Dear Dr. Rajani Kanade,

My colleague and the Head of Medical Section at TIFR, Dr. Sandhya Raghavan has highly recommended a colloquium by you. On behalf of the Institute's ASET Forum, it is my pleasure to invite you to give an ASET colloquium (in **physical** mode) at the Tata Institute of Fundamental Research, Mumbai. ASET colloquium is held on working Fridays at 1600 hours. The duration of an ASET colloquium is 45-50 minutes, followed by a discussion. We thank you both for accepting our invitation and for confirming your convenient date. Accordingly, we scheduled your talk at 4pm on August 26, 2022.

I request you also to send me your name and affiliation (as you want them to appear in the announcements), title and a short abstract/summary (less than 150 words) of your talk as well as your brief profile (less than 150 words) as soon as possible so that we can publicise your talk early enough. Your colloquium will be organised on Zoom and live-streamed on ASET's YouTube channel, where the talk video will also be archived. Your slides, if any will be posted on the ASET web page. Please let me know your consent for this. Please feel free to contact me any time or write to me for further information or clarifications. Thank you.

ASET is an acronym for Advances in Science, Engineering and Technology.

The ASET Forum was established more than three decades ago in TIFR. It regularly organises colloquia, workshops and other programmes under the broad spectrum of fields covered by ASET. Apart from TIFR scientists and engineers, eminent speakers from outside are also invited to speak in this Forum. ASET Forum has proudly hosted a large number of Nobel laureates, Fields Medallist, heads of major scientific and academic institutions, national and international experts, policy makers and so on. Kindly go through ASET's official web page for more information.

ASET is one of the prestigious series of colloquia and is traditionally the concluding academic event of the week in TIFR. ASET colloquium is an Institute level academic activity and is therefore very well attended by its academicians and engineers. ASET colloquium is meant to be a lively exposition of an area of science, engineering or technology by an authority in that field. The coverage of the subject is expected at a non-technical level so that most of it is accessible even to non-experts of the field. I request you to prepare your talk with these guidelines in mind.
