to evaluate how much basic knowledge of zebra fish do the attendees have.

Highlights of the zebra fish as an advantageous as it has better visualization of the processes in vivo due to its transparency, manipulation of the cell can be taken place at an early stages and its shorter reproductive cycle. Further focus was given on this model organism for its regenerative studies of heart, retina and tail respectively. Participants were explained about the zebrafish husbandry, different OECD guidelines and teratogenicity studies of Zebra fish. Participants were also given an overview of the different staining techniques. The characteristics of zebra fish and humans were depicted. The characteristics such as anatomy, diet and metabolism, growth, lifespan, cardiovascular system were explained. Participants were given an insight about the Comet assay (single cell gel electrophoresis) and common illnesses of the fish. An overview was given on the reproductive organs of the fish with respect to their anatomy, histopathology and TEM imaging. The sessions delivered developed a keen interest on further research aspects in zebra fish as a model organism.

In practical session following points were covered:

- -The identification of male and female zebra fish, proper caring and handling of fish.
- -Breeding setup and procedure.

-Zebrafish housing and basic requirements

Director

- -Image capture using Motic and Evos microscopes.
- -Visualizing different embryonic stages and endpoint monitoring .
- -Stained zebra fish embryo study under microscope.
- -Stained adult zebra fish study under microscope.
- -Zebra fish oral gavage was performed which can be used to deliver precise quantities of drug/test agents to zebrafish for study in biomedical research

Post test questionnaire was conducted a feedback was also taken from the participants of the Value added course .

KAMOTHE NAVI MUMBAI

Title: "Explore the DNA fragments".

Location: Dept. of Medical Biotechnology, MGMSBS, Navi Mumbai

Dated on: 27.01.2022

Value added course was organized by **Dept of Medical Biotechnology**, **MGMSBS**, **Navi Mumbai**. The training was for two days (26.01.2022 & 27.01.2022) at, Central research lab. In this 2 days course the attendees were 10. The organizers were **Dr. Mansee Thakur** and **Mr.Yogesh Patil**

The basics and scientific information of Molecular biology techniques such as DNA extraction and PCR with its applications was taught practically to the students

On the Day 1 - 26th Jan, 2022. Participants were given a brief introductory session on the how molecular biology techniques based on DNA analysis can be used for Diagnostic applications

The introductory lecture was delivered by Dr.Mansee Thakur on how the DNA based diagnosis can accelerate the conventional Microbiology diagnostic techniques. Therafter the introductory lecture was delivered by Mr.Yogesh Patil on what are different tools and techniques used for analysis of Genetic Materials and their practical applications.

In practice session the students were exposed to

- Basic Training on DNA Extraction from Blood
- Basic Training on DNA Extraction from Bacteria
- Primer Designing for PCR experiment

On Day 2 - 27th Jan 2022, the students were exposed to type of PCR and there importance in clinical Diagnosis thereafter the practical session was conducted by Mr. Yogesh Patil on:

- Overview on PCR and its Types
- Hands on training on PCR
- Gel Electrophoresis Overview
- Hands on training on Agarose Gel Electrophoresis
- Hands on training on Polyacrylamide Gel Electrophoresis

Post practice session MCQ based evaluation was carried out for the participants in order to issue the course completion certificates

Director

Title: "Let's begin the journey for start-up".

Location: Dept. of Medical Biotechnology, MGMSBS, Navi Mumbai

Dated on:

Value added course was organized by **Dept of Medical Biotechnology**, **MGMSBS**, **Navi Mumbai**. The training was for two days (08.03.2022 & 09.03.2022) at, Central research lab. In this 2 days course the attendees were 10. The organizers were **Dr. Mansee Thakur** and **Mr.Yogesh Patil**

The main goal of two days value added course on let's begin the start-up was to impart the entrepreneurial skills to young graduates studying in the various departments of MGM SBS

On the Day 1 – 08.03.2022. Participants were given a brief introductory session on

- 1. what is Start-up and Who can start it.
- 2. Flow chart exploration of various steps involved in the start-up
- 3. How to prepare start-up related documents etc.

The session was conducted by Mr. Yogesh Patil – Tutor department of medical biotechnology, MGM SBS & The practical assignments were given to the students regarding preparation of own idea and start-up related document.

Day 2: 09.03.2022 The session was again conducted by Mr.Yogesh Patil and Mr.Shamshad Ather (Ph.D Scholar- Medical Biotechnology) jointly for the participants and following points were covered on the same

- 1. How to prepare the busness plan
- 2. How to develop Revenue generation model
- 3. How to advertise the startup
- 4. How to seek the funding from the investors etc.

The practical demonstration was given to the students for preparation of business plan, Revenue generation model and advertising for the start-up. The course was ended with conducting the evaluator test for the participants.

Short event report

Title: Inner Transformation Program

Location: MGM SBS, Navi Mumbai **Dated on:** 06th June to 08th June 2022

Value added course was organized by MGMSBS, Navi Mumbai. The training was for three days ^(06th) June to 08th June 2022) of total duration of 16 hours at SBS 2nd floor in Classroom No. 1 In this ³ days course the attendees were 111. The organizers were Dr. Mansee Thakur with guest faculty Dr. Kapil Thakur. During this training the importance of Heartfulness Meditation in all healthcare **professionals** was discussed.

More than ever health care professionals find that stress has a huge impact on their patient's health and their own. Heartfulness cultivates a stable healing presence that benefits patients and providers alike. Heartfulness meditation techniques are widely used to manage stress, and are especially effective at reducing the stresses of time pressure and excessive workload that make modern health care so difficult.

On the Day 1: 6th June, 2022 Prior starting with various Activity Session attendees were evaluate to **know** their Mental State, how do the attendees feel, stress level, concentration level, etc. before the **sessions**. Participants were given a brief introductory session on Meditation, Role of spirituality, mastering oneself, Decrease burnout and increase performance, Joy and happiness through self reflection. Nurturing Environment.

After that the participants practiced guided 'Relaxation', which typically involved cultivating calm by using an object of focus.

On the Day 2: 7th June, 2022, the session started which teaching the participants the importance of **Heartfulness** meditation and Heartfulness Approach with practical experience. After which practical session on 'Mental Cleaning and Inner Connect' was conducted in which the participants were taught how to cleanse their body by removing all the negative energies and thoughts from one's body.

On the Day 3: 8th June, 2022, the last session was conducted on what is Universal Prayer, Empathetic Leadership, how to Inspire and aspire from the heart and how to Realign Priorities. After that the practical session on 'Mediation' was conducted with visualizing source of light in heart. This informative and practical session lit the inquisitiveness about the Mediation and Inner Transformation amongst the participants.

Various Activates were conducted to gauge the understanding of the sessions and how do the attendees feel, stress level, concentration level, etc. after the sessions.

Short event report

Title: Inner Transformation Program Location: MGM SBS, Navi Mumbai Dated on: 21st July to 23rd July 2022

Value added course was organized by MGMSBS, Navi Mumbai. The training was for three days (21st July to 23rd July 2022) of total duration of 16 hours at SBS 2nd floor in Classroom No. 1 In this 3 days course the attendees were 98. The organizers were Dr. Mansee Thakur with guest faculty Dr. Kapil Thakur. During this training the importance of Heartfulness Meditation in all healthcare professionals was discussed.

More than ever health care professionals find that stress has a huge impact on their patient's health and their own. Heartfulness cultivates a stable healing presence that benefits patients and providers alike. Heartfulness meditation techniques are widely used to manage stress, and are especially effective at reducing the stresses of time pressure and excessive workload that make modern health care so difficult.

On the Day 1: 21° July, 2022 Prior starting with various Activity Session attendees were evaluate to know their Mental State, how do the attendees feel, stress level, concentration level, etc. before the sessions. Participants were given a brief introductory session on Meditation, Role of spirituality Mastering oneself, Decrease burnout and increase performance, Joy and happiness through self reflection, Nurturing Environment.

After that the participants practiced guided Relaxation', which typically involved cultivating calm by using an object of focus.

On the Day 2: 22nd July, 2022, the session started which teaching the participants the importance of Heartfulness meditation and Heartfulness Approach with practical experience. After which practical session on 'Mental Cleaning and Inner Connect' was conducted in which the participants were taught how to cleanse their body by removing all the negative energies and thoughts from one's body.

On the Day 3: 23rdJuly, 2022, the last session was conducted on what is Universal Prayer. Empathetic Leadership, how to Inspire and aspire from the heart and how to Realign Priorities. After that the practical session on 'Mediation' was conducted with visualizing source of light in heart. This informative and practical session lit the inquisitiveness about the Mediation and Inner Transformation amongst the participants.

Various Activities were conducted to guage the understanding of the sessions and how do the attendees feel, stress level, concentration level, etc. after the sessions.

To. Dr. Mansee Thakur The Director. MGMSBS, MGMIHS, Kamothe, Navi Mumbai

Subject: Approval for conducting 3 days Value Added Course- Inner Transformation Program in MGM SBS and allocation of Second floor, Classroom No.1.

Dear Ma'am.

With reference to the subject mentioned above. I am writing to you as course coordinator of Value Added Course-Inner Transformation Program. I have to conduct a 3 days session program for third-Semester B.Sc. students at MGM School of Biomedical Sciences from 21st July to 23rd July 2022 The details are as follows,

Date	Event Title & Venue Details	Program Coordinators (Team members name)	Total No. of Participants
21st July	Inner Transformation Program-	Dr. Mansee Thakur	98 students
То	MGM SBS, Second floor,	and	30314001115
23 rd July 2022	Classroom no.1	Guest Faculty- Dr. Kapil Thakur	

Hence, I kindly request you for the approval. Also, I request you to allot the classroom for accommodating 98 students for conducting the course for the three days mentioned.

Thanking you,

Yours Sincerely

Dr. Mansee Thakur Course Cordinator, **HOD and Professor**

Value Added Course BLS PROVIDER COURSE Basic Life Support & First Aid [Conducted by Dept of Anesthesia]

1. Course Aspirants:

- 1) Ist, IInd, III/I year UG BSc Students
 - 2) Interns
 - 3) PG Degree/Diploma Students
- 2. Objectives of Course: To Provide safe environment for repeated practice of various Basic skills and to increase patient safety. At the end of course the student should be able to :-
 - Recognize cardiac arrest,
 - Provide effective chest compressions
 - · Provide artificial ventilation
 - Use AED
 - Provide First aid for common medical emergencies like trauma, hemorrhage, Burns, poisoning,
 Snakebite & dog bite etc
 - To teach communication skill, and team dynamics

3. Duration of the Course:

- 18 hours
- 4. Course Content:
- First Aid:, Airway obstruction management, first aid for trauma, poisoning, hemorrhage, burns, dog
 bite, snake bite & common medical emergencies like bleeding from nose, convulsions etc
- BLS: chain of survival, Recognition of cardiac arrest, How to call for help, Chest compressions,
 Artificial ventilation, , AED use, Recognition and management of respiratory arrest, management of
 Obstructed airway, Infant and child CPR, Team dynamics
- 6. Teaching methods: a. Lectures
 - b. Videos
 - c. Practical skill demo on manikin
- d. Practice sessions on manikin
- 1 | Page

- e. Practice & skill on manikin
- f. Team dynamics role play
- 7.Student Capacity: 30 students
- 8. Assessment: a. Pre Test
 - b. Practical skill test (including team dynamic) using checklist (85% marks for passing)
 - c. Theory examination (MCQ) (85% marks for passing)
 - d. Remediation for poor performers
 - e. Post Test after remediation
 - f. Feedback

Training schedule of Basic cardiac life support – Students (UG)

Week 1 2pm to 5.00 pm

Sr No	ACTIVITY	Time
1	Introduction to BLS, Recognition of arrest	2.00-2.30
2	Core links chain of survival of BLS	2.30 3.00
3	Chest compression	3.00-3.30
1	Video	3.30-5.00

Week 2 2pm to 5.00 pm

Sr No	Activity	time	
	Practice on Manikin	2.004.00	
_	Airway problem after cardiac arrest, Airway management	4.00-5.00	

Week 3 2pm to 5.00 pm

Sr No	Activity	time	
1	Breathing, use of pocket mask and bag mask, ventilation	2.00 2.45	
2	Foreign body obstruction adult and pediatric Respiratory arrest , treatment	2.45-3.15	
3	Video of respiratory arrest management, practice	3.15-4.00	
4	AED lecture and video	4.00 5.00	

Week 4 2pm to 5.00 pm

rNO	Activity	
1 2	Infant and child CPR Practice of Infant and child CPR Team dynamics	time
		2.00 3.00
		3.00 4. 00
5		4.00-5.00

Week 5 2pm to 5pm

Sr No	Activity	tion o
1	First Aid Lecture cum demonstration and video	time
2	Practice of techniques	2.00 3.00
3	·	3.00 4.00
<u> </u>	Practice of chest compression and ventilation	4.00-5.00

Week 6 2pm to 5.30pm.

Sr No	Activity	time	
1	Revision practice and team dynamics	2.00 3.00	
2	CPR in special situations eg. Pregnant patient, trauma.	3.00 3.30	
2	Examination (theory)	3.30 4.00	
3	Examination (practical)	4. 005.00	
4	Remediation and feedback	5.00 5.30

Value added Course

Patient Safety

Name of the Co-Ordinator: Mrs. Maria Preethi Mathew (Associate Professor)

Target Audience: B.Sc. Nursing Students

Venue: 3rd Floor Class room, MGM New Bombay College of Nursing

Dates: 9th July 2022 to 13th August 2022

Time: 1.30 pm to 4.30 pm (All Saturdays)

Duration: 16 hours

Course objectives: This course aims nursing students to practice safe patient care.

Specific objectives:

At the end of course the students will be able to

- Recognize the challenges and burden of unsafe care.

- Envisage future complexities and challenges concerned with patient safety.

- Detect unsafe acts and enhance good safety management system

- Identify the adverse events through mandatory and voluntary report system

Day One: 9th July 2022

Total twenty five participants from second year B.Sc Nursing enrolled in the value added course and present on the first day of course. Mrs. Preethi Mathew, Coordinator of the course welcomed the gathering and briefed the objectives and course content. Pre-test was taken from the participants.

Session I: Fundamentals of patient safety and emerging challenges in patient safety

Mrs. Maria Preethi Mathew, Associate Professor MGM New Bombay College of Nursing, Kamothe delivered the session. She gave a detailed explanation on components of patient safety which includes policy, Diagnosis, Medication, Surgical procedures, various health care related infections and injuries resulting from fall, unsafe devices etc. She also emphasizes the emerging challenges up patient safety which include increased demand for health care, increasing complexity, risk of care coordination, information technology, reduction in direct contact between patients and professionals, lack of continuing education, transparency in quality data. Session concluded emphasising the importance of patient safety.

(Deemed to be University) Grade 'A++' Accredited by NAAC

MGM NEW BOMBAY COLLEGE OF NURSING

5th Floor, MGM Educational Campus, Plot No. 1& 2, Sector-1 Kamothe, Navi Mumbai – 410 209.

Session II: International patient safety Goals

Mr. Muniyandi S, Associate Professor, MGM New Bombay College of Nursing spoke on patient safety Goals. He emphasises on six goals mainly identify patient correctly, improve effectiveness of communication, improve the safety of high alert medications, ensure correct site, correct procedure, correct patient and surgery, reduce the risk of health care associated infections, reduce the risk of patient harm from fall.

Day Two: 16th July 2022

Twenty-three participants were present on the second day

Session III: Communication

Mrs. Smruti Parker, Tutor, MGM New Bombay College of Nursing explained regarding effective communication and common barriers to effective communication. Breakdown in the communication can cause major errors in patient care which even can lead to patient injury and death. She briefed the elements of effective communication skills and how they are important at workplace. Also explained regarding informed consent as a legal document and what information needed in informed consent and how it acts as a legal document. The session ended with a strong message "communication is a critical factor in delivering good health care.

Session IV: Infection Control and Prevention

Mrs. Priyanka Khedkar Infection control nurse of MGM Medical College Hospital, Kamothe gave detailed overview on infection control where she said Infection control refers to the policy and procedures implemented to control and minimize the dissemination of infections in hospitals and other healthcare settings with the main purpose of reducing infection rates. Hospital Acquired Infections (HAI's) are of major concern to all hospitals as it leads to prolonged treatment & hospital stay, increase cost of treatment to patient & hospital. Practicing hand hygiene is a simple yet effective way to prevent infections. She concluded saying cleaning our hands can prevent the spread of germs, including those that are resistant to antibiotics and are becoming difficult, if not impossible, to treat. Similarly, Biomedical waste management, Adherence to standard precautions & Needlestick Injury policy contributes to minimize the infection control rates in the hospitals. The session was followed by activities conducted by Infection Control team for all students:

1. Demonstration of Hand Hygiene

2. Quiz was given regarding Moments of Hand Hygiene

3. Segregation of Biomedical waste

4. Process of NSI was explained with the help of flow diagram

Day Three: 23rd July 2022

Twenty-four participants were present on the third day

Session V: Types of Error in Health Care System

The session was delt by Mrs. Sarika Nair, Tutor MGM New Bombay College of Nursing who spoke occurrence of adverse events due to unsafe care is the likely 10th leading cause of death and disability in the world. According to a Harvard study, 5.2 million medical errors occur in India annually. Medical errors are an important public health global problem and pose a serious threat to patient safety and quality of care. She stressed various health care system errors identified are medication events, health care associated infections, surgical errors, laboratory errors, patient falls, pressure sores, documentation errors. Identify the probability of occurrence of errors and avoiding them helps in prevention of life-threatening adverse events in health care setting.

Session VI: Patient safety and Invasive procedures

Mrs. Sanjuktha Mohanthy, Tutor, MGM New Bombay College of Nursing discussed main causes of adverse events in surgical procedures. Main types of adverse events associated with invasive procedure includes Poor infection control methods, inadequate patient management communication failure etc. She explained how to use safety guidelines and checklist, verification process. She even emphasized team work can facilitate the correct patient receiving the correct treatment at the appropriate time and place.

Day four: 6th August 2022

Twenty-four participants were present on the fourth day.

Session VII: Role of health care Team in Patient Safety

Dr. Jyoti Choudhari, Associate Professor, MGM New Bombay College of Nursing gave detailed explanation regarding the team members and importance of various types of teams working for patient safety. She high-lightened six domains of safety competencies required for effective team work like communicate effectively, work in teams, contribute to culture of patient safety, recognize, respond and disclose adverse events and optimize human and environmental factors and manage safety risks.

MGM NEW BOMBAY COLLEGE OF NURSING

5th Floor, MGM Educational Campus, Plot No. 1& 2, Sector-1 Kamothe, Navi Mumbai – 410 209.

Session VIII: Safety Codes

Mrs. Mankayarkarasi Sekar, Nurse Preceptor MGM New Bombay College of nursing explained an emergency code is a notification of an event that require immediate action. She discussed various codes used in hospital setting like code blue for cardiac arrest, code red external disaster, Code Pink baby disaster, Code grey security threats or workplace violence and code orange medical emergency team, code violet used in violent, code yellow during disaster etc. She also explained the role of health workers in these emergency code and how to tackle during this emergency situation

Session IX: Documentation

Mrs. Vandana Kumbhar, Associate Professor, MGM New Bombay College of Nursing discussed on purpose and importance of documentation, principles and guidelines for quality of documentation. Types and methods of documentation, nurses' responsibility in maintenance of documentation. She also demonstrated the ways of writing documentation in the wards.

Day five: 13th August 2022

Twenty-four participants were present on the fifth day

Session X: Measuring and Improving medication safety -Adverse events and Near Misses

Ms. Feba Benwal, Audit Nurse, MGM Medical College Hospital, Kamothe explained medicines are used to treat diseases, manage conditions, and relieve symptoms. Medicines are generally safe when used as prescribed or as directed on the label, but there are risks in taking any medicine. Hence awareness regarding safe se of medication and prevention of medication errors are very important. There is an estimate of 44000-98000 deaths occurs annually due to medication error and it is one of the most five leading causes of death globally. The impact of medication safety incidents on patients includes increased length of stay, mortality and morbidity. She emphasized on medication errors and extent of medication errors impact on patient care. She Discussed the factors that contribute to errors and the impulse to "place blame" on healthcare workers and various approaches to minimize the risk of medication errors. A medication error is any preventable event that may cause or lead to inappropriate medication use or client harm while the medication is in control of health care professional client or consumers. Different types of medication errors include prescription error, dispensing error, administration error, documentation error and monitoring error. Different ways to prevent medication errors were discussed including 10 rights and 3 checks, identification of high alert and LASA drugs etc. Classification of incidents into near miss, no harm, adverse events and sentinel events were briefed. ay Col

service sides

No. of participants registered for the course: 25 students, 8 from 3rd year BSc and 12 from 1st

year PBBSc Nursing, batch 2021-2022

No. of participants with 100% attendance: 16

No. of students who attended pre-test and post-test both: 16

No. of students scored above 50% in post-test: 16

No. of students eligible for receiving certificate (registered, completed assessment, attended and scored above 50%): 16

Brief of the Activity: MGM New Bombay College of Nursing has organized 16 hours value added course on Palliative Care Nursing under the guidance of Dr. Prabha K. Dasila, Professor and Director, MGMNBCON, Navi Mumbai. The course was spread over 7 weeks on Saturdays. Brochure along with objectives and resource person is attached for the reference.

Dr. Jyoti Chaudhari, Associate Professor and course coordinator informed 3rd year BSc. And 1st year PB BSc. Nursing students about importance of course on Palliative Care Nursing, its schedule and eligibility criteria for receiving the certificate. Circular was uploaded on the notice Board and the college website. Total twenty-five students registered for the course.

Pretest and post test was conducted in the beginning and at the end of the course respectively. The resource persons used various teaching learning methods such as videos, PPT, brainstorming, role play, case discussion, group work and presentation, etc during the course. All sessions were conducted offline. Recapitulation was done after the post-test by the group of students. Two student representatives gave feedback about the course. They appreciated the expertise and participatory methods of teaching used by speakers.

Duration: 16 hr.

Name of the activity

: Value added course on Transplant Nursing Care

Organizing Institute

: MGM New Bombay College of Nursing, Kamothe, Navi

Mumbai.

Venue

:4th year BSc Nursing classroom

Name of the scheme

: Academic activity

No. of resource persons

: Total 7 speakers, nursing professionals from academics and

service, and doctors

No. of participants registered for the course: 26 students from Fourth year BSc Nursing, batch

2021-2022

No. of participants with 100% attendance: 11

No. of students who attended pre-test and post-test both: 11

No. of students scored above 50% in post-test: 14

No. of students eligible for receiving certificate (Registered, completed assessment, attended and post test scored above 50%): 11

Brief of the Activity: MGM New Bombay College of Nursing has organized 16 hours value added course on Transplant Nursing Care under the guidance of Dr. Prabha K. Dasila, Professor and Director, MGMNBCON, Navi Mumbai. The course was spread over 4 weeks on every Saturdays. Brochure along with objectives and resource person is attached for the reference.

Dr. Jyoti Chaudhari, Associate Professor and course coordinator informed fourth year BSc. Nursing students about importance of course on Transplant Nursing Care, its schedule and eligibility criteria for receiving the certificate. Circular was uploaded on the notice Board and the college website. Registration of participants were done online.

Pretest and post test was conducted in the beginning and at the end of the course respectively. The resource persons used videos, PPT, brainstorming sessions and self-directed learning activities such

as reading review articles, preparation of flow charts, making report, writing care plan, etc. Three sessions were conducted on hybrid mode when speakers were from MGM New Bombay Hospital, Vashi. Recapitulation was done after the post test. Students found that course was informative.
