#### 2.3.1-STUDENT CENTRIC TEACHING -LEARNING METHODOLOGIES

MGM New Bombay College of Nursing practices student centric approach in teaching learning. Different methodologies are being followed such as Experiential Learning, Patient Centric learning, Self-Directed learning, Participatory Learning and Project based learning. These methodologies help to transform students from being passive recipient to active learners. Various audio-visual aids are also used during teaching learning process like charts, flash cards, Power point presentations, models, posters, display boards, puppets, flip charts, handouts etc.

### ANC Camp Nere (July 2022)

Date : 9th July 2022  
Activity : Antenatal Care Camp  
Venue : Primary Health Centre, Nere (*Raigad district*)  
Time : 10:30 am – 2.00 pm  
Attended by : Faculty member: Dr. Ramandeep Kaur Saini (PT)  
Students: Mr. Hrishikesh (Final year)

Preamble: MGM School of Physiotherapy, Navi Mumbai in collaboration with Community Medicine Department organized Antenatal Care Camp for rural patients on, 9th July 2022 under the flagship program of Unnat Bharat Abhiyaan and Pradhan Mantri Surakshit Matritva Abhiyan

#### Objectives:

1. To screen Antenatal females for musculoskeletal impairments and help them with self-management strategies.
2. To educate them about importance of nutrition, both antenatal and post-natal.
3. To educate about various postures to be adopted to reduce pain and discomfort.
4. To teach basic ergonomics for activities of daily living.
5. To emphasize role of exercises and breathing techniques in management of various discomforts during pregnancy.

#### Summary:

MGM School of Physiotherapy, Navi-Mumbai in collaboration with Community Medicine department organized an Antenatal camp in Primary Health Centre, Nere, on 9th July 2022, Saturday. The ANC camp constituted of 34 participants. All the participants were screened individually for various discomforts and impairments in pregnancy. 20.5% women complained of low back pain while 6% had intercostal neuralgia and only 3% women complained of pedal edema & dyspnea. Rest 67.5% women were healthy. They were taught breathing exercises and Pelvic floor strengthening exercise that would help to prevent future complications. Women in the 3<sup>rd</sup> trimester were made aware about the stages of labor and they were explained about the various do's and don'ts which is to be followed. Dyspnea relieving positions were demonstrated. They were also made aware of the various breast-

## Physiotherapy Camp for Residential Area

Date: 16.07.2022

<b>Preamble</b>	:	Physiotherapy health camps for residential areas are conducted to screen and identify the burden of non-communicable conditions that impact physical functioning, early detection, intervention and referral. It helps in structuring preventative and rehabilitation services.
<b>Objective</b>	:	<ul style="list-style-type: none"><li>-Early detection, rehabilitation and monitoring pertaining to physiotherapy care.</li><li>-To engage students towards the delivery of community based preventive health care needs.</li><li>-Need analysis of non-communicable diseases in urban and rural community.</li></ul>
<b>Date and Time</b>	:	16th July 2022, 9.30 am to 04.00 pm
<b>Organized by</b>	:	Community Physiotherapy Department, MGM School of Physiotherapy, Navi Mumbai
<b>Event Coordinator</b>	:	Dr. Viral Sarvaiya (PT), Assistant Professor, MGMSOP
<b>Attended by</b>	:	56 residents, 13 final year BPT students, 3 MPT Scholars, 1 PhD Scholar, 1 Assistant Professor
<b>Venue</b>	:	Vashi Haveli Plot no. 59/D Sector no. 29, Vashi, Navi Mumbai
<b>Summary</b>	:	<p>MGM School of Physiotherapy, Navi-Mumbai organized a physiotherapy camp for residential area at Vashi Haveli on Saturday, 9th July 2022. Screening for shoulder, knee, low back pain, urinary incontinence, cardiovascular risk and neurological disease such as stroke, Parkinson's disease for 56 residents, 23 males and 33 females was conducted. Comprehensive geriatric assessment was done for 21 elderly.</p> <p><b>Findings:</b> Health issues identified are follows-</p>

#### Intervention:

1. Awareness sessions was conducted in group about importance of physical activity levels, taking ownership towards healthy lifestyle, coping strategies and exercise demonstration.
2. Neuromuscular exercise training, sliding exercises with support, strengthening and aerobic exercises was stressed upon for knee pain.
3. Residents were motivated to increase their physical activity levels. ACSM recommended exercise guidelines were referred. A low cost community-based exercise program, moderate intensity aerobic walking and cycling for a minimum of 30 min for five days per week was recommended.
4. Residents with joint pain were taught self stretching, mobility, postural correction and strengthening exercises.
5. Individual session on balance and fall prevention strategies for elderly was conducted.

For further detailed assessment and management on need basis, residents were referred to MGM physiotherapy OPD at Vashi.

	<p><b>Intervention:</b></p> <ol style="list-style-type: none"> <li>1. ## Physiotherapy Camp for Residential Area

Date: 09.07.2022 Day 2

<b>Preamble</b>	: Physiotherapy health camps for residential areas are conducted to screen and identify the burden of non-communicable conditions that impact physical functioning, early detection, intervention and referral. It helps in structuring preventative and rehabilitation services.
<b>Objective</b>	: <ul style="list-style-type: none"><li>-Early detection, rehabilitation and monitoring pertaining to physiotherapy care.</li><li>-To engage students towards the delivery of community based preventive health care needs.</li><li>-Need analysis of non-communicable diseases in urban and rural community.</li></ul>
<b>Date and Time</b>	: 9th July 2022, 9.30 am to 01.00 pm
<b>Organized by</b>	: Community Physiotherapy Department, MGM School of Physiotherapy, Navi Mumbai
<b>Event Coordinator</b>	: Dr. Viral Sarvaiya (PT), Assistant Professor, MGMSOP
<b>Attended by</b>	: 37 residents, 10 final year BPT students, 2 MPT Scholars, 1 PhD Scholar, 1 Assistant Professor
<b>Venue</b>	: Haware Nirmiti CHS, Sector 22, Kamothe, Navi Mumbai (Day 2)
<b>Summary</b>	: <p>MGM School of Physiotherapy, Navi-Mumbai organized a physiotherapy camp for residential area at Kamothe on Saturday, 9th July 2022. Camp was set up at the society premises where screening was done for shoulder, knee, low back pain, urinary incontinence, cardiovascular risk and neurological disease such as stroke, Parkinson's disease for 37 residents, 16 males and 21 females. Comprehensive Geriatric Assessment was administered for the elderly.</p> <p><b>Findings:</b> Health issues identified are follows-</p>

#### Intervention:

1. Residents were encouraged to take ownership towards their physical health, develop coping skills and take advantage of community settings (Reference: WHO Health promotion guidelines).
2. Residents were motivated to increase their physical activity levels. ACSM recommended exercise guidelines were referred. A low cost community-based exercise program, moderate intensity aerobic walking and cycling for a minimum of 30 min for five days per week was recommended.
3. Residents with joint pain were taught self stretching, mobility, postural correction and strengthening exercises.
4. Individual session on balance and fall prevention strategies for elderly was conducted.
5. Furthermore, door-to-door approach was adopted covering 88 houses, to create awareness for preventive health care and exercises. Home physiotherapy service was provided for 7 participants.

For further detailed assessment and management on need basis, residents were referred to MGM physiotherapy OPD at Kamothe.

<b>Impact:</b>	
<b>Participant's Feedback</b>	: Participants were thankful towards the efforts undertaken by MGM School of Physiotherapy for conducting a physiotherapy camp. They were gratified by the awareness created towards toward physical activity, selection of exercises and healthy lifestyle. They realized the importance of physiotherapy and helpfulness of such camps. Provision of home services received respect and acknowledgement.
<b>Student's Feedback</b>	: Students were able to utilized the experiential learning opportunity to its fullest. They gained confidence in screening, assessment and communication skills. They could acknowledge the value of community based preventive health care needs. They were satisfied with the on field application of health promotion strategies.

#### Experiential Learning: Industrial Visit

Name of the Programme: Master of Physiotherapy

Batch: Semester I

Subject: Prosthetic and Orthotics

Student-Centric Method: Experiential Learning, Industrial Visit

Topic: Prosthetic and Orthotics

Faculty Conducted: Dr. Anisha Gulati (PT)

No of students participated: 4

Brief of Activity:

MGM School of Physiotherapy, Navi Mumbai conducted an industrial visit to Proactive India Pvt Ltd, a prosthetic and orthotics manufacturing industry. Opening session began with an educational presentation outlining the company's accomplishments on a global scale. Visit to primary factory producing different components of a prosthetic limb was arranged for the students for observation. Digital sketch and 3-D model of prosthetics were displayed in solid edge software. Furthermore, company's mechanical engineers educated students on different stages of orthosis production. The students found the session very informative and suggested more such industrial visit in the curriculum

#### Field Visit

Name of the Programme: Bachelor of Physiotherapy

Batch: Semester I

Subject: Environmental Sciences

Student Centric Method: Field Visit

Topic: Environmental Science; Bird and reptile species

Faculty Conducted: Dr. Amrita Ghosh (PT)

No of students participated: 99

Brief of Activity:

An academic visit was organized by MGM School of Physiotherapy, Navi Mumbai to reinforce importance of environmental conservation and biodiversity of migratory birds. Dr. Payal Murkudkar (PT) guided the students for identification of bird's species and educated them about its peculiarities. Students reported it as an interactive session and requested for more such academic visits

## Skill Lab Session

Name of the Programme: Bachelor of Physiotherapy

Batch: IV BPT (2021-22)

Subject: Neuro Physiotherapy

Student Centric Method: Skill Lab Session

Topic: Spinal Cord Injury

Faculty Conducted: Dr. Neha Padia (PT)

No of students participated: 78

Brief of Activity:

A field trip to the Sharan Paraplegic Center was planned by the MGM School of Physiotherapy to train students for rehabilitation of patients with spinal cord injury. In the paraplegic center's physical therapy room, students were gathered in batches. Different transfer procedures, including bed to wheelchair, wheelchair to commode, seat to stand in a parallel bar from wheelchair, and wheelchair to floor, were demonstrated by faculty member Dr. Neha (PT). The management techniques were divided into pre-crutch and crutch training as the programme progressed. Furthermore, a hands-on practice session was given to the students. The lesson was educational and engaging for the learners.

Annexure: Geotagged Photos of each method

### Activity Based Learning

Name of the Programme: Bachelors of Physiotherapy

Batch: Semester II BPT (2021-22)

Subject : Human Physiology II

Student Centric Method: Peer Assisted Learning

Topic: Physiology of reflexes and muscle tone

Faculty Conducted: Dr. Neha Padia (PT)

No of students participated: 85

Brief of Activity:

MGM School of Physiotherapy, Navi Mumbai frequently conducts activity-based learning session for the BPT students. Dr. Neha Padia (PT) organized a game session for the topic Physiology of reflexes and muscle tone. The students played games like dodge ball to understand the reflex system and movement control. It was an active session which inculcated quick thinking and learning. The student reported the session to be interactive and informative. They requested for more such sessions.

## Peer-Assisted Learning- Think Pair Share

Name of the Programme: Bachelor of Physiotherapy

Batch: Semester II

Subject: Human Physiology II

Student-Centric Method: Peer-Assisted Learning- Think Pair Share

Topic: Sensory and motor Tracts of spinal cord

Faculty Conducted: Dr. Neha Padia (PT)

No. of students participated: 95

Brief of Activity:

A creative session was organized to stimulate kinesthetic learning and to increase student participation during lectures. Students were asked to make cutouts of transverse sections of the brain and spinal cord. Using the cutouts and thread, the faculty in-charge demonstrated to them how the tracts run through spinal level. The pathways of spinal tracts was then demonstrated by the students to each other. Additionally, they were able to explain to their peers how these tracts worked. The students reported it to be a fun and interactive session.

## **Report of Ambedkar Jayanti-2022 celebration at MGMIUDPO.**

**Name of the event:** Celebration of Ambedkar Jayanti-2022 at MGMIUDPO.

**Purpose:** To create awareness about the sacrifices of Dr. Babasaheb Ambedkar for the nation and remember his role in formation of constitution of India.

**Date of the event:** 13<sup>th</sup> March 2022.

**Time of the event:** 03.00PM -05:00PM

**No. of participants** -02 Faculty and 20 students of MGMIUDPO.

### **Proceedings:**

Dr. Babasaheb Ambedkar jayanti is celebrated on 14<sup>th</sup> April every year.

This year MGMIUDPO celebrated Ambedkar Jayanti-2022 under NSS activity to draw the attention of students towards the role of Dr. Babasaheb Ambedkar in formation of constitution and society which respect equal rights and give equal opportunity to all instead of their gender, religion, cast and color etc.. by which India a super power nation is formed.

The program began with the warm welcome to the attendees by Dr. Uttara Deshmukh (HOD, P&O) to all participants.

The program proceeded with a Quiz Competition organized by MGMIUDPO with 4 teams. She revealed the theme of the program & explained the rules and regulations.

Dr. Uttara Deshmukh took lead to conduct the program. There were total 4 teams with several candidates of every year of BPO Program in each team.

**Team A:** Ms. Prajakta Tari, Mr. Akhil Sunny, Ms. Pranaya More, Ms. Riya Gawde, Mr. Siddhesh Mali.

**Team B:** Ms. Sakshi Thakkar, Ms. Yashashree Gawde, Ms. Shaifa Khan, Mr. Rushikesh Rajgude, Mr. Rohan Dekate.

**Team C:** Ms. Vanshika Raval, Mr. Krutik Jadhav, Mr. Lav Kumar, Mr. Hitesh chorge, Mr. Rohan Sangade.

**Team D:** Ms. Gursimran Kaur, Ms. Mariya Ubare, Mr. Shivam, Mr. Divyanshu, Mr. Sabu. Thalib.

All the questions were asked regarding the life and achievements of Dr. Babasaheb Ambedkar and each team had chance to answer. The points were given to the team who gave the first correct answer.

The program ended by announcing the winners of the Quiz competition. The first rank was received by Team 'A'.

Students enjoyed the Quiz as a different activity.

### REPORT OF EDUCATIONAL VISIT TO AIIPMR.

**Name of the event:** Educational visit to "All India Institute of Physical Medicine & Rehabilitation"

**Purpose:** To provide vide exposure to the students to upgrade knowledge about various manufacturing processes in the field of Prosthetics & Orthotics.

**Location:** All India Institute of Physical Medicine & Rehabilitation, Haji Ali, Mumbai, Maharashtra.

**Date:** 24<sup>th</sup> & 25<sup>th</sup> November 2021,

**Time:** 09:00 AM to 2:00 PM.

**No. of attendees:** 02 Faculty & 26 Students of MGMIUDPO.

#### **PROCEEDINGS OF THE EVENT:**

The students of MGM IUDPO were given an opportunity to know about the All India institute of Physical Medicine & Rehabilitation on 24<sup>th</sup> & 25<sup>th</sup> November 2021 by an educational exposure to the Institute under the guidance of Dr. Ravi Barela (P&O) & Dr. Pratiksha Shelar (P&O).

The specialty of this institute is that, an ample of patients are fitted with ample of Prosthetics and Orthotics solutions with very reasonable cost. The most critical and challenging cases in the field of rehabilitation are treated and fitted with variety of Prostheses and Orthoses splendidly. This Government Institute is self-sustainable in the production of all Prosthetics and Orthotics components.

The students were given an opportunity to know about specialized departments in the institute broadly classified as Metal, Wood, Leather and Plastic.

Metal forging and electroplating, Wood seasoning and Leather tanning processes to fabricate conventional types of Orthoses and Prostheses are some of the unique qualities of this institute.

Students were exposed to the variety of conventional to advanced technologies by Dr. Makarand Saraf and upgraded their knowledge in the core subjects.

**Report of MIC Activity organized by MGMIUDPO, under IIC, MGMIHS, Navi Mumbai**  
**for I & II Quarter 2022**

**Name of the Event:** Industrial Visit to Proactive India Pvt. Ltd.

**Purpose of the Event:** To motivate the students in the area of innovation by exploring their knowledge in fabrication of Prosthetic and Orthotic components.

**Date of the Event:** 18<sup>th</sup> February, 2022

**No. of Participants:** 27 Students of MGM Institute's University Department of Prosthetics & Orthotics, 8 students from MGM New Bombay College of Nursing and 4 students from MGM School of Physiotherapy, Navi Mumbai.

**No. of Faculty:** Dr. Uttara U. Deshmukh, Head of the Department, Department of Prosthetics and Orthotics, MGM Institute of Health Sciences, Kamothe, Navi Mumbai.

**PROCEEDINGS OF THE EVENT:**

An educational visit was organized by MGM Institute's University Department of Prosthetics and Orthotics as an interdisciplinary activity for the First and Second Quarters' events under Institution Innovation Counsel, MGM Institute of Health Sciences.

The visit was organized on 18<sup>th</sup> February 2022 to Proactive Technical Orthopaedics Pvt. Ltd at Nigdi, Pune where students from all three colleges got exposure to the manufacturing, assembling, and exporting various Prosthetic and Orthotic components.

'Proactive India Pvt. Ltd.' which is the India's first manufacturer company who manufactures the Prosthetic components and exports them globally over 30 countries. They have their own designed machineries and fabrication unit along with a clinical set-up.

They have a corporate office located at Nigdi and three factories located at MIDC Industrial area, Bhosari, within the vicinity of 5 KM radius.

During the visit, the students were exposed the process of designing to manufacturing of different Prosthetic components like Pyramid Socket Adapter, Four Prongue Adapters, Double Mouth Adaptors and Prosthetic Feet etc.

The process of manufacturing of components from raw materials to desired products was explained by the eminent professionals in a very interactive manner.

They have the production of about 200 Prosthetics kits per month which gives students a large exposure of handling of mass production.

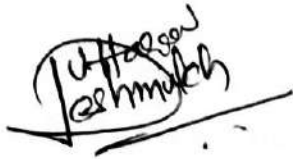

Also students had seen working mechanism of Drilling Machine, Milling Machine, and Lathe Machine.

The institute had organised a motivational story of their own patient who was fitted with the company's products.

Lastly the Mr. Sumit Bhounik, proprietor of the company explained in detail about the working mechanisms of various Prosthetic components, the need based research and innovations of the same and how the products are exported to the other countries.

Over all the industrial visit enhanced the students' knowledge and provided them vision about many other aspects than the conventional.

### Report of Motivational Guest Lecture by Dr. Akshay Chavan.

**Name of the event:** Motivational Guest lecture by Dr. Akshay Chavan.

**Purpose:** To motivate the students towards their academic excellence and provide insight about various high-tech equipment in Prosthetic & Orthotic technologies.

**Date:** 09<sup>th</sup> March 2022.

**No. of participants** -01 Faculty and 22 students of MGMIUDPO.

#### Proceedings:

Dr. Uttara Deshmukh gave a warm welcome to Dr. Akshay Chavan, MPO, Gold Medalist followed by acknowledgement statement by her in which she shared about the achievement of him with students.

The session started with students interaction about their views regarding P&O field, then a questionnaire session was taken by Dr. Akshay Chavan, MPO, Gold Medalist, in which he questioned about advancement of Prostheses and Orthoses, also clarified the doubts of the students regarding the same. After that he provided guidance and basic skills requirement for the beginning of the startups.

Overall the session was very interactive and informative to all students in which the students learnt about the facilities of Government of India for the benefits of them.

### **REPORT OF MOTIVATIONAL SESSION BY SUCCESSFUL ENTREPRENEUR** **"MY STORY"**

**Name of the event:** My Story- "Motivational session by a Successful Entrepreneur/start up founder"

**Purpose:** To motivate the students for being an entrepreneur & effectively start- up founders.

**Mode of the Event:** Via Zoom Online Video Call Platform.

**Date:** 5<sup>th</sup> February 2022,

**Time:** 11.00 AM - 12.15 PM

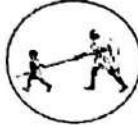

**No. of attendees:** 184 participants (12 Faculty and 172 students).

#### **Proceedings of the event:**

The Event was started with warm welcome to all delegates including dignitaries (P&O), students & faculty of MGMIHS and the chief guest of the programme Mr. Aneesh Karma, innovator & social Entrepreneur, Founder – Shukrrab Research Foundation (SRF) by Dr. Uttara Deshmukh, Head of the Department, Department of Prosthetics and Orthotics.

In the welcome address, Dr Raman P. Yadav, Convener, Institution Innovation Council, MGMIHS explained about the Innovation Council to popularize innovation among the students and faculty in educational institutes.

The session was continued by Mr. Aneesh Karma. Mr. Anish Karma spoke about his journey from a layman to the start-up founder! He informed that he along with his wife are the victims of Polio. Hence they were in search of better quality of life by means of orthotic devices. He continued stating the invention journey of Mechanical Actuated Stance Control Knee Ankle Foot Orthosis (M.A.S.C.K.A.F.O.) and start-up of Aumeesh Tech. Pvt. Ltd. which is society of innovation and entrepreneurship specialised in the field of design, development, manufacturing and distribution of assistive devices incubated in SINE and IIT Bombay. During his journey of life, he has faced many ups and downs but he struggled through this life without getting demoralised. In this way Mr.

## GLIMPSES OF IIC EVENT MOTIVATIONAL SESSION BY SUCCESSFUL ENTREPRENEUR "MY STORY" DATE – 5.2.2022

**Preliminary Feedback**

**Market Research:** 11 Doctors | 73 Patients | 16 Vendors

**Key Insights:** Market segments | Product specs | Price

"The callipers will really help in improving patient quality of life. RNC Trust would be happy to help in deploying the innovation to the masses."

**Dr. Raju Mehta**

"Excellent grip on the customer need. Solves a real problem at competitive price, and will create major impact, given needed support".

**Dr. Anish Kumar**

"Anesh exemplifies true grit and tireless effort despite many handicaps. This novel solution will provide natural mobility, will be taken to market via a startup. Glad to be involved with his team."

**Report on Participation in National Conference of Orthotics Prosthetics Association of India**  
**(OPAI-2022), Panjim, Goa.**

**Name of the event:** 26<sup>th</sup> National Conference of Orthotics Prosthetics Association of India  
(OPAI - 2022), Panjim, Goa from 28<sup>th</sup> to 30<sup>th</sup> March, 2022.

**Purpose of the event:** Paper & Poster Presentation in National Conference OPAI - 2022.

**Location of the event:** Panjim Convention Center, Goa.

**Date and time of the event:** Date: 28<sup>th</sup> to 30<sup>th</sup> March, 2022.  
Time: 09:00 AM to 08:00 PM

**No. of attendees:** 1 Faculty and 28 Students.

**Proceedings of the event:**

26<sup>th</sup> National Conference was organized by Orthotics Prosthetics Association of India (OPAI - 2022), from 28<sup>th</sup> to 30<sup>th</sup> March, 2022 at Panjim Convention Center, Goa for students, professional and faculties of Prosthetics & Orthotics field. The delegates from all over the states have participated in the conference. The theme of the conference was 'Invite invention, expertise, elevation'.

The Preconference Workshop was organized on 27<sup>th</sup> March of 2022 which was attended by the faculty and all students of MGM Institute's University Department of Prosthetics & Orthotics, Kamothe.

Papers and Posters were presented by faculty and students in the National Conference which was organized by Orthotics Prosthetics Association of India (OPAI - 2022), from 28<sup>th</sup> to 30<sup>th</sup> March, 2022.

This National Conference of Orthotics and Prosthetics Association of India is a unique interactive event where professionals involved in the care of persons in need of prosthetic, orthotics, mobility and assistive devices come together to learn about the latest scientific and clinical advances, products, innovative technologies, designs and materials in prosthetic and orthotic care.

This event has helped the students to enhance their practical skills, presentation skills and behavioural skills.

The inauguration of the conference was done by the auspicious hands of Mr. Ramakant Khalap, Ex Law Minister, Govt of Maharashtra, Mr. B. Madhavrao, Chairman of OPAI, Dr. Arat Atran Patra, Secretary, OPAI, Dr. Rajendra Keshalkar, Organising Secretary, OPAI.

Mr. Ramakant Khalap in his speech, focused on the issues of Divyangjan in Goa and elaborated that more and more such types of conferences should happen in Goa which will benefit the professionals and Divyangjan in Goa. Mr. B. Madhavrao, Chairman of OPAI-2022, on behalf of all the organizing committee assured that the conference will be fruitful for each and every attendees as well as the people in Goa.

All the students also participated in the cultural events by performing duet dances, Solo Singing and a common skit by all students.

The list of faculty and students presented papers and posters in the National Conference of Orthotics Prosthetics Association of India 2022 are mentioned below:

### **Paper Presentation:**

**Faculty:** Dr. Uttara U. Deshmukh (P&O)

### **Students:**

**Report of "Celebration of 75<sup>th</sup> Independence Day" 2022**  
**"Azadi Ka Amrut Mahotsav"**

**Name of the event:** Celebration of 75<sup>th</sup> Independence Day "Azadi Ka Amrut Mahotsav".

**Purpose of the event:** To inculcate the values of independence among the students.

**Location of the event:** MGM Campus, MGMIHS Kamothe, Navi Mumbai.

**Date of the event:** 15<sup>th</sup> August 2022.

**Time:** 08:00 AM to 12:00 PM

**No. of attendees:** 18 Students and 04 Faculties

**Proceedings of the event:**

MGM Institute of Health Sciences celebrated the 75<sup>th</sup> Independence Day with full joy and happiness with the presence of all members of the great Institute.

The function started with the Prabhat pheri from MGM University Building to MGM Sports Ground, at the MGM Sports Ground tree plantation activity was conducted under NSS Unit MGMIHS, where all the NSS Volunteers and faculty planted the saplings around the ground.

The program proceeded for Flag Hosting, and was continued with a small inaugural speech by Hon'ble Chancellor, Dr. Kamal Kishor Kadam. He gave tribute to all the freedom fighters who sacrificed their ultimate life for independence of this nation.

Further, distribution of artificial limbs, supporting devices & mobility aids by Hon'ble Chancellor sir, which was arranged by the Department of Prosthetics & Orthotics, MGMIHS in association with Department of Community Medicine, MGM Medical College, where three Divyangjans from adopted villages by MGMIHS under Unnat Bharat Abhiyan were benefited.

The program was continued with cultural activities by all constituent units under MGMIHS with the theme "Azadi Ka Amrut Mahotsav". Students from MGMIUDPO performed skit on "Tribute to Indian Army" which was praised by everyone. All the participants from various institutes gave outstanding performance. The program ended with National Anthem and refreshments were distributed to all the students and staff members of MGMIHS.

**Report of "Har Ghar Tiranga on occasion of 75<sup>th</sup> Independence Day" 2022**  
**"Azadi Ka Amrut Mahotsav"**

**Name of the event:** Har Ghar Tiranga on occasion of 75<sup>th</sup> Independence Day "Azadi Ka Amrut Mahotsav".

**Purpose of the event:** 'Har Ghar Tiranga' is a campaign under the aegis of Azadi Ka Amrut Mahotsav to encourage people to bring the Tiranga home and to hoist it to mark the 75th year of India's independence.

**Location of the event:** Local Residence of NSS Volunteers.

**Date of the event:** 15<sup>th</sup> August 2022.

**No. of attendees:** 11 Students.

**Proceedings of the event:**

As a part of the initiative under the 'Azadi Ka Amrut Mahotsav' to commemorate the 75 glorious years of a progressive independent India, a campaign 'Har Ghar Tiranga' has been launched to encourage the citizens to hoist the National Flag of India in their homes.

MGM Institute's University Department of Prosthetics and Orthotics (MGMIUDPO) have taken the initiative of Har Ghar Tiranga Campaign under NSS Unit, MGMIHS, Navi Mumbai in the remark of 75th Independence Day.

NSS Volunteers from MGMIUDPO visited to the different buildings in their residence to display the National Flag to create the awareness among the people and encourage them to join this huge campaign.

Students from MGMIUDPO enthusiastically participated in this campaign and realized their duties towards the nation.

**"STUDENTS PARTICIPATION IN SHODH SHIKHAR -2022 (RESEARCH PROJECT COMPETITION)"**

**Name of the event:** "Students participation in Shodh Shikhar-2022 (Research project competition)."

**Purpose:** To Promote entrepreneurship and startup culture among students.

**Place of Event** – Rabindranath Tagore University, Bhopal, Madhya Pradesh.

**Date:** (25<sup>th</sup> and 26<sup>th</sup> March-2022)

**Time:** 09:00 AM to 05:00 PM.

**No. of attendees:** 3 students of MGMIUDPO. (Ms. Esha Malik, Ms. Snehal Rane, Ms. Pradnya Gawde).

**PROCEEDINGS OF THE EVENT:**

Atmanirbhar Bharat Abhiyaan or Self-reliant India campaign is the vision of new India envisaged by the Hon'ble Prime Minister Shri Narendra Modi. The aim is to make the country and its citizens independent and self-reliant in all senses. He further outlined five pillars of Aatma Nirbhar Bharat – Economy, Infrastructure, System, Vibrant Demography and Demand.

On this prospect Rabindranath Tagore University of Bhopal, Madhya Pradesh, India organized a thoughtful initiative which comes as a research project competition "SHODH SHIKHAR-2022" for students across India. From MGM Institute's University Department of Prosthetics & Orthotics (MGMIUDPO) 3 students in a group had participated in this event. They Presented a Project "Trac-splint for wrist & forearm" for correction of wrist flexion contracture, problem which is related to innovation in the health-science sector for benefits of patients.

There were various projects across the different streams presented in the conference from across the India by many young students with the aim that India will be Self-reliant in every sector as soon as possible.

Students of MGMIUDPO in the event interacted with other students and acquired knowledge from them by going through various innovative projects of all and shared their ideas with all about the innovation in field of Prosthetics & Orthotics and various other developments.

For the students the competition act was a knowledgeable experience by which they will achieved benefits in their professional life in future.

**2.3.1 Teaching - Learning Process for B.P.O.**

**2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences**

MGMUDPO believes in the adoption of students centric methods to enhance student involvement as a part of participative learning and problem solving methodology. Seminar Quizzes, Specifically Students centric Teaching Methods like case studies and presentations, project work, Field Visit, Industrial visit & guest lectures are reflected in academics. Specifically the students' centric methodology includes:

**Project work**

- Project work is organized in the IV year of B.P.O. program which is an essential element  
Each student needs to do a project work of his /her own choice.

**Participation in competition at various level**

- For real time exposure students are encouraged to participate in various quizzes

**Field Visits**

- Faculty identifies and propose Academically significant Field visits and Surveys

**Industrial Visits**

- Institute plans and organizes the industrial visits for students to provide exposure to industrial work culture.

**Guest Lecture**

- Guest lectures by eminent experts from industry and academics from across the country are organized to supplement the teaching process and provide experiential learning.

**Team work**

- The Institute organize students activities to promote the spirit of Team work.  
The activities and Camp of NSS, institutional social responsibility through Village Adoption, Tree plantation. Swatchh Bharat and Health awareness camp to help the students to learn Art of living in a team for Social and community welfare.

**Group work**

- Practical and workshops in all individual and group work under the guidance of teachers are also conducted.

**Discussion**

- Institute follows the discussions methods in many of the subjects as it makes the students to think wide and participate in coming up with the opinions & suggestions to check their current knowledge. Discussions are held basically in soft skills, managerial communications, business adoptions etc.

**Research Activities**

- Research activities are conducted under the guidance of senior faculty where the students of BPO get knowledge about emerging area and help them to promote in Research aptitude.

*Dr. Uttara Deshmukh*

### **2.3.1**

#### **1. Anatomy,**

We are using the following student centric methods to increase the interest in learning

- Integrated teaching
- Participatory learning
- Problem-solving methodologies
- Self-directed learning
- Role play in AETCOM module
- ECE
- Bioethics

#### **2. Biochemistry,**

SDL sessions are conducted for Ist MBBS students

#### **3. Emergency Medicine**

- Experiential and participative learning has helped us to recognize, evaluate, and treat all patients with life or limb threatening conditions presenting to the ED. This includes the ability to simultaneously manage multiple patients as well as direct or supervise resuscitation efforts. Make a timely and appropriate disposition for all patients presenting to the ED. This includes the ability to electively interact with the patients, family members. Manage and direct mass casualty situations and participate in disaster planning. Develop teaching skills suitable to disseminate information to all levels of care providers, particularly prehospital personnel. Interact effectively with prehospital care providers and function as a Base Station physician. Effectively perform administrative tasks necessary to manage an emergency medicine service including, scheduling, risk management, continuous quality improvement, and the handling of patient

complaints. Develop competence in evaluating the medical literature and understanding research methodology. Develop a system for life-long learning to meet your professional goals after residency.

Participatory learning - Seminars/ Workshops with facilitator eg- Clinical procedures, case management, complications, Medication etc. Project-based learning: All PG students are doing thesis, Presenting research work (paper/poster) at conferences.

#### **4. Family Medicine**

The students present cases every week. Journal clubs are conducted regularly. Every week students prepared seminars and present in front of the faculty.

#### **5. Microbiology**

In the Microbiology Department, we are using many Student-centric methods to enhancing learning experiences of the students like Experiential learning (Practical), Integrated learning, Participatory learning (Seminars), Problem-solving methodologies, Self-directed learning, The Humanities (Bioethics).

In this tenure we have conducted 3 Bioethic Topics, 6- Integrated Lectures and 1 – SDL

#### **6. OBGY**

**Student centric methods used for enhancing learning experiences are as follows.**

##### **Undergraduates**

- Integrated teaching programme scheduled 4th Saturday of every Month.
- Vertical Integration as per CBME Curriculum as per monthly Schedule.
- Lectures as per monthly Schedule.
- Small group teaching in the form of bedside teaching and clinics every day as per the schedule (Clinical Posting).

- DOPS sessions taken daily in batches for interns in the department by faculty (As per unit wise distribution) and assessed.

### **Postgraduates**

- Problem based learning sessions are conducted once every month.
- Lectures are conducted once every week.
- Post Graduate student present seminars with guidance from faculty as moderator every week.
- Aptitude for research and learning is encouraged through journal club held once every week.
- Patient centric learning is carried out through case presentation and discussion once every week.
- Bedside teaching is undertaken through Grand rounds once every week.
- Inter departmental Anatomy pelvic dissection training sessions are conducted once every year for Postgraduate resident.
- DOPS and DOAP assessment is undertaken by faculty unit wise every week.

### **7. Ophthalmology**

Our department conducts horizontal and vertical integrated lectures, AETCOM lectures, clinical postings and small-group teaching along with the regular lectures for under-graduate students according to the CBME guidelines. We have also acquired skills laboratory where we teach students various OPD procedures like visual activity, sac syringing and tonometry.

For our post-graduate students, we have post-graduate teaching activity such as seminars, case presentations, group discussion, journal clubs and lectures four days a week. We have 8 ongoing research projects and 4 completed research projects (thesis).

### **8. Orthopaedics**

UG :

6th Sem Small group teaching and Self directed learning.

6th Sem Integrated Teaching, 2019 CBME Batch.

PG Activities :

1. Seminar
2. Case Presentation
3. Journal Club

## **9. Pathology, NM Approved**

We train undergraduate and postgraduate students to attain good theoretical and practical knowledge in the field of Pathology in order to provide optimum health care. We have Integrated / inter-disciplinary learning in the form of Vertical and horizontal integrated teaching, Centralized clinical meetings, Clinico-pathological correlations (CPC) and Participatory learning like Problem-Based Learning, Students Led Objective Tutorials (SLOT), Group discussions, Clinical meetings, Case discussions, Seminars , Quizzes, Micro-teaching, Role plays, Community out-reach activities, Health camps.

## **10. Pharmacology**

Computer based learning (CAL) for experimental Pharmacology & ATECOM modules.

## **11. Physiology**

Student-centric methods are: AETCOM, ECE, SDL, PBL

- Experiential learning: Exposure to skill lab, Clinical Postings.
- Integrated/Inter-disciplinary learning: Horizontal Integration ;Participatory learning: Think- Pair-Share, Quiz.
- Problem-solving methodologies: PBL & Case Based Learning through ECE.
- Self-directed learning: Think-Pair-Share, MCQ, Google forms & Group Projects.
- Patient-centric and Evidence-based learning: Case Presentation, Journal club for PG.
- The Humanities: Bioethics, Sociology & Psychology sessions(AETCOM, Foundation course)
- Project-based learning: UG, PG Projects (ICMR-STs)

- Role play: AETCOM, ECE,SDL, PBL

## 12. RADIODIAGNOSIS

### PG STUDENTS GUIDE AND THESES TOPICS :- (2021-2024)

Sr. No	Name of Students	Name of Guide	Topics allotted
1	Dr. Srivastava Suyash Sanjay	Dr. Priti Kapoor	Study of Ultrasonographic measurement of Transcerebellar diameter with its application in determining gestational age and IUGR.
2	Dr. Jamale Namrata Pramod	Dr. Ashutosh Chitnis	To study the role of multidetector computed in evaluation of acute abdomen due to gastrointestinal tract related causes.
3.	Dr. Sneha	Dr. Abhay Gursale	Study the role of computed tomography in evaluation of oral cavity lesions.
4.	Dr. Balaji S	Dr. Priti Kapoor	To study the role of cerebroplacental ratio in fetal growth restriction.
5.	Dr. Limaye Varun Uday Rashna	Dr. Sonali Mhaske Kadam	Study of role of magnetic resonance imaging (MRI) in evaluation of central nervous system infections.
6	Dr. Bhangdiya Vinay Omprakash	Dr. Priti Kapoor	To study and compare measurement of lower uterine segment thickness in normal pregnancy with previous LSCS pregnancy.
7	Dr. Rumao Rhea Robert	Dr. Ashutosh Chitnis	To study the role of multidetector computed tomography in evaluation of grading of liver injuries.
8	Dr. Anadhi Joshi	Dr. Abhay Gursale	Study of high-resolution computed tomography chest in the evaluation of pulmonary edema.

## 13. Respiratory Medicine

Inter-disciplinary Learning includes

every bronchoscopy biopsy is discussed with faculty from histopathology.

every HRCT-Chest is discussed with faculty from department of Radiodiagnosis.

## **14. Surgery**

A General Surgery Departmental app is being developed in the pipeline and will be implemented in full scale shortly, enabling residents and faculty members to be well aware of the IPD, OPD, Ot lists and Leave Applications which will be documented in the app.

## **15. Traumatology and Surgery**

PG students are exposed to all degrees of patient management in casualty, wards, ICU, minor OT and major OT. They are posted under different disciplines of surgery such as general surgery, neurosurgery, orthopedics, emergency, ENT, Oromaxillofacial surgery, plastic surgery, surgical ICU.

interactive seminars, journal clubs, demo on dummies of bedside emergency procedures are frequently conducted along with role play activities of triage, mass casualty management, acute trauma.

## **16. Physiology**

Student-centric methods are : AETCOM, ECE,SDL, PBL

- Experiential learning: Exposure to skill lab, Clinical Postings.
- Integrated/Inter-disciplinary learning : Horizontal Integration ;Participatory learning: Think- Pair-Share, Quiz.
- Problem-solving methodologies: PBL & Case Based Learning through ECE.
- Self-directed learning: Think-Pair-Share, MCQ, Google forms & Group Projects.
- Patient-centric and Evidence-based learning: Case Presentation, Journal club for PG.
- The Humanities: Bioethics, Sociology & Psychology sessions(AETCOM, Foundation course)
- Project-based learning: UG, PG Projects (ICMR-STs)
- Role play: AETCOM, ECE,SDL, PBL

**For :** 1<sup>st</sup> MBBS 2020-21

**Date-** 26.11.2021 – Closing session

**Time** – 2:30 to 4:30 pm

**Organized by:** Department of Anatomy

**Faculty :** All teachers of department of Anatomy

**Total attendance :** 104 students

**Plan of session**

1<sup>st</sup> one hour –

**Setup** – Lecture hall

**Teaching Learning method** - Interactive session

Recap of Importance & respect of cadaver by facilitator

2<sup>nd</sup> one hour –

**Setup** – Lecture hall

Teaching Learning method Group discussion over cadaver as 1<sup>st</sup> teacher based on their shared experiences& Reflection writing

**Group discussion** – 30 minutes

**Reflection writing** – 30 minutes

Students wrote reflection on their experiences of 1 year of dissection

The session was conducted successfully.

### AETCOM 1.5 MODULE REPORT

**Topic :** AETCOM 1.5 MODULE - The cadaver as our first teacher

**For :** 1<sup>st</sup> MBBS 2021-22

**Date :** 22.02.2022

**Time :** 1:30 to 3:30 pm (2 hrs)

**Venue :** Lecture Hall 4 + Dissection hall

**Organized by:** Department of Anatomy

**Faculty :** Dr. G.S. Narshetty, Dean, MGMMC, Navi Mumbai, Dr. R. S. Inamdar, Prof & Head, Physiology (MET Observer) & All teachers of department of Anatomy

**Total attendance :** 79 students

A. 3:00 to 4:00 pm, Setup – class room, Teaching Learning method interactive session

Teacher – Dr. Anjali Sabnis, Prof. & HOD, Dept. of Anatomy

- 1) Recap of Importance & respect of cadaver
- 2) Cadaver Dissection in Anatomy: Ethical aspects
- 3) Importance of biological tissues and cadavers in their learning.
- 4) Safe and clean handling and disposal of biological tissues
- 5) Do's & don'ts of dissection hall

B. 3:30 to 4:30 pm, Setup – Dissection hall, Teaching Learning method Cadaveric Oath & Reflection writing.

Teacher – All teachers of department of Anatomy

1. Cadaveric Oath – 30 minutes, Students stood in circle around cadavers in dissection hall & took cadaveric oath
2. Reflection writing – 30 minutes, Students wrote reflection on experience of 1<sup>st</sup> cadaver exposure & cadaveric oath taking

Dean, MGMMC, Navi Mumbai attended the cadaveric oath ceremony. Dr. R. S. Inamdar, Prof & Head, Physiology (MET Observer) The session was conducted successfully.

MGM/MED-C/ANAT/2021/

Date: 15.11.2021

**ECE REPORT**

**Topic :** ECE MODULE 9 – Tongue

**For :** 1<sup>st</sup> MBBS 2020-21

**Date :** 10, 11 & 12.11.2021

**Time :** 1:30 to 4:30 pm

**Venue :** Seminar Hall, Hospital Building, MGM MC, Navi Mumbai.

**Organized by:** Department of Anatomy & Department of General Surgery.

**Faculty :**

Department of Anatomy – Dr. Bhavana J., Asso. Prof., Dr. Mini Mol, Asso. Prof.

Department of General Surgery – Dr. Abhishek Karthik

**Total attendance :** 71 students.

**Topic of Basic Science:** Tongue

**ECE Through:** Tongue Carcinoma. History taking and clinical examination through power point presentation and video.

The module was conducted in collaboration with General Surgery Department.

**The module was conducted as follows :**

1. Introduction and instruction to students: 20 minutes
2. Exposure to clinical content : 45 minutes
3. Discussion : 45 minutes
4. Summary and Conclusion: 10 minutes
5. Reflections: 30 minutes
6. Assignment: 30 minutes

After introducing the Tongue Anatomy to all students, they were taught about Tongue diseases by faculty from General Surgery. History taking and clinical examination with relevant Anatomy was covered in this session.

Then the Anatomy faculty guided students to correlate tongue diseases with their anatomical basis through interaction. The students were asked to write the assignment given to them.

**MGM MEDICAL COLLEGE, KAMOTHE, NAVI MUMBAI**

---

Date: 11.11.2021

**PBL-2**

**Date – 16.11.2021**

**Case –** 78 years old female was brought to hospital with complaints of,

1. Ipsilateral paralysis of muscles of soft palate, pharynx and larynx
2. Loss of pain and temperature on same side of face
3. Loss of pain and temperature on opposite side of body
4. Loss of equilibrium
5. She showed symptoms of

Ptosis, enophthalmus, miosis, anhidrosis

She was advised to do MRI brain which showed blockage of posterior Inferior cerebellar artery.

Students should go through the above given case & try to understand & derive Learning Objectives for the same. Discussion with the facilitators will be through an online zoom meeting tomorrow (12.11.2021) evening. Information about meeting will be given through whatsapp.

Dr Anjali Sabnis

**PROFESSOR & HEAD**

Department of Anatomy

M.G.M. Medical College

Kamotha, New Mumbai - 410305

**DEPARTMENT OF ANATOMY**  
**MGM MEDICAL COLLEGE, KAMOTHE, NAVI MUMBAI**

---

Date: 17.11.2021

**Report PBL-2 (Medulla oblongata)**

**Session – 1**

Date: 12.11.2021

Session was conducted through online zoom meeting done in small batches.

After discussion between students & facilitator expected learning objectives were derived from the case as follows

At the end of session 2 students should be able to

1. Describe external features of medulla
2. Draw transverse section at pyramidal decussation in medulla
3. Draw transverse section at sensory decussation in medulla
4. Draw transverse section at olivary nucleus in medulla
5. Enumerate and explain nerves and nerve nuclei present in medulla
6. Describe blood supply of medulla
7. Explain cause of Loss of pain and temperature on same side of face, Loss of pain and temperature on opposite side of body
8. Explain cause of Loss of equilibrium

Facilitator – Dr. Anjali Sabnis & Dr. Bhavana J.

**Session - 2**

Date: 16.11.2021

Students were divided into smaller groups of 8 each. Students presented the topic as per learning objectives. At the end all students solved brief answer questions on the topic for 30 marks. Each group also submitted concept map for the same.

Concept mapping was based on following points.

- Step 1- identify the problem
- Step 2- Find out the causes of symptoms
- Step 3- Sharing with other students
- Step 4- correlate cause of symptoms with clinical features.
- Step 5- Achieve objectives
- Step 6- Reflect

Students also wrote their Reflections.

Facilitator – Dr. Anjali S., Dr. Charushila S., Dr. Bhavana J. Dr. Mini M., Dr. Shantanu M., Dr. Prakash M. & Dr. Sumi E.R.

Session was conducted successfully.

---

Date: 02.11.2021

**PBL-1**

**Date – 09.11.2021**

**Case –** 75 Years old male was brought to casualty with the complaints of numbness and heaviness on right side of the body with loss of speech. He is known case of hypertension.

On examination –

- Pulse- 90 /min
- BP- 160/110 mm of Hg.
- He was not able to lift right leg and right upper limb. He had involvement of facial muscles with mask like face.

Students should go through the above given case & try to understand & derive Learning Objectives for the same. Discussion with the facilitators will be through an online zoom meeting tomorrow (03.11.2021) evening. Information about meeting will be given through whatsapp.

**Report PBL -1 (Cerebrum)**

**Session – 1**

Date: 03.11.2021

Session was conducted through online zoom meeting done in small batches.

After discussion between students & facilitator expected learning objectives were derived from the case as follows

At the end of session 2 students should be able to

1. Explain blood supply of cerebral cortex
2. Specify sulci, gyri and functional areas of cerebrum
3. Draw diagram showing blood supply of cerebrum
4. Draw diagram showing sulci, gyri and functional areas of cerebrum
5. Explain anatomical basis of all the clinical features of the case
6. Explain likely cause for the clinical presentation with its anatomical basis

**Facilitator – Dr. Anjali Sabnis & Dr. Bhavana J.**

**Session - 2**

Date: 09.11.2021

Students were divided into smaller groups of 8 each. Students presented the topic as per learning objectives. At the end all students solved brief answer questions on the topic for 30 marks. Each group also submitted concept map for the same.

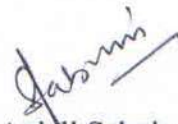

Concept mapping was based on following points.

- Step 1- identify the problem
- Step 2- Find out the causes of symptoms
- Step 3- Sharing with other students
- Step 4- correlate cause of symptoms with hypertension
- Step 5- Achieve objectives
- Step 6- Reflect

Students also wrote their Reflections.

## Student centric methods

- Management of in & out patients
- Presentation of cases on clinical rounds
- Topic/Case presentation : once a week
- Mortality meeting review : once a month.
- Journal club article view: once a week.
- Simulation exercises
- Guest speakers form.
- senior consultants: once in three months
- Lectures on the modular topic of the month - classroom and online: once a week
- Evidence based medicine
- Grand rounds : once a week
- Follow up cases discussion on patients admitted through the emergency department: once a week.
- Procedure and skill seminar Presentation by the residents.
- Multidisciplinary case discussions Conferences
- Tutorials: once a week
- Seminars: once a week
- CME session, paper presentations Participation in workshops
- Teaching undergraduate-students and paramedical staff Use & maintenance of biomedical equipments and gadgets Group discussion
- Assisting and performing diagnostic and therapeutic procedures.

## Analysis Report on Feedbacks received on Self Directed Learning

**Department:** Microbiology

**Title of SDL Session:** MRSA Surveillance

**Date:** 13.11.21

**Course:** 2<sup>nd</sup> MBBS

**Name of the Facilitator:** Dr Kanchan Chaudhary

**No of Students Participated:** 06

**No of Students attended:** 27

**Average rating given by students:** 7-10 (v good)

**Any suggestions by Participants:** NIL

## BIOETHICS- FEEDBACK ANALYSIS

Name of Topic: Minimisation of drug resistance

Date: 9/4/22

Faculty: Dr Kanchan Chaudhary

### Analysis:

1. 60 responses were received
2. 95% students felt that training in Bioethics was necessary
3. 98.6% students felt that the topic was relevant
4. 63.3% students felt that effectiveness of lecture was Good
5. 93.3 % students perceived change in their behavior
6. 34% students felt that didactic lecture was best way of teaching this topic whereas 35% felt that showing videos would be more effective.
7. 44% students found the activity to be good effectively.

## BIOETHICS- FEEDBACK ANALYSIS

Name of Topic: Sterilisation

Date: 31/3/22

Faculty: Dr Deepashri Naik

### Analysis:

1. 99% students felt that training in Bioethics was necessary
2. 100% students felt that the topic was relevant
3. 50% students felt that effectiveness of lecture was Good
4. 88.2 % students perceived change in their behavior
5. 32% students felt that didactic lecture was best way of teaching this topic whereas 43% felt that showing videos would be more effective.
6. 58% students found the activity to be good effectively.

### ATR:

More videos would be incorporated during bioethics lecture.

**Analysis Report on Feedback Received on AITO session  
(Vertical)**

**Topic : Disinfection of Laboratory, OT and OPD**

**Organizing Department:** Microbiology

**Title of Integrated Teaching :** Disinfection of Laboratory, OT and OPD

**Subject Topics:**

- Disinfection of OPD and Lab- Microbiology
- Disinfection of OT- Slides received from Surgery Department

**Type of Integration :** Vertical

**Date :** 7/4/22

**Course :** II-MBBS (Batch March, 2022- December, 2022)

**Name of the Faculty :** Dr Deepashri Naik

**Feedback :** Total 107 Responses received.

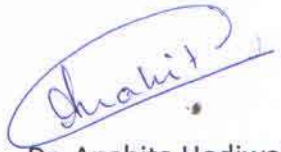

Questions	Excellent	V. Good	Good	Average
Q1. How do you find teaching method by this integration session comprising of various subjects?	26.4	45.3	23.6	4.7
Q2. How much did it help in understanding of the topic?	23.6	49.1	23.6	3.8
Q3. Give your feedback on presentation by Microbiology Department with Contents & its usefulness.	36.8	44.3	16	2.8
Q4. Give your feedback on slides provided by Surgery Department with Contents & its usefulness.	37.7	42.5	16	3.8

**Q5. Any Suggestions / Comments on this Integration session and for the future programme.**

- More Videos and Clinical pictures to be shown
- More Sessions to be conducted
- PPT to be shared
- Very informative and resourceful session
- Topic covered well

**Action Taken:**

- This was the online integrated session for the month of April 2022; we will be conducting more such session throughout the entire year.
- Will try to incorporate videos and images wherever possible.
- PPTs will be shared with students

**Analysis Report on Feedback Received on AITO session**  
**Topic : Meningitis**

**Organizing Department:** Microbiology

**Title of Integrated Teaching :** Meningitis

**Subject Topics:**

1. Etiology and lab diagnosis- Microbiology
2. Mx of Meningitis- Medicine

**Type of Integration :** Vertical

**Date:** 25.11.21

**Course:** II-MBBS (Batch March, 2021- December, 2021)

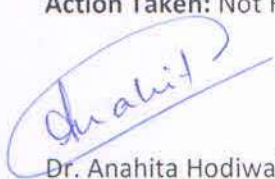

**Name of the Faculty :** Dr N Singh

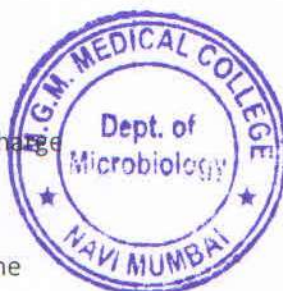

**Feedback :** Total 12 Responses received.

Questions	Excellent	V. Good	Good	Average
Q1. How do you find teaching method by this integration session comprising of various subjects?	60	24	16	-
Q2. How much did it help in understanding of the topic?	55	27	18	-
Q3. Give your feedback on presentation by Microbiology Department with Contents & its usefulness.	52	38	11	-
Q4. Give your feedback on slides provided by Medicine Department with Contents & its usefulness.	46	36	18	-

**Q6. Any Suggestions / Comments on this Integration session and for the future programme.** NIL

**Action Taken:** Not Required

31.03.2022	Thurs	2.30 PM to 4.30 PM	B-OR1.4 Describe and discuss the Principles of management of soft tissue injuries , OR1.5 Describe and discuss the aetiopathogenesis, clinical features,investigations, and principles of management of dislocation of major joints, shoulder, knee, hip.	Dr.Juilee Mhatre
01.04.2022	Fri	2.30 PM to 4.30 PM	C-OR1.4 Describe and discuss the Principles of management of soft tissue injuries , OR1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip.	Dr.Manan Shah

04.04.2022	Mon	2.30 PM to 4.30 PM	A-OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation , OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle.	Dr.Manan Shah
05.04.2022	Tues	2.30 PM to 4.30 PM	B-OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation , OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle.	Dr.Vishnu Nair
06.04.2022	Wed	2.30 PM to 4.30 PM	C-OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation / knee dislocation , OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle.	Dr.Akshay Shah
07.04.2022	Thurs	2.30 PM to 4.30 PM	D-OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation / knee dislocation , OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle.	Dr.Jatin Badgujar
08.04.2022	Fri	2.30 PM to 4.30 PM	E-OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation / knee dislocation , OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle.	Dr.Kshitij Badade

11.04.2022	Mon	2.30 PM to 4.30 PM	B-OR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain , OR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	Dr.Manan Shah
12.04.2022	Tues	2.30 PM to 4.30 PM	C-OR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain , OR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	Dr.Vishnu Nair
13.04.2022	Wed	2.30 PM to 4.30 PM	D-OR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain , OR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	Dr.Gaurav Sharma
15.04.2022	Fri	2.30 PM to 4.30 PM	A-OR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain , OR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	Dr.Manan Shah
18.04.2022	Mon	2.30 PM to 4.30 PM	C-OR2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury , OR2.6 Describe and discuss the etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius.	Dr.Manan Shah

19.04.2022	Tues	2.30 PM to 4.30 PM	D-OR2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury , OR2.6 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius.	Dr.Vishnu Nair
20.04.2022	Wed	2.30 PM to 4.30 PM	E-OR2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury , OR2.6 Describe and discuss the etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius.	Dr.Akshay Shah
21.04.2022	Thurs	2.30 PM to 4.30 PM	A-OR2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury , OR2.6 Describe and discuss the etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius.	Dr.Jatin Badgujar
22.04.2022	Fri	2.30 PM to 4.30 PM	B-OR2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury , OR2.6 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius.	Dr.Vishnu Nair
25.04.2022	Mon	2.30 PM to 4.30 PM	E-OR2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient , OR2.9 Describe and discuss the mechanism of injury, Clinical	Dr.Manan Shah

			features, investigations and principle of management of acetabular fracture.	
26.04.2022	Tues	2.30 PM to 4.30 PM	A-OR2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient , OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture.	Dr.Vishnu Nair

27.04.2022	Wed	2.30 PM to 4.30 PM	B-OR2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient , OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture.	Dr.Gaurav Sharma
28.04.2022	Thurs	2.30 PM to 4.30 PM	C-OR2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient , OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture.	Dr.Juilee Mhatre
29.04.2022	Fri	2.30 PM to 4.30 PM	D-OR2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient , OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture.	Dr.Manan Shah
09.05.22	Mon	2.30 PM to 4.30 PM	E-OR2.12 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication , OR2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	Dr. Harsh Kotecha

10.05.22	Tues	2.30 PM to 4.30 PM	A-OR2.12 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication, OR2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	Dr. Kshitij Badade
11.05.22	Wed	2.30 PM to 4.30 PM	B-OR2.12 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication, OR2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	Dr. Tanmay Asawa
12.05.22	Thurs	2.30 PM to 4.30 PM	C-OR2.12 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication, OR2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	Dr. Shrey Binyala
13.05.22	Fri	2.30 PM to 4.30 PM	D-OR2.12 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication, OR2.13 Describe and discuss the aetiopathogenesis, clinical	Dr. Mohit Issrani

			features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	
16.05.22	Mon	2.30 PM to 4.30 PM	A-OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures , OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome.	Dr. Harsh Kotecha
17.05.22	Tues	2.30 PM to 4.30 PM	B-OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures , OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome.	Dr. Abhishek Kulkarni
18.05.22	Wed	2.30 PM to 4.30 PM	C-OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures , OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome.	Dr. Praveenkumar
19.05.22	Thurs	2.30 PM to 4.30 PM	D-OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures , OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	Dr. Sanjeevkumar
20.05.22	Fri	2.30 PM to 4.30 PM	E-OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures , OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	Dr. Atul Singh

23.05.22	Mon	2.30 PM to 4.30 PM	B-OR2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management , OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy.	Dr. Harsh Kotecha
24.05.22	Tues	2.30 PM to 4.30 PM	C-OR2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management , OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy.	Dr. Atul Singh
25.05.22	Wed	2.30 PM to 4.30 PM	D-OR2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management , OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy.	Dr. Tanmay Asawa
26.05.22	Thurs	2.30 PM to 4.30 PM	E-OR2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management , OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy.	Dr. Sanjeev Kumar
27.05.22	Fri	2.30 PM to 4.30 PM	A-OR2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management , OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy.	Dr. Harsh Kotecha

06.06.22	Mon	2.30 PM to 4.30 PM	<p>C-OR3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections</p> <p>a) Acute Osteomyelitis  b) Subacute osteomyelitis  c) Acute Suppurative arthritis  d) Septic arthritis &amp; HIV infection  e) Spirochaetal infection  f) Skeletal Tuberculosis</p>	Dr. Harsh Kotecha
07.06.22	Tues	2.30 PM to 4.30 PM	<p>D-OR3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections</p> <p>a) Acute Osteomyelitis  b) Subacute osteomyelitis  c) Acute Suppurative arthritis  d) Septic arthritis &amp; HIV infection  e) Spirochaetal infection  f) Skeletal Tuberculosis</p>	Dr. Atul Singh
08.06.22	Wed	2.30 PM to 4.30 PM	<p>E-OR3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections</p> <p>a) Acute Osteomyelitis  b) Subacute osteomyelitis  c) Acute Suppurative arthritis  d) Septic arthritis &amp; HIV infection  e) Spirochaetal infection  f) Skeletal Tuberculosis</p>	Dr. Praveenkumar
10.06.22	Fri	2.30 PM to 4.30 PM	<p>B-OR3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections</p> <p>a) Acute Osteomyelitis  b) Subacute osteomyelitis  c) Acute Suppurative arthritis  d) Septic arthritis &amp; HIV infection  e) Spirochaetal infection  f) Skeletal Tuberculosis</p>	Dr. Harsh Kotecha

13.06.22	Mon	2.30 PM to 4.30 PM	B-OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture, OR2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot.	Dr. Mohit Issrani
14.06.22	Tues	2.30 PM to 4.30 PM	C-OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle, OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome.	Dr. Abhishek Kulkarni
15.06.22	Wed	2.30 PM to 4.30 PM	D- OR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	Dr. Tanmay Asawa
16.06.22	Thurs	2.30 PM to 4.30 PM	E-OR2.6 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius , OR3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	Dr. Sanjeevkumar

17.06.22	Fri	2.30 PM to 4.30 PM	A-OR1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip , OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (c) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrome.	Dr. Atul Singh

## MINUTES OF THE MEETING

VENUE : PATHOLOGY Department

TOPIC :

AGENDA : NEPHROPATHOLOGY CPC

TOPIC : Lupus Nephritis (Kidney biopsy)  
CASE : B/1606/22 - MS. SHILPA SANGAR

ATTENDED BY:

1)

### Discussion:

The history, clinical features of the case were provided by the Nephrology side. The details of the light microscopy and ~~the~~ immunofluorescence was described by histopathology side. Turn-around time of four working days is satisfactory for this study.

FINAL DIAGNOSIS : Clinical Diagnosis : Nephritic Syn

DR. ADITYA NAYAK  
DNA NEPHROLOGY

## AETCOM (Attitude, Ethics and Communication) Module

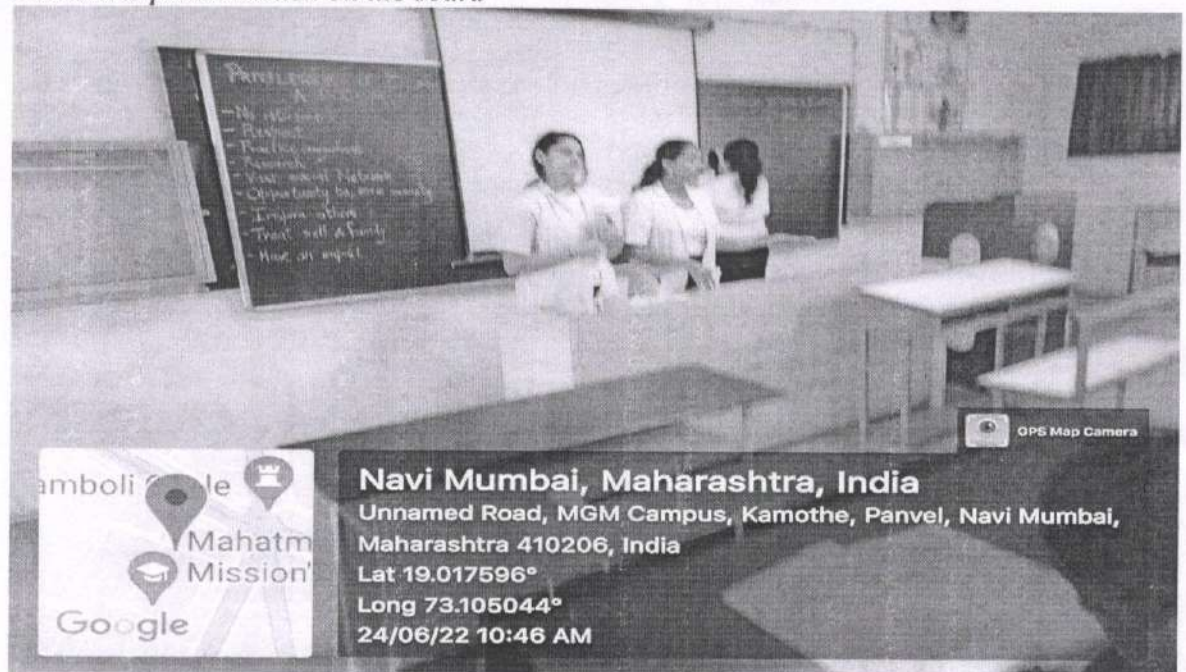

### Teaching -Learning activity: Report Submission Format

- AETCOM Module No and Name: Module 1.1: What does it mean to be a doctor?
- MBBS Professional Year: I MBBS (CBME) 2021-22
- In charge department: Physiology
- *Session Wise Details*
  - Name of Session: Session 1: Exploratory session
  - Duration: 1 hour
  - Time: 10- 11am
  - Date of Conduct: 24.06.2022, Saturday
  - Venue: : Physiology Demo rooms
  - Faculty : Dr. Swati Gawali, Dr Ashita Phadnis, Dr. Madhur Rai
  - Objectives of the Session:
    - Why they chose to become doctor
    - Privileges and responsibilities of doctor
    - Their Expectations from society and society's expectation from them
    - What they have to do and give up to meet each other's expectations
  - Teaching-Learning activity (In Brief)

The summary of the discussion was as follows.

- They choose to become doctors because
  - Doctor has respect in society, can take care of people, want to help others, interesting & knowledgeable profession, get lots good wishes & blessing from people, to give back to society, job & financial security & Independent.
- Privileges of doctor are - Nobel profession, Get respect & blessing, lifelong learner, No Retirement, Hope for people, No physical labor, social status.
- Responsibilities of doctor - Disciplined, treat equally every one, Give complete information but not false hope, Need to be updated and well informed, accountable, good listener/communicators. Respect others.
- Their Expectations from society and society's expectation from them - Respect, Treat them as follow human being, timely payment.
- Photos of the session (If any): attached
- Attendance (Total strength:150 No of students Present: 118 No of students Absent:32
- Remarks (if any)

*Discussion points written on the board*

- Name of Session: Session 2: Facilitated panel discussion
- Duration: 2 hour
- Time: 9am- 11am
- Date of Conduct: 01.07.2022, Friday,
- Venue: : 3<sup>rd</sup> floor MGMIHS Auditorium
- Faculty : The panel consisted of
  - Dr.Rajesh Ghildiyal HOD Psychiatry
  - Dr. Ajay Shendarkar HOD FMT,
  - Dr Ashlesha Tawade ,Asso. Prof Community Medicine,
  - Dr. Noopur Kulkarni ,Assis. Prof Community Medicine,
  - Dr.Mayur Garg Asst.Prof. Gen. Medicine
  - Dr. Prashanth Kaushik,SR. Gen. Medicine
  - Dr. Dev Taneja Asst.Prof., Gen. Surgery
  - Dr. Avani Jain, Senior Resident . Gen. Surgery
- Objectives of the Session:
  - Panel of doctors at different stages of their careers, (Senior, midlevel, young) on the stage sharing their professional experiences.
  - The Clinicians were invited to participate in the discussion and share their experience with the students.
- Teaching-Learning activity (In Brief)

Dr. Priyanka Rane introduced the panellists to the audience.

- Dr. Rajesh Ghildiyal HOD Psychiatry talked about value based education. He talked about humanism, unity in health care profession, culture competencies,

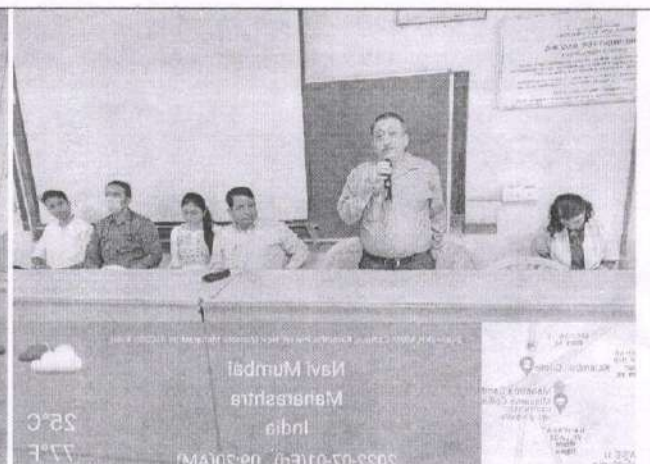

confidentiality, and doctor-patient relationship, privileges with money, respect for people, satisfaction of treating-"happiness within you", keep the motto-"chase knowledge do not chase exams", keep balanced life- study , play, outdoor activities, entertainment.etc. building up rapport with the patients, eye contact, addressing patient by name, sacrifices for good, learning from our own mistakes & keep mental balance.

- Dr. Ajay Shendarkar HOD FMT talked about importance of legal matters, nurturing skills through knowledge, personal growth. Some examples of involving legal cases.
- Dr. Ashlesha Tawade ,Asso. Prof Community Medicine talked about community services, Importance of doctors day celebration, doctor role in community, doctors as healer, differences in patients of socioeconomic strata, literacy, capacity and earning blessing & respect from patients, learn from team workers, invest time in good service
- Dr. Noopur Kulkarni ,Asst. Prof Community Medicine talked about community services, doctor role in community, doctors as healer, differences in patients of socioeconomic strata, literacy, capacity and earning blessing & respect from patients, learn from team workers, invest time in good service
- Dr. Mayur Garg Asst. Prof. Gen. Medicine talked about feeling proud as doctor, self respect, keep facing the failures, get experiences and keep learning getting satisfaction after treating patients. shared experiences, Aetcom begins in childhood, acceptable, be respectable to patients, power of observation, analysis, be a riddler, familiar with local language, humility, sacrifices are fruitful.
- Dr. Prashanth Kaushik, SR. Gen. Medicine about gaining medical knowledge and developing communication skill as bases of becoming good doctor. He said that understanding patients feeling, family members feeling, their psychological state as treating doctors is important. Shared her UG experience, learning from others experiences.
- Dr Dev Taneja Asst. Prof, Gen. Surgery shared experience of treating patients & about gaining medical knowledge and developing communication skill as bases of becoming good doctor, sacrifices made for good. Good lifestyles can be expected. Have to be more dedicated & sincere in work, as finance keep on changing, doctors are always admired who work with good values.
- Dr. Avani Jain, Senior Resident. Gen. Surgery shared experience about UG, follow and keep ethics in profession, working for humanity, hardwork, keep good character & Behaviour. Motto to keep learn-unlearn-relearn. Adopt knowledge, upgradation of knowledge ,improving communication.
- Photos of the session (If any): attached
- Attendance (Total strength: 150 No of students Present: 104 No of students Absent: 46
- Remarks (if any)

- Name of Session: **Session3: Self-directed learning**
- Duration: 2 hour
- Time: 9-11am
- Date of Conduct: 8.7.2022 Friday
- Venue: : Physiology Lecture hall
- Faculty : Dr. David
- Objectives of the Session: Every student was ask to write a reflection based on sessions 1 & 2
- Teaching-Learning activity (In Brief)  
Reading material-Narration by **Gene Ginsberg** "I finally learned what it means to be a doctor" was given to the students. They were asked to read the material and discuss among a group of 8-10 students.
- Photos of the session (If any): attached
- Attendance (Total strength: 150 No of students Present: 65 No of students Absent:85
- Remark

**Students discussing narration in small groups**

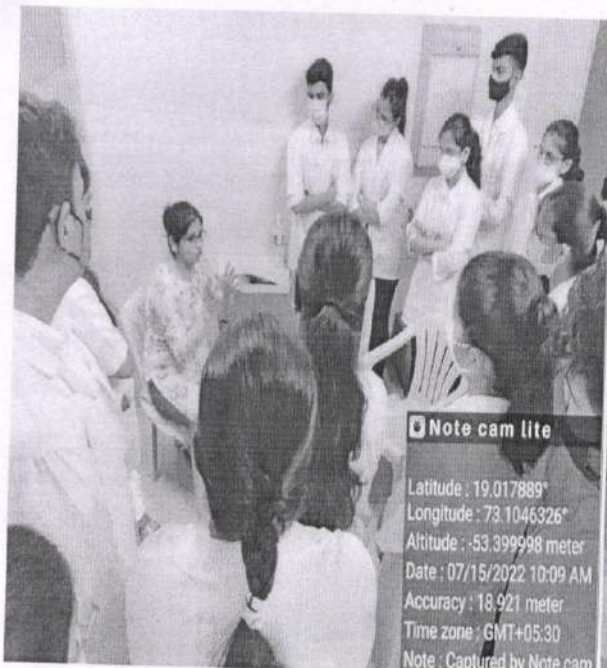

- Name of Session: **Session 4: Introductory visit to the hospital**
- Duration: 2 hour
- Time: 9am-11am
- Date of Conduct: 15.7.2022 Friday
- Venue: : General medicine, Orthopaedics, Paediatrics departments
- Faculty : Dr. Priyanka Rane, Dr David Isaac, Dr Ashita Phadnis
- Objectives of the Session:
  - Visit arranged to Clinical Departments preferably Medicine, Paediatrics (OPD, IPD) ,Orthopaedics
  - Clinical Faculty Members will be sharing experiences
  - Students will be observing interaction of doctor with patients
- Teaching-Learning activity (In Brief)

The batch of 150 students divided into 50 students each and one batch went to General paediatric department, second batch went to Orthopaedics department third batch went to medicine department.

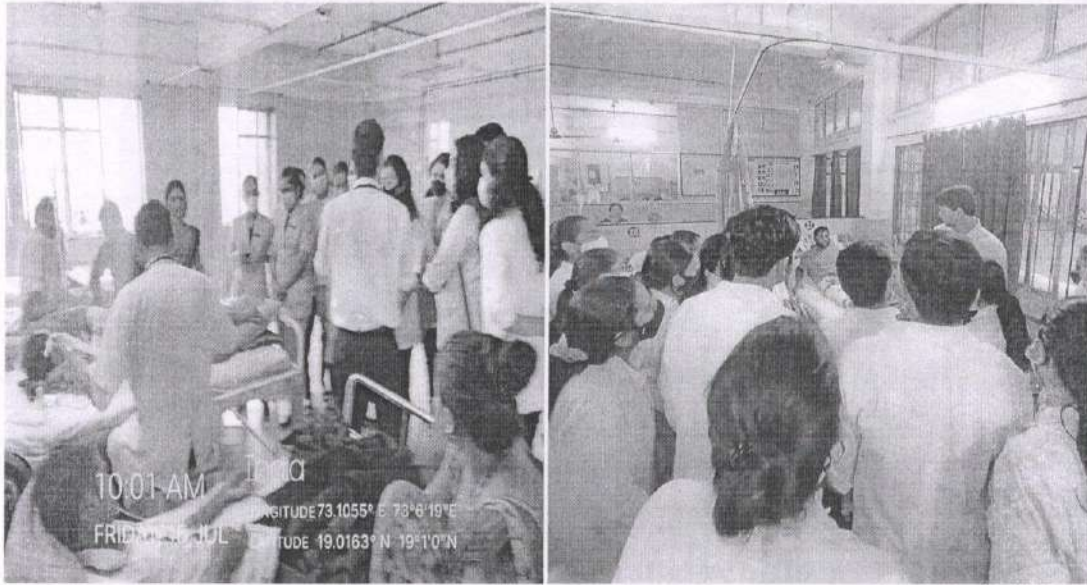

Students visited OPD, Male/Female wards . Medicine faculty interacted with students and showed them working doctors' responsibility in the OPD, wards & ICU.

## AETCOM (Attitude, Ethics and Communication) Module

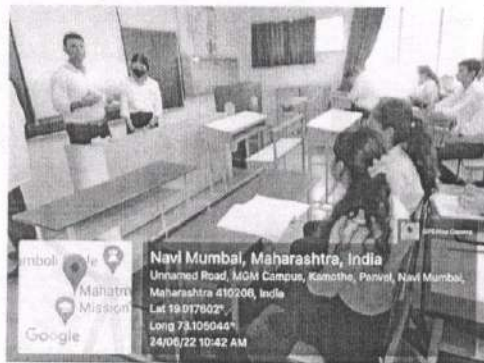

### Teaching -Learning activity: Report Submission Format

- **AETCOM Module No and Name:** Module 1, 2: "What does it mean to be a patient?"
- **MBBS Professional Year:** I MBBS (CBME) 2021-22
- **In charge department:** Physiology
- *Session Wise Details*
  - Name of Session: **Session 1: Exploratory session**
  - Duration: 2 hour
  - Time: 9-11am
  - Date of Conduct: 22.07.2022 Friday
  - Venue: : Physiology Lecture Hall
  - Faculty: Dr. Ashita.Phanis, Dr.Madhur Rai
  - Objectives of the Session:
    - Students enquiring from them about their views on health, disease and suffering.
      - ❖ Experience sharing about their personal ill health or someone among their families and friends.
      - ❖ How did that experience affect them?
      - ❖ What do they believe patients feel and go through?
      - ❖ How does it affect patient's behaviour, outlook and expectations
  - Teaching-Learning activity (In Brief)

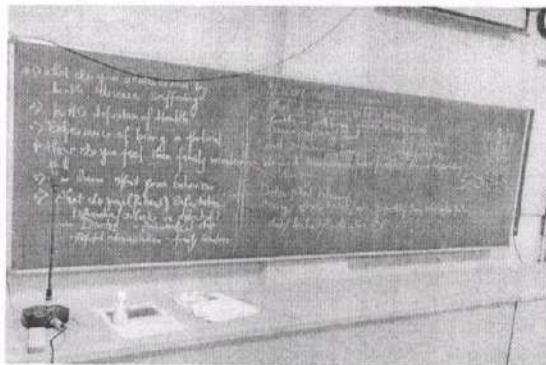

The Facilitators interacted with the students and discussed about the following points.

    - Students shared their views on health, disease and suffering.
    - Some students shared their Experience about their personal ill health, how they felt, how the illness affected them
    - Some students shared the experience of illness among their families, the amount of tension, care giving, work burden etc.
  - Photos of the session (If any): attached
  - Attendance (Total strength: 150 No of students Present: 103 No of students Absent:47)

Students sharing their experiences

Points noted down on black board

- Name of Session: **Session 2: Hospital visit**

- Duration: 2 hour

- Time: 9am- 11am

- Date of Conduct: 29.07.2022 , Friday,

- Venue: : Hospital wards & OPDs

- Objectives of the Session:

- ❖ Students are assigned to patients in the hospital, interview them about their experiences, reactions, emotions, outlook and expectations

- Teaching-Learning activity (In Brief)

The batch of 50 students was sent to one department for the hospital. The three batches A, B, C went to General medicine department & Paediatric department, General surgery department, Orthopaedics' department respectively.

Each batch has one facilitator. – Priyanka, Pooja, Suvarna, (General Medicine Department), Hitali Mali (Paediatric department) Dr. Ashita Phadnis (General surgery department), Dr. David Isaac (orthopaedic Department),

Facilitator from General medicine, Paediatric, General surgery, Orthopaedics coordinated the session.

In each clinical department, the clinical facilitator assigned one patient in the ward to group of 3-4 students each to interview them about their experiences, reactions, emotions, outlook and expectations with respect to disease

- Photos of the session (If any): attached
- Attendance (Total strength:150 No of students Present: 134 No of students Absent:16

#### Students observing doctor-patient interaction

### Students interacting with patient and relatives

- Name of Session: **Session3: Self-directed learning**
- Duration: 2 hour
- Time: 9-11am
- Date of Conduct: 05.08.2022 Friday
- Venue: : Physiology Lecture Hall
- Faculty : Dr. David Isaac
- Objectives of the Session:
  - ❖ Movie clips regarding patients feeling, expectation was shown.
  - ❖ The Movie clip of Marathi movie –“Shwas” was shown to students; students were instructed to observe the feeling, emotions of the patient and his relative in the movie.
- Teaching-Learning activity (In Brief)
  - ❖ Every student was ask to write a reflection based on sessions 1 & 2
- Photos of the session (If any): no
- Attendance (Total strength: 150 No of students Present: 80 No of students Absent:70

- Name of Session: **Session 4: Discussion and closure**
- Duration: 2 hour
- Time: 9-11am
- Date of Conduct: 12.08.2022 Tuesday
- Venue: : Physiology Lecture Hall
- Faculty : Dr. David Isaac
- Objectives of the Session: Students to share their reflections based on 1, 2 and 3.
- Teaching-Learning activity (In Brief)

Few students were called upon voluntarily and asked to share and read out the reflection they have written.

Students were encouraged to discuss and express their views and experiences based on last 3 session.

Facilitator summarised the points and closed the discussion.

- Photos of the session : no

### DEPARTMENT OF PHYSIOLOGY

MGM/MED-C/PHY/OTW/2022/ 250(a)

Date: 28.04.2022

### ECE REPORT

**Topic:** ECE MODULE 1 – ERYTHROPOEISIS & ANAEMIA

**Type:** Basic skill module

**For:** 1<sup>st</sup> MBBS 2021-22

**Date:** 27.04.2022

**Time:** 10am-1 pm

**Venue:** Physiology Lecture Hall 4

**Organized by:** Department of Physiology

**Faculty:** Dr. Ashita Phadnis. Asst. Prof.

**Total attendance:** 128 students.

Six cases of anaemia were finalized, 1.Iron deficiency anaemia, 2. Thalassemia Major, 3. Chronic blood loss anemia 4.Leukemia, 5. Vit B12 deficiency anemia. 6. Blood loss anaemia. Each case sheet was prepared with case details, symptoms, history, clinical signs, and clinical examination. The power point presentation was prepared.

The module was conducted as follows:

1. Introduction and instruction to students: 20 min
2. Exposure to clinical context and discussion: 90 min
3. Summary and conclusion: 10 min
4. Reflection: 30 min
5. Assignment: 30 min

The students were seated in the lecture hall and PPT presentation was shown.

The faculty explained the case scenarios, sign and symptoms to the students, the students were encouraged discuss the cases and physiological basis of the cases. The students were asked to answer to SAQ question as assignment, and then students were ask to write reflections as per ECE reflection module. The feedback from students was obtained by Google forms and result was analyzed.

**DEPARTMENT OF PHYSIOLOGY**

MGM/MED-C/PHY/OTW/2022/ 250 (b)

Date: 02.05.2022

**ECE REPORT**

**Topic:** Myasthenia Gravis and N-M junction

**Type:** Basic science module

**For:** 1<sup>st</sup> MBBS 2021-22

**Date:** 30.04.2022

**Time:** 10am-1 pm

**Venue:** Physiology Lecture Hall 4

**Organized by:** Department of Physiology

**Faculty:** Dr. Priyanka Rane, Asst. Prof.

**Total attendance:** 122 students.

Three cases of Myasthenia Gravis were finalized. Each case sheet was prepared with case details, symptoms, history, clinical signs, results of physical examination and clinical examination.

The module was conducted as follows:

1. Introduction and instruction to students: 20 min
2. Exposure to clinical context and discussion: 90 min
3. Summary and conclusion: 10 min
4. Reflection: 30 min
5. Assignment: 30 min

Introduction was given by Dr. Priyanka Rane.

The students were given cases in groups of three and encouraged to discuss the physiological basis of the cases. The students were asked to answer to given assignment & then students were asked to write reflections and to submit as per ECE reflection module. The feedback forms students were obtained by Google forms and result was analyzed.

Date: 09.07.2022

**ECE REPORT**

**Topic:** ECE MODULE 3 – COPD and PFT

**TYPE:** Clinical skill Module

**For:** 1<sup>st</sup> MBBS 2021-22

**Date:** BATCH –A on 05.07.2022, BATCH –B on 06.07.2022, BATCH –C on 07.07.2022

**Time:** 10am-1 pm

**Venue:** Hospital setting-Respiratory medicine ward and PFT lab

**Organized by:** Department of Physiology

**Faculty:** Dr. Priyanka Rane Assoc. Prof., Dr. Ashita Phadnis, Dr. Madhur Rai, Asst. Prof., Physiology.  
Dr. P V Potdar. Prof. & HOD, Respiratory Medicine.

**Total attendance:** 134 students.

The case of Chronic Bronchitis patient was shown and discussed by respiratory medicine professor. The detailed examination of the patient was discussed by respiratory medicine Resident. The detailed clinical skill module was prepared with competency, objectives, instruction to facilitator and student, observation guide. The same was shared with the faculty Respiratory Medicine.

The module was conducted as follows:

1. Introduction and instruction to students: 20 min
2. Exposure to clinical context and discussion: 90 min
3. Summary and conclusion: 10 min
4. Reflection: 30 min
5. Assignment: 30 min

The ECE session was conducted for three batches of 50 students on three different days. The physiology faculty /facilitator gave Introduction and instruction to students. Then the students were taken to the Seminar room & PFT Lab. The Respiratory Medicine faculty conducted short presentation regarding clinical context and Pathophysiology of COPD. Then students were taken to the respiratory medicine ward & shown a case of chronic bronchitis with clinical examination findings. Then students were taken to PFT lab shown procedure of PFT and PFT finding in COPD patient were discussed with students. The students were asked to answer to the shot notes given as assignment, and write a reflection. The feedback forms students were obtained by Google forms and result was analyzed.

### DEPARTMENT OF PHYSIOLOGY

MGM/MED-C/PHY/OTW/2022/ 250 (d)

Date: 15.07.2022

### ECE REPORT

**Topic:** ECE MODULE 4 –Acid Peptic Disease

**Type:** Basic skill module

**For:** 1<sup>st</sup> MBBS 2021-22

**Date:** 13.07.2022

**Time:** 10am-1 pm

**Venue:** Physiology Lecture Hall 4

**Organized by:** Department of Physiology

**Faculty:** Dr. Ashita Phadnis, Asst. Prof., Physiology

**Total attendance:** 136 students.

Four cases of Acid Peptic Disease were finalized with coordination with medicine department. Each case sheet was prepared with case details, symptoms, history, clinical signs, results of physical examination and clinical examination.

The module was conducted as follows:

1. Introduction and instruction to students: 20 min
2. Exposure to clinical context and discussion: 90 min
3. Summary and conclusion: 10 min
4. Reflection: 30 min
5. Assignment: 30 min

The students were seated in the lecture hall and PPT presentation was shown.

The faculty explained the case scenarios, sign and symptoms to the students, the students were encouraged discuss the cases and physiological basis of the cases. The students were asked to answer to SAQ question as assignment, and then students were ask to write reflections as per ECE reflection module. The feedback from students was obtained by Google forms and result was analyzed.

**DEPARTMENT OF PHYSIOLOGY**

MGM/MED-C/PHY/OTW/2022/287(a)

Date: 03.08.2022

**ECE REPORT**

**Topic:** ECE MODULE 5 – Myocardial infarction (MI)

**TYPE:** Clinical skill Module

**For:** 1<sup>st</sup> MBBS 2021-22

**Date:** 02.08.2022

**Time:** 10am-1 pm

**Venue:** Physiology Lecture Hall 4

**Organized by:** Department of Physiology

**Faculty:** Dr. Ashita Phadnis Asst. Prof. Physiology, Dr. Shilpa Kadam Prof. Cardiology

**Total attendance:** 134 students.

The case of Myocardial Infarction was finalized after having a talk with Cardiologist. The detailed clinical skill module was prepared with competency, objectives, instruction to facilitator and student, observation guide. The same was shared with the Cardiology faculty.

The module was conducted as follows:

1. Introduction and instruction to students: 20 min
2. Exposure to clinical context and discussion: 90 min
3. Summary and conclusion: 10 min
4. Reflection: 30 min
5. Assignment: 30 min

The physiology faculty /facilitator gave Introduction and instruction to students. The cardiology faculty conducted clinical context and discussion & Summary and conclusion for 90mins with the students and students were shown a classical case of Myocardial infarction with ECG finding and angiography finding and also echo cardiography findings.

The students were asked to answer to the short notes given as assignment, and write a reflection. The feedback forms students were obtained by Google forms and result was analyzed.

MGM/MED-C/PHY/OTW/2022/ 287(b)

Date: 22.08.2022

**ECE REPORT**

**Topic:** ECE MODULE 6 – Thyroid disorders

**Type:** Basic skill module

**For:** 1<sup>st</sup> MBBS 2021-22

**Date:** 19.08.2022

**Time:** 10am-1pm

**Venue:** Lecture Hall No. 4

**Organized by:** Department of Physiology

**Faculty:** Dr. Swati Gawali Asst. Prof., Physiology

**Total attendance:** 144 students.

One case of Hyperthyroid and One case of Hypothyroid Disease were finalized with coordination with medicine department. Each case sheet was prepared with case details, symptoms, history, clinical signs, results of physical examination and clinical examination.

The module was conducted as follows:

1. Introduction and instruction to students: 20 min
2. Exposure to clinical context and discussion: 90 min
3. Summary and conclusion: 10 min
4. Reflection: 30 min
5. Assignment: 30 min

The case scenarios, sign and symptoms were explained to the students, the students were encouraged discuss the cases and physiological basis of the cases. The ECE assignment was taken by SAQ writing, reflection and feedback were obtained by Google forms and result was analyzed.

- PBL session 1-15.7.22(Friday): Case distribution, orientation, forming learning objectives
- Inter session - Search form recourses, Preparation of presentation
- PBL session 2 -21.7.22(Thursday): case presentations including basic physiology by student group
- Assessment (Out of 10 marks): Case discussion & group presentation.

**Session -1 Case distribution (1 case per 10 students group, roll no wise)**

1. A20-year-old male (O Negative blood type) was admitted to the emergency ward with hypovolemic shock, following a road traffic accident. He was conscious, complains of pain in abdomen. His vital were pulse 180bpm, BP 92/64mmHg. You need to arrange blood transfusion.
2. Mr. Solomon is a 58 year old male who presents with a episode of "chest pain", localized to "my breast bone" experienced during a golf game; he has had similar episodes during the past six months. This time it was sever and associated with sweating. He has past history of Hypertension and uncontrolled blood sugar.
3. 8 month old baby was brought to OPD by mother. Baby was having bruises on the body. He had swollen bilateral knees, ankles, and wrists. Baby was crying on touching his joints. Mother gave history of similar episodes in maternal uncle and cousins.
4. A 16 year old boy visited chest OPD with complaints of difficulty in breathing and wheezing. On examination; RR -24/min, FVC-2.9L, FEV1-62%, FRC-4.2L.
5. A 45 year old male , chronic alcoholic was admitted in the ward with generalized oedema and ascities. On investigation; Total Sr.protein - 4.8gm/dl, Sr. Albumin- 2.2gm/dl, Sr. Globulin- 2.6gm/dl.

A handwritten signature in blue ink, appearing to be "Rmm".

- PBL session1 -14.7.22(Thursday): Case distribution, orientation, forming learning objectives
- Inter session - Search form recourses, Preparation of presentation
- PBL session2 -20.7.22(Wednesday): case presentations including basic physiology by student group
- Assessment (Out of 10 marks): Case discussion & group presentation.

**Session -1 Case distribution (1 case per 10 students group, roll no wise)**

1. A 45 yrs old person complains of upper abdominal pain for the last 2 months. He said that the pain felt like a burning sensation, usually occurs in empty stomach. The pain often gets relieved after taking food. The pain worsens again after 2 hrs. He is a business executive in a corporate hospital and also gives of smoking and alcohol history.
2. A 63-year-old self-employed plumber presented with 'chest infection'. He caught an upper respiratory tract infection from his grandchildren 10 days ago, and he now has a productive cough with green sputum, and his breathlessness and fatigue has forced him to take time off work. He has visited his general practitioner with similar symptoms two or three times every year in the last decade. A diagnosis of COPD was confirmed 6 years ago, and he was started on a short-acting  $\beta$ 2-agonist. This helped with his day-to-day symptoms.
3. 30 year old Female patient presented to medicine OPD with complain of easy tired and has no energy to do her usual daily work. She had her third delivery 8 months before. Her diet is poor in green leafy vegetables. She does house hold work in nearby building for her living.
4. 6 year old boy was brought to OPD by his mother, with complaints of fatigue and dizziness. He was having dark colored stool for 3 days. On examination skin was pale. On investigation: total bilirubin -6mg/dl, Indirect bilirubin- 4.5mg/dl , HB-7gm%, Reticulocyte count -3%.
5. A 50 year old male visited OPD with complaints of headache, irritability and lack of sleep since 16days. On examination; general condition was good, pulse-90/min, BP- 160/98mmHg, ECG- normal.

A handwritten signature in blue ink, appearing to be "Rm" with a flourish.

YOUR HEALTHCARE PROVIDER WILL PERFORM A PHYSICAL EXAM AND ASSESS YOUR SYMPTOMS. YOU MAY UNDERGO THESE TESTS:

**ICE PACK TEST:** IF YOU HAVE SEVERELY DROOPING EYELIDS, YOUR PROVIDER MAY PLACE ICE PACKS ON YOUR EYES OR HAVE YOU REST WITH YOUR EYES SHUT IN A DARK ROOM FOR A FEW MINUTES. IF THE DROOPING IMPROVES AFTER THE ICE APPLICATION OR REST, YOU MAY HAVE MG.

**ANTIBODY TESTS:** ABOUT 85% OF PEOPLE WITH MG HAVE UNUSUALLY HIGH LEVELS OF ACETYLCHOLINE RECEPTOR ANTIBODIES IN THEIR BLOOD. APPROXIMATELY 6% PATIENTS HAVE MUSCLE-SPECIFIC KINASE (MUSK) ANTIBODIES. ANTIBODIES MAY NOT BE DETECTED IN LESS THAN 10% OF MG PATIENTS.

**IMAGING SCANS:** AN MRI OR CT SCAN CAN CHECK FOR THYMUS GLAND PROBLEMS LIKE TUMORS.

**ELECTROMYOGRAM (EMG):** AN EMG MEASURES THE ELECTRICAL ACTIVITY OF MUSCLES AND NERVES. THIS TEST DETECTS COMMUNICATION PROBLEMS BETWEEN NERVES AND MUSCLES.

# WHAT IS JAUNDICE?

Refers to a yellowish tint to the body tissues including a yellowness of the sclera. The cause of jaundice is large quantities of **bilirubin** in the extracellular fluids, either conjugated or unconjugated type.

Normal level is around 0.5 mg/dl of plasma. In jaundice, it can rise to as high as 10 mg/dl (three times the normal).

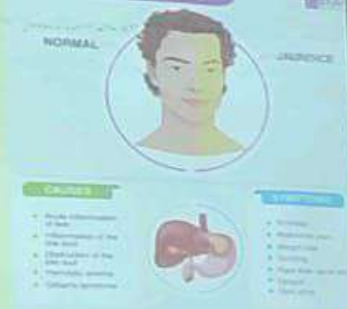

Jaundice is characterized by the following symptoms:

1. Rapid release of bilirubin

2. Damage to the liver cells so that bilirubin cannot be excreted properly.

3. Obstructive Jaundice

# IRON DEFICIENCY ANEMIA AWARENESS

*listen to your body*

**IRON DEFICIENCY DAY**  
**26TH NOVEMBER**

**DEPARTMENT OF PHYSIOLOGY**  
**MGM MEDICAL COLLEGE, KAMOTHE, NAVI MUMBAI**

Date: 5.07.2022

**PHYSIOLOGY SDL-1**

**CBME-MBBS (2021-22)**

**Date – 9/7/2022**

Self study hours: 4 hours

**Topic – Blood pressure regulation and Regulation of respiration**

**COMPETENCY –**

- PY5.9: Describe the factors affecting and regulation of blood pressure.
- Describe regulation of respiration.

**Learning Objectives-**

1. Define Systolic Blood Pressure & Diastolic Pressure, Mean Arterial Pressure, Pulse pressure & give normal values
2. List & Discuss factors affecting Arterial BP
3. Determinants of Arterial BP
4. Describe mechanism of regulation of arterial BP
  - Rapidly acting regulatory mechanisms
  - Intermediate acting regulatory mechanism
  - Long term acting regulatory mechanism
5. Describe neural regulation of respiration-respiratory centers, factors affecting respiratory centers, reflexes,
6. Describe Chemical regulation of respiration-central & peripheral chemoreceptor, Effect of oxygen, carbon- di- oxide and pH

**Assessment- MCQ test on 09.07.2022 through Goggle form online**

**Learning material – Books**

1. Text book of Physiology- A K Jain
2. Text book of medical physiology- G K Pal
3. Guyton & Hall text book of medical physiology

*for open*

**PHYSIOLOGY SDL-2**

**CBME-MBBS (2021-22)**

**Date** – 27.8.2022

**Self study hours:** 4 hours

**Topic** – Insulin, Glucagon & blood glucose regulation, DM

**COMPETENCY –**

PY8.6 Discuss physiological anatomy of endocrine pancreas. And describe structure, synthesis, secretion, mechanism of action, physiological functions, regulation, and effect of altered secretion of pancreas (insulin & Glucagon)

**Learning Objectives-**

1. Outline physiological anatomy of Endocrine Pancreas & hormones secreted by it
2. Describe synthesis, structure, secretions, transport & mechanism of action of insulin and glucagon
3. Discuss physiological functions and actions of insulin and glucagon (especially on metabolism)
4. State the normal plasma Glucose levels
5. Discuss role of various hormones and other factors in Glucose homeostasis
6. Discuss the clinical features (signs, symptoms & biochemical changes) and manifestation of diabetes mellitus and hypoglycemia

**Assessment- Online MCQ test on 27.8. 2022 through Goggle form online**

**Learning material – Books**

1. Text book of Physiology- A K Jain
2. Text book of medical physiology- G K Pal
3. Guyton & Hall text book of medical physiology

Quiz Competition & winner certificate distribution

### Short event report

The **Department of Clinical Embryology** at MGM School of Biomedical Sciences, MGM Institute of Health Science, Navi Mumbai organized "**World Embryologist Day**" on **Wednesday, 27<sup>th</sup> July 2022**. The event commenced at 11:00 am. The event started with welcoming speech and felicitation of the all the guests. **Mrs. Sophia Maske**, a senior embryologist at Apollo Fertility in Belapur, was invited as the **Chief guest** on this special occasion. Post felicitation, Shradha Mishra, a 1st year (Sem II) M.Sc. Clinical Embryology student, delivered an introductory speech and showed a video that featured a brief peek of the clinical embryology batch's journey from Batch 2019-20 to Batch 2021-22. Then the chief guest gave a short **glimpse of her journey as an embryologist** and guided with her inspirational words. **Quiz on Reproductive health** was conducted which consisted of total 3 rounds. Then Poster competition was held on topic "**Adolescent Reproductive Health**" where each participant presented their posters. Following each competition, the winners were announced and awarded with certificates. The event concluded with vote of thanks given by **Shikha Kadam** (II Sem, M.Sc. Clinical Embryology student).

### A PERSPECTIVE ON ROLE OF OVULATION TESTING IN CONCEPTION

DEPARTMENT OF CLINICAL EMBRYOLOGY  
MGM INSTITUTE OF HEALTH SCIENCES  
MGM SCHOOL OF BIOMEDICAL SCIENCES, MUMBAI

**INTRODUCTION**

Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children. Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children.

**CONCEPT**

Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children. Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children.

**REPRODUCTIVE HEALTH**

Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children. Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children.

**CONCLUSION**

Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children. Reproductive health is a state of well-being in which the reproductive system is functioning properly and the individual is able to conceive and bear children.

### IVF MYTHS AND FACTS

DEPARTMENT OF CLINICAL EMBRYOLOGY  
MGM INSTITUTE OF HEALTH SCIENCES  
MGM SCHOOL OF BIOMEDICAL SCIENCES, MUMBAI

**MYTHS**

- Myth 1: IVF is a very expensive treatment.
- Myth 2: IVF is a very risky treatment.
- Myth 3: IVF is a very painful treatment.
- Myth 4: IVF is a very complicated treatment.
- Myth 5: IVF is a very dangerous treatment.

**FACTS**

- Fact 1: IVF is a very effective treatment.
- Fact 2: IVF is a very safe treatment.
- Fact 3: IVF is a very simple treatment.
- Fact 4: IVF is a very easy treatment.
- Fact 5: IVF is a very successful treatment.
