Summary:

- Session commenced by posting a pre reading material followed by a link to download the necessary software to understand the 2D motion analysis.
- The participants were evaluated for the baseline knowledge on the topic through a pre- evaluation quiz.
- Following which a brief introduction about the historical perspective of clinical biomechanics was presented by Dr. Akhila Natesan (PT).
- Dr. Victoria Kuttan (PT) conducted an interactive session on basics of gait, followed by a group activity in which each group was allotted different topics (i.e phases of gait, temporospatial parameters, Kinematics and Kinetics).
- The participants were taken through a tour of MGM Centre of Human Movement Science informing about the various lab facilities and equipments was presented to participants by Dr. Triveni Shetty (PT) and Dr. Akhila Natesan (PT).
- Participants were briefed with various methods for capturing gait from observational gait analysis to 2-D and 3-D analysis by Dr. Triveni Shetty (PT) and Dr. Akhila Natesan (PT).
- After a theoretical session on various software's available for 2-D analysis, how to capture a perfect video for 2D analysis was demonstrated to the participants.
- A practical demonstration for recording video and analysing it using Kinovea (2-D gait analysis software) was conducted.
- A virtual demonstration of 2D analysis was done followed by a practice session for the participants. The participants uploaded the captured videos and practiced 2D analysis by sharing their screen and guidance given by Dr. Akhila Natesan (PT).
- Interpretation of graphical reports generated from 3-D system was discussed with examples from pathological gait of patients with congenital talipes equines varus (CTEV) and Cerebral palsy.
- Feedback was sought from all participants on a structured questionnaire google form.

Value Added Course - 3D Gait Analysis

Preamble:

- A 16-hour value added course on 3D Gait analysis was organized by MGM Centre of Human Movement Science, MGM School of Physiotherapy, MGM Institute of Health Sciences, Navi Mumbai on 01/04/2023, 08/04/23, 15/04/23 and 29/04/23

Mode: Offline practice and demonstration sessions at MGM CHMS

Attendees: Interns batch (2022-23)

No. of attendees enrolled – 69

No. of attendees completing the value added course – 52

Resource Person:

Dr. Rajani Mullerpatan, Prof- Director, MGM School of Physiotherapy, NM

Dr. Bela Agarwal, Professor, MGM School of Physiotherapy, NM

Dr. Triveni Shetty, Associate Prof., MGM School of Physiotherapy, NM

Dr. Akhila Natesan (PT), Asst.Prof., MGM School of Physiotherapy, NM

Dr. Victoria Kuttan (PT), Asst. Prof., MGM School of Physiotherapy, NM

Objective:

- Understand theories of movement control and loading.
- Understand the basic principles of 3D motion analysis for gait.
- Understand the procedure for capturing and interpreting gait using 2D motion analysis
- Able to integrate and apply the above to analyze movement problems encountered in patient population

MGM INSTITUTE OF HEALTH SCIENCES

Summary:

Day 1:

- Pre reading material along with a link to download the necessary software to understand the 2D motion analysis was posted prior to the workshop.
- Session commenced by posting a pre workshop evaluation questionnaire. The participants were evaluated for baseline knowledge of the topic through a pre-evaluation quiz.
- Following which a brief introduction about the historical perspective of movement science was presented by Dr. Victoria Kuttan (PT).
- Dr. Triveni Shetty conducted an interactive theoretical session on basics of gait.
- A group activity was conducted in which each group was allotted different topics (i.e phases of gait, temporospatial parameters, Kinematics and Kinetics). Each group was allotted 10 minutes to prepare a brief presentation on their respective topic.

Day 2:

- The participants were taken through a tour of MGM Centre of Human Movement Science informing them about the various lab facilities and equipment's in detail by Dr. Akhila Natesan (PT).
- A brief demonstration of system preparation of 3D VICON system, participant preparation and capture was done Dr. Victoria Kuttan (PT) and Dr. Triveni Shetty.

Day 3:

- Interpretation of graphical reports and the outputs generated from 3D system was discussed with examples from pathological gait of patients with Congenital Talipes Equines Varus (CTEV), cerebral palsy, hemiplegia and osteoarthritic knee.
- Participants were briefed about the various methods for capturing gait from observational gait analysis to 2D and 3D analysis by Dr. Akhila Natesan (PT).
- The theoretical session comprised of information about various software's available for 2-D analysis and guidelines to be followed while capturing a video for 2D analysis.

Day 4:

- A practical demonstration for recording video and analyzing it using Kinovea (2-D gait analysis software) was conducted.
- After the virtual demonstration of 2D analysis, a practice session was arranged for the participants. The participants captured videos of isolated joint motion and gait, uploaded the captured videos and practiced 2D analysis by sharing their screen under the guidance of Dr. Akhila Natesan (PT).
- Post workshop evaluation and feedback was sought from all participants on a structured questionnaire google form.

VALUE ADDED COURSE

APPLIED AREAS
OF
ERGONOMICS

FUNCTIONAL ERGONOMICS

Course Co-coordinator:
Dr. Victoria Kuttan (PT)

1

Objective of this course is to understand how to design workspaces for a diverse work population

2

Learn to study workstation evaluation methods to identify potential hazards that contribute to work related musculoskeletal disorders

3

Duration : 40 hours for 8 weeks

4

End of course evaluation will be assessed through video project and field visit of 80marks

5

Certificate will be provided after completion of 30 hours of coursework, evaluation and feedback submission

Preamble:

A 40 hour course on 'Functional Ergonomics' was organized by MGM School of Physiotherapy, MGM Institute of Health Sciences, Navi Mumbai on 1st to 10th, 12th to 24th and 26th to 30th December 2022

Mode: Offline and Online sessions

Attendees: Semester IV batch(2022-2023) BPT students of MGM School of Physiotherapy

Resource Person:

Dr. Victoria Kuttan (PT), Asst. Prof., MGM School of Physiotherapy, NM

Dr.Kshitija Jadhav (PT) , Asst. Prof., MGM School of Physiotherapy, NM

Dr.Ramandeep Kaur Saini(PT), Asst. Prof., MGM School of Physiotherapy, NM

Dr .Viral Sarvaiya(PT), Asst. Prof., MGM School of Physiotherapy, NM

Objective:

- Understand safety culture and its importance in work place.
- Identify hazards and assess risk techniques at work place.
- Critically analyses work place demands and modifies dysfunctional body postures.
- Prescribe ergonomic management at work place.

Summary:

- A session commenced by introducing the objectives of functional ergonomics value added course.
- The participants were evaluated for the baseline knowledge on the topic through a pre- evaluation quiz.
- Following which a brief introduction about the basic principles of ergonomics was presented by Dr. Victoria Kuttan(PT).

- Each session was made interactive by role plays by the participants and how various occupation can be ergonomically evaluated for risk of work related disorder and to form basic of prescribing ergonomics for various occupation by the course instructors Dr Victoria Kuttan(PT), Dr Kshitija Jadhav (PT), Dr Ramandeep Kaur Saini(PT) and Dr Viral Sarvaiya(PT).
- A demonstration of 2D analysis and use of EMG sensors in recording muscle activity was done followed by a practice session for the participants. The participants uploaded the captured videos and images of various occupation and practiced 2D analysis by sharing their screen and guidance was given by Dr. Victoria Kuttan(PT).
- Interactive session on functional Capacity evaluation sessions with use of interactive sessions and role play were conducted by Dr Viral Sarvaiya(PT).
- The participants were taken to field visit at MGM Campus to evaluate working posture of healthcare professionals, IT workers and Construction site worker.
- Participants in groups were given task to evaluate any one particular occupation for ergonomic risk evaluation use photographic and video-graphic methods.
- The participants were analysed post course by the video captured, knowledge on basic of ergonomic evaluation and practical skills of evaluation.
- Feedback was sought from all participants on a structured google form questionnaire.

On the Day 1 – 1st October, 2022. Participants were given a brief introductory session on the how molecular biology techniques based on DNA analysis can be used for Diagnostic applications

The introductory lecture was delivered by Dr.Himanshu Gupta on how the DNA based diagnosis can accelerate the conventional Microbiology diagnostic techniques. Thereafter the introductory lecture was delivered by Mr.Yogesh Patil on what are different tools and techniques used for analysis of Genetic Materials and their practical applications.

In practice session the students were exposed to

- Basic Training on DNA Extraction from Blood
- Basic Training on DNA Extraction from Bacteria
- Primer Designing for PCR experiment

On Day 2 – 2nd October 2022, the students were exposed to type of PCR and their importance in clinical Diagnosis thereafter the practical session was conducted by Mr.Yogesh Patil on;

- Overview on PCR and its Types
- Hands on training on PCR
- Gel Electrophoresis Overview
- Hands on training on Agarose Gel Electrophoresis
- Hands on training on Polyacrylamide Gel Electrophoresis

Post practice session MCQ based evaluation was carried out for the participants in order to issue the course completion certificates
