PHILOSOPHY OF THE PROGRAM

MGM New Bombay College of Nursing (NBCON) is a constituent unit of MGM Institute of Health Sciences (MGMIHS) Navi Mumbai. The philosophy of NBCON is in consistent with the philosophy of MGMIHS and Indian Nursing council New Delhi;

We believe that

- Excellency in health care can be achieved through innovative research and through excellence in education of the health care professionals.
- Post graduate programme is essential to prepare nurses to improve the quality of nursing education and practice in India.
- Post graduate programme in nursing builds upon and extends competence acquired at the graduate levels, emphasizes application of relevant theories into Nursing practice, education, administration and development of research skills.
- The programme prepares nurses for leadership position in nursing and health fields who can function as nurse specialists, consultants, educators, administrators and researchers in a wide variety of professional settings in meeting the National priorities and the changing needs of the society.
- This programme provides the basis for the post master programme in Nursing.
- The programme encourages accountability and commitment to lifelong learning which fosters improvement of quality care.

M.Sc NURSING PROGRAMME

AIM:

The aim of the postgraduate program in nursing is to prepare graduates to assume responsibilities as nurse specialists, consultants, educators, administrators in a wide variety of professional settings.

OBJECTIVES OF POST BASIC B.Sc NURSING PROGRAMME:

On Completion of the two year M.Sc Nursing programme, the graduate will be able to:-

1. Utilize/apply the concepts, theories and principles of nursing science
2. Demonstrate advance competence in practice of nursing
3. Practice as a nurse specialist.
4. Demonstrate leadership qualities and function effectively as nurse educator and manager.
5. Demonstrate skill in conducting nursing research, interpreting and utilizing the findings from health related research.
6. Demonstrate the ability to plan and effect change in nursing practice and in the health care delivery system.
7. Establish collaborative relationship with members of other disciplines
8. Demonstrate interest in continued learning for personal and professional advancement.

DURATION

Duration of the course is 2 years for M.Sc. (N)

Available	52 weeks
Vacation	4 weeks
Examination	2 weeks
Gazetted holidays	3 weeks
Total weeks available	43 weeks
40 hours per week	1720 hours
Total hours for 2 years	3440 hours

REGULATIONS FOR EXAMINATION

Eligibility for appearing for the examination:

75% of the attendance for theory and practical. However, 100% of attendance for practical before the award of degree

Classification of results:

- 50% pass in each of the theory and practical separately.
 - 50-59% Second division
 - 60-74% first division
 - 75% and above is distinction
 - For declaring the rank aggregate of 2 years' marks to be considered
- If the candidate fails in either practical or theory paper he/she has to re- appear for both the papers (theory and practical)
 - Candidate, who fails in any subject, shall be permitted to continue the studies into the second year. However the candidate shall not be allowed to appear for the Second year examination till such time that he/she passes all subjects of the first year M.Sc nursing examination. The maximum period to complete the course successfully should not exceed 4 years

ADVANCED NURSING PRACTICE

Placement:- First Year

Hours of instructions : -Theory: 150 hrs

Practical: 200 hrs

Total : 350 hrs

Course Description

The Course is designed to develop understanding concepts of theoretical basis of advanced nursing practice and critically analyze different theories of nursing and other disciplines.

Objectives: At the end of the course students.

1. Appreciate and analyze the development of nursing profession.
2. Describe ethical, legal, political and economic aspects of health care delivery and nursing practice.
3. Explain bio psycho-social dynamics of health, lifestyle and health care delivery system.
4. Discuss concepts, principles, theories, models and approaches relevant to nursing and their application.
5. Describe scope of nursing practice.
6. Provide holistic and competent nursing care following nursing process approach.
7. Identify latest trends in nursing and the basis of advanced nursing practice.
8. Perform extended and expanded role of nursing.
9. Described alternative modalities of nursing care.
10. Describe the concept of quality control in nursing.
11. Identify the scope of nursing research.
12. Use computer in patient care delivery system.
13. Appreciate importance of self-development and professional advancement.

PRACTICALS

Sr. No.	Area	Duration in weeks
1	Specialty Area – inpatient unit	2
2	Community Health Center / PHC	1
3	Emergency / ICU	2

Activities

- Prepare case studies with nursing process approach and theoretical basis
- Preparation of comparative picture of theories
- Family case work using model of prevention.
- Annotated Bibliography.

Methods of Teaching

- Lecture cum discussion
- Seminar
- Panel Discussion
- Debate
- Case Presentation
- Exposure to Scientific Conferences
- Field Visits

Methods of Evaluation

- Tests
- Presentation
- Seminar
- Written Assignment

Visits-

- Telemedicine Unit
- Biomedical waste management unit
- Infection control unit
- Old age home

NURSING EDUCATION

Placement: - First year

Hours of instruction: - Theory : 150 Hrs

Practical: 150 Hrs

Total : 300 Hrs

COURSE DESCRIPTION

This course is designed to assist students to develop a broad understanding of fundamental principles, trends and issues related to education and nursing education. Further, it would provide opportunity to students to understand, appreciate and acquire skills in teaching and evaluation, curriculum development, implementation, maintenance of standard and accreditation of various nursing educational programs.

Objectives:-

At the end of course, students will be able to:

1. Explain the aims of education, philosophies, trends in education and health: its impact on nursing education.
2. Describe the teaching learning process.
3. Prepare and utilize various instructional media and methods in teaching learning process.
4. Demonstrate competency in teaching, using various instructional strategies.
5. Critically analyze the existing nursing educational programs their problems, issues and future trends.
6. Describe the process of curriculum development, and the need the methodology of curriculum changes, innovation and integration.
7. Plan and conduct continuing nursing education programs.
8. Critically analyze the existing teacher preparation programs in nursing.
9. Demonstrate skill in guidance and counseling.
10. Describe the problems and issues related to administration of nursing curriculum including selection and organization of clinical experience.
11. Explain the development of standards and accreditation process in nursing education program.
12. Identify research priorities in human education.
13. Discuss various models of collaboration in nursing education and services.
14. Explain the concept, principles, steps, tools and techniques of evaluation
15. Construct, administer and evaluate various tools for assessment of knowledge, skill and attitude.

PLANNED ACTIVITIES:-

- Panel discussion / group presentation – Educational Psychology – Theories and laws learning and teaching, personality, Intelligence, Individual, Motivation, Group Dynamics
- Framing philosophy, aims and objectives of an educational Institution
- Lesson Planning
- Micro Teaching – 2
- Conduct Practice teaching using different teaching strategies – 10 (Classroom-5 Demonstration
- Construct a written objective type test for the lessons taken.
- Construct tests, administer and determine reliability and validity.
- Preparation and utilization of instructional aids using different media.
- Design a curriculum for a basic B.Sc Nursing Programme; Develop course plan, units plan, rotation plans, prepare cumulative records for students.
- Prepare rotation plan for clinical practice.
- Planning and organizing field visits.
- Plan, conduct and evaluate a continuing nursing education workshop.
- Annotated bibliography 10
- Critical evaluation of any nursing education program offered by selected institution.
- Educational visit – educational institutions – GNM, B.Sc., Diploma Course etc.
- Field Visits (INC/SNC) to get familiar with recognition/ registration process.
- Construct, administrator and evaluate tools (objective & essay type test, observation checklist, rating scale etc)
- Observe and practice application of various non-standardized tests (intelligence, aptitude, personality, Sociometry, physical and mental disabilities tests)
- Prepare aptitude test for entrance exams of B.Sc. nursing students.
- Prepare plan for evaluation of the students in the B.Sc. nursing programme.
- Visit to schools

METHODS OF TEACHING

- Lecture cum discussion
- Seminar / Presentation
- Project work
- Field Visits
- Workshop

METHODS OF EVALUATION

- Written Tests
- Classroom / Clinical teaching
- Presentation
- Written Assignments
- Project Work

EDUCATIONAL VISITS-

- Visit to the School
- Gifted children
- Slow Learner
- Mentally challenged
- Deaf & Dumb and visually handicapped
- IEC bureau
- State Nursing Council/ School of Nursing of Nursing

Practical:- 50 Hrs
Total:- 150 Hrs**

COURSE DESCRIPTION

This course is designed to assist students to acquire an understanding of the research methodology and statistical methods as a basis for identifying research problem, planning and implementing a research plan. It will further enable the students to evaluate research studies and utilize research finding to improve quality of nursing practice, education and management.

General Objectives:

At the end of course, the students will be able to :

1. Define basic research terms and concept.
2. Review literature utilizing various sources
3. Describe research methodology
4. Develop a research study
5. Communicate research findings
6. Utilize research findings
7. Critically evaluate nursing research studies.
8. Write scientific paper for publication

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

CONTENT OUTLINE

Unit	Hours		Course Content
	Theory	Practicals	
I	10		Introduction: <ul style="list-style-type: none"> • Methods of acquiring knowledge – problem solving and • Scientific method. • Research – Definition, Operation and Aims of scientific research, characteristics, purposes, kinds of Research • Inductive and deductive reasoning • Historical Evolution of research in nursing • Basic research terms • Scope of nursing research: areas, problems in nursing, role of research in nursing • health and social research • Concept of evidence based practice • Ethics in research • Research process, Significant criteria of good research
II	5	5	Review of Literature:- <ul style="list-style-type: none"> • Importance, purpose, sources, criteria for selection of resources and step in reviewing literature.
III	12		Research Approach and design <ul style="list-style-type: none"> • Importance, characteristics of good research design • Threats to internal and external validity. Type: Qualitative and Quantitative Research • Observational studies like descriptive, explanatory and exploratory. • Experimental Studies: pretest design, post test design, follow up or longitudinal, cohort studies, case control studies, cross sectional studies, interventional studies, panel studies, mixed method. • Qualitative: Phenomenology, grounded theory, Ethnography
IV	10	5	Research Problem: <ul style="list-style-type: none"> • Identification of research problem • Formulation of problem statement and research objectives • Definition of terms: Variables, setting, population • Assumptions and delimitations • Identification of variables • Hypothesis – definition, formulation and types

Unit	Hours		Course Content
	Theory	Practicals	
V	5	5	Development theoretical/conceptual framework <ul style="list-style-type: none"> Theories: Nature, characteristics, Purpose and uses Using, testing and developing conceptual framework, Models and theories. Importance of theory application
VI	6		Sampling <ul style="list-style-type: none"> Definition of terms: Population, sample and Sample size, sampling criteria Need and importance of sampling, central limit theorem Sampling theory, concept of standard error, Factors influencing sampling Sampling techniques, census and sampling survey. Implication of sampling design, characteristics of a good sampling design. Types: probability and non probability. Estimation of population mean, population proportion, sample size determination through the approach based on precision rate and confidence level. Problems of sampling.
VII	20	30	Tools and methods of Data collection <ul style="list-style-type: none"> Concepts of data collection, types of data Data sources, methods/techniques quantitative and Qualitative. Tools for data collection – types, characteristics and their development Test of sound measurement: Validity and reliability of tools Possible source of error in measurement Procedure for data collection
VIII	5		Implementing research plan <ul style="list-style-type: none"> Pilot study, review research plan (design), planning for data collection, administration of tool/interventions, collection of data
IX	10	10	Analysis and interpretation of data <ul style="list-style-type: none"> Plan for data analysis: quantitative and qualitative Preparing data for computer analysis and presentation. Statistical analysis Interpretation of data, techniques of interpretation Precaution in interpretation Conclusion and generalizations Summary and discussion

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

Unit	Hours		Course Content
	Theory	Practicals	
X	10		Reporting and utilizing research <ul style="list-style-type: none">• Communication of research results; oral and written• Writing research report purposes, methods and style- Vancouver, American Psychological Association(APA),Campbell etc• Writing scientific articles for publication: layout of report and significance of report writing
XI	3	8	Critical analysis of research reports and articles
XII	4	7	Development and presenting a research proposal

ACTIVITIES:-

- Annotated Bibliography of research and articles.
- Review of literature of selected topics and reporting
- Formulation of problem statement, objective and hypothesis
- Developing theoretical/conceptual framework.
- Conducting validity and reliability tool
- Preparation of sample research tool
- Conducting validity and reliability of research tool
- Analysis and interpretation of given data
- Developing and presenting research proposal
- Journal club presentation
- Critical evaluation for selected research studies.
- Written a scientific paper

METHODS OF TEACHING

- Lecture cum discussion
- Presentations
- Project
- Classroom exercises
- Journal Club

METHODS OF EVALUATION

- Tests (term)
- Assignments
- Research Critiques
- Presentations – Presentation of related researches
- Project Work

**MGM INSTITUTE OF HEALTH SCIENCES,

(Deemed to be University)

Grade 'A' Accredited by NAAC

Part B – Statistics

Hours of Instruction

Theory : 50 Hrs

Practical : 50 Hrs

Total :100 Hrs

COURSE DESCRIPTION

At the end of the course, the students will be able to develop an understanding of the statistical methods and apply them in conducting research studies in nursing.

General Objectives:

At the end of course, the students will be able to :

1. Explain the basic concepts related to statics.
2. Describe the scope of statistics in health and nursing
3. Organize tabulate and present data meaningfully.
4. Use descriptive and inferential statics to predict results.
5. Draw conclusions of the study and predict statistical significance of the results.
6. Describe vital health of the study and predict statistical significance of the results.
7. Use of statistical packages for data analysis.

CONTENT OUTLINE

Unit	Hours		Course Content
	Theory	Practicals	
I	7	4	Introduction: <ul style="list-style-type: none">• Concepts, types, significance and scope of statistics,• meaning of data, Type of data• sample, parameter• type and levels of data and their measurement• Organization and presentation of data – Tabulation of data;• Frequency distribution, relative frequency• Graphical and tabular presentations: bar charts, histograms, frequency polygons, one way scatter plots, box plots, two way scatter plots, line graphs.

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

Unit	Hours		Course Content
	Theory	Practicals	
III	4	5	Measures of variability; <ul style="list-style-type: none"> Range, Percentiles, average deviation, quartile deviation, standard deviation Percentile & percentile rank, Cumulative graph, curved ogive
IV	5	4	Normal Distribution: <ul style="list-style-type: none"> Probability, characteristics and application of normal Probability curve; sampling error. Cumulative distribution, Cumulative graph,
V	6	8	Measures of relationship: <ul style="list-style-type: none"> Correlation – need and meaning Rank order correlation; Scatter diagram method Product moment correlation Simple linear regression analysis and prediction.
VI	3	2	Designs and meaning: <ul style="list-style-type: none"> Experimental designs Comparison in pairs, randomized block design, Latin Squares.
VII	8	8	Significance of Statistic and Significance of difference between two Statistics (Testing hypothesis) <ul style="list-style-type: none"> Non parametric test or distribution free test – Wilcoxon signed rank test, Mann Whitney U test, Kruskal walli's test, Friedman's test and spearman correlation test. Chi-square test, Sign, median test, Parametric test – 't' test, Analysis of variance: one way ANOVA, two way ANOVA, ANOVA in Latin square two way design MANOVA, ANCOVA Analysis of covariance: ANOCOVA, ANOCOVA Technique
VIII	5	5	Use of statistical methods in psychology and education: <ul style="list-style-type: none"> Scaling – Z Score, Z Scaling Standard Score and T Score Reliability of test Scores: test-retest method, parallel forms, split half method.
IX	4	2	Application of statistics in health: <ul style="list-style-type: none"> Measurement of population: rate, crude rate, specific rate. Measurement of fertility: specific fertility rate, total fertility rate. Reproductive rate: gross reproduction rate, net reproduction rate. Measures related to mortality: crude death rate (CDR), age specific death rate, infant and child mortality rate. Measures related to morbidity.

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

Unit	Hours		Course Content
	Theory	Practicals	
IX	4	2	Application of statistics in health: <ul style="list-style-type: none"> • Measurement of population: rate, crude rate, specific rate. • Measurement of fertility: specific fertility rate, total fertility rate. • Reproductive rate: gross reproduction rate, net reproduction rate. • Measures related to mortality: crude death rate (CDR), age specific death rate, infant and child mortality rate. • Measures related to morbidity.
X	4	8	Use of Computers for data analysis <ul style="list-style-type: none"> • Use of computer in data analysis and research, use of software and introduction to SPSS. • Importing data from excel, access, tab and comma separated files. • Entering data, labeling a variable, coding and recording a categorical and continuous variable, converting a data from string to numerical variable, sorting, filtering, merging, appending data set. • Frequencies, descriptive statistics, cross tabulation. • diagrammatic presentation including Histogram, bar chart, pie chart, scatter diagram, box plot, line chart. • Parametric test of hypothesis- one sample, independent and paired sample t- test, one way ANOVA & post HOC Test. • Testing for normality, chi- square test with measures of association, Pearson correlation. • Non parametric tests.

ACTIVITIES:-

- Annotated Bibliography of research and articles.
- Review of literature of selected topics and reporting
- Formulation of problem statement, objective and hypothesis
- Developing theoretical/conceptual framework.
- Conducting validity and reliability tool
- Preparation of sample research tool
- Conducting validity and reliability of research tool

METHODS OF TEACHING

- Lecture cum discussion
- Demonstration – on data organization, tabulation, calculation of statistic, use of statistical package, classroom exercise, organization and tabulation of data
- Computing Descriptive and inferential statistics; vital and health statistics and use of computer for data entry and analysis using statistical package.

METHODS OF EVALUATION

- Tests (term), Classroom Statistical exercises.

QUESTION PAPER

Marks :- 75

Time :- 3 Hours

SECTION A

Nursing Research Marks 50

Q.1) Long Answers

15 Marks

- a. 2 Marks
- b. 5 Marks
- c. 8 Marks

Q.2) Long Answers

15 Marks

- a. 2 Marks
- b. 5 Marks
- c. 8 Marks

Q.3) Write explanatory notes on any 4 out of 5

(4 X 5 = 20 Marks)

- a.
- b.
- c.
- d.
- e.

SECTION B

Statistics Marks 25

Q.1) Write Short Notes on any 2

(2 X 5 = 10 Marks)

- a.
- b.
- c.
- d.
- e.

Q.2) Problems Solve any 3 out of 4

(3 X 5 = 15 Marks)

- a.
- b.
- c.
- d.

NURSING RESEARCH AND STATISTICS

PRACTICAL EXPERIENCE GUIDELINE FOR NURSING RESEARCH:“PROJECT”

Guideline for research project

I Aim: Students will identify the role of nurse in conducting research, writing proposal based on scientific steps and will analyze the data using statistical methods while conducting research project.

II Objectives

- To identify research problem areas
- To get an opportunity to select topic or problem and to formulate research proposal.
- To follow the steps in plan specific design in nursing research proposal and conducting project.
- To differentiate and plan specific design in nursing research i.e. experimental and non-experimental including methodology.
- To get an opportunity to frame/construct simple tool or questionnaire to collect data.
- To follow the basic principles of data analysis including simple tables and statistical methods for proceedings and interpretation of data.
- To be familiar to write research report to communicate the findings including bibliography, and future recommendations.
- To present nursing research report as group activity.
- To present nursing research proposal as individual activity.
- Learns to use computers.
- Recognize role of Research in quality nursing care.

III Guide line/Check list to prepare/Nursing research proposal & project

- 1) *Selection of research problem:* Select your interested area of research based on flat need, issues and social concern in nursing field.
 - a) State the problem – brief concise, clear.
 - b) State the purpose of selected study & topic
 - c) State objective of study/proposal/project.
 - d) State the hypothesis if necessary (Optional)
 - e) Prepare conceptual framework based on operational definition (Optional).
 - f) Write scope and delimitation of Research Proposal.

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

2) *Organizing for review of literature*

AIM a) It ass in to needs to conduct Research project

b) To Study related and relevant literature which help to decide conceptual framework and research design to be selected for your study.

c) To add specific books, bulletins, periodicals, reports, published dissertations, Encyclopedia, text books.

d) Organize literature as per operational definition.

e) To prepare summary table for review of literature.(Optional)

3) *Research Methodology*: To determine logical structure & methodology for research project

a) Decide and state approach of study i.e. experimental or non-experimental.

b) To define / find out variables to observe effects on decided items & procedure (Optional).

c) To prepare simple tool or questionnaire or observational check lost to collect data.

d) To determine sample and sampling method.

i) Mode of selection ii) Criteria iii) Size of sample iv) Plan When, Where and how data will be collected

e) To teat validity of constructed tool with experts/teachers opinion.

f) To check reliability by implementing tool before pilot study (10% of sample Size)

g) To conduct pilot study by using constructed tool for 10% selected sample size.

4) *Data Collection*: To implement prepared tool & to implement constructed tool

a) Decide location

b) Time

c) Write additional information in separate excise book to support inferences and Interpretation.

5) *Data analysis and processing presentation*

a) Use appropriate method of statistical analysis i.e. frequency and percentage.

b) Use clear frequency tables, appropriate tables, graphs, and figures.

c) Interpretation of data:

i) In relation to objectives

ii) Hypothesis (Optional)

iii) Variable of study or project (Optional)

iv) Writing concise report

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

6) Writing Research Report

a) Aims:

- i) To organized materials to write project report
- ii) To make comprehensive full factual information
- iii) To use appropriate languages and style of writing
- iv) To make authorities documentation by checking, references & bibliography.
- v) To use computers.

b) Points to remember

- a) Develop thinking to write research report.
- b) Divide narration of nursing research report.
- c) Use present tense and active voice
- d) Minimize use of technical languages
- e) Use simple, straight forward, clear, concise languages
- f) Use visual aids in front of able, graph and figures
- g) Treat data confidentially
- h) Review, rewrite if necessary

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

EVALUATION CRITERIA FOR PROJECT REPORT / DISSERTATION

Sr.No.	Criteria	Rating				
		1	2	3	4	5
I	Statement of the problem 1. Significance of the problem selected 2. Framing of tile and objectives					
II	Literature Review 3. Inclusion of related studies on the topic, and its relevance					
III	4. Operational definition Research Design 5. Use of appropriate research design 6. Usefulness of the research design to draw the inferences among study variables / conclusion					
IV	Sampling design 7. Identification and description of the target population 8. Specification of the inclusion and exclusion criteria 9. Adequate sample size justifying the study design to draw conclusions.					
V	Data Collection Procedure 10. Preparation of appropriate tool 11. Pilot study including validity and reliability of tool 12. Use of appropriate procedure / method for data collection					
VI	13. Clear and logical organization of the findings Analysis of dates & interpretation 14. Clear presentation of the tables (title, table & column heading)					
VII	15. Selection of appropriate statistical tests Ethical Aspects 16. Use of appropriate consent process 17. Use appropriate steps to maintain ethical aspects and principles (Physical harm etc.)					
VIII	Interpretation of the findings 18. Consistent and appropriate discussion of the findings					
IX	Conclusion 19. Summary and recommendations for to nursing Practice/Education / Administration					
X	Presentation / Report Writing 20. Organization of the project work including languages and style of presentation.					
	Maximum Marks					
	Marks Obtained

FIRST YEAR M.Sc. NURSING

NURSING EDUCATION AND STATISTICS

GUIDELINES TO CRITIQUE RESEARCH STUDY

1. TITLE

- A good title suggesting key variants and the study population.

2. ABSTRACT

- Clear and consider summarizing the main features of the report (problem, methods, results and conclusion)

3. INTRODUCTION

➤ **Statement of the problem**

- The problem stated is unambiguous and easy to identify
- The problem has significance for nursing
- There is a good match between the research problem and the paradigm and methods used, An appropriate quantitative approach

➤ **Hypotheses or research questions**

- Research questions and / or hypotheses are explicitly stated, if not their absence should be justified
- Questions and hypotheses are appropriately worded, with clear specification of key variables and the study population
- The questions and hypotheses are consistent with the literature review and the conceptual framework.

➤ **Literature review**

- The literature review is up to date and based mainly on primary sources.
- The reviews provides the state of the art synthesis of evidence on the research problem
- The Literature review provided a solid basis for the new study
- Conceptual / theoretical framework
- Key concepts are adequately defined conceptually
- There is a conceptual theoretical frame work, rationale and / or map, and it is appropriate

4. METHOD

➤ **Protection of participant's rights**

- Appropriate procedures are used to safeguard the rights of the study participants and the study subject to external review.
- The study is designed to minimize the risks and minimize benefits to the participants

➤ **Research design**

- The most rigorous possible design to be used, given the purpose of the research
- Appropriate comparison are made to enhance
- internal and external validity of the study e.g.(is blinding used, is attrition minimized)

➤ **Population and sample**

- The Population is identified and described and the sample is described in sufficient details
- The best possible sampling design is used to enhance the sample's representativeness and the sample biases are minimized
- The sample size is adequate and a power analysis is used to estimate the sample size needs

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

➤ **Data Collection and measurement**

- The operational and conceptual definitions are congruent
- Key variables are operationalized using the best possible method e.g.(interviews, observations) with adequate justification
- The specific instruments are adequately described and they are good choices given the study purpose and study population
- The report provides evidence that the data collection methods yield data that high on reliability and validity

➤ **Procedures**

- The intervention if present is adequately described and is properly implemented. The participants allocated to the group actually receive the intervention
- The data is collected in a manner that minimizes bias. The staff who collects the data is well trained

5. RESULTS

Data Analysis

- Analysis is undertaken to address each research question or test each hypothesis
- Appropriate statistical methods is used, given the level of the measurements of the variable, number of group being compared and so on.
- Type I and Type II errors are avoided or minimized

➤ **Findings**

- The findings are adequately summarized with good use of tables and figures.
- Findings are reported in a manner that facilitates a meta analysis, and with sufficient information needed for evidence based practice

6. Discussion

➤ **Interpretation of the findings**

- All major findings are interpreted and discussed within the prior research and or the study's conceptual framework
- The interpretations are consistent with the results and with study's limitations
- The report address the issue of generalizability of the findings

7. Global Issues

➤ **Presentation**

- The report is well written, well organized and sufficiently detailed for critical analysis
- The report is written in a manner that makes the findings accessible to practicing nurses

➤ **Researcher credibility**

- The researchers clinical, substantive, or methodological qualifications and experience enhance confidence in their findings and their interpretation

➤ **Summery assessment**

- The study findings appear to be valid, despite any identified limitations. There is confidence in the truth value of the results
- The study contributes meaningful evidence that can be used in nursing practice or that is useful to the nursing discipline.

Hours of Instructions: Theory: - 150 hours

Practical:- 650 hours

Total:- 800 hours

Course Description

The course is designed to assist students in developing expertise and in-depth understanding in the field of Community Health Nursing. It would help students to appreciate holistic life style of individuals, families & groups and develop skills to function as Community Health Nurse specialist/practitioner. It would further enable student to function as an educator, manager and researcher in the field of Community Health nursing.

Objectives

At the end of the course, the student will be able to:

1. Appreciate the history and development in the field of Community Health and Community Health Nursing.
2. Appreciate role of individuals and families in promoting health of the Community.
3. Perform physical, developmental and nutritional assessment of individuals, families and groups.
4. Apply the concepts of promotive, preventive, curative and rehabilitative aspects of health while providing care to the people.
5. Apply nursing process approach while providing care to individuals, families, groups and community.
6. Integrate the concepts of family centered nursing approach while providing care to the community.
7. Recognize and participate in the management of emergencies, epidemics and disasters.
8. Apply recent technologies and care modalities while delivering community health nursing care.
9. Appreciate legal and ethical issues pertaining to community health nursing care.
10. Conduct community health nursing care projects.
11. Participate in planning, implementation and evaluation of various national health and family welfare programmes at local, state and the national level.
12. Incorporate evidence based nursing practice and identify the areas of research in the community settings.
13. Participate effectively as a member of Community Health team.
14. Coordinate and collaborate with various agencies operating in the community by using inter-sectoral approach.
15. Teach community health nursing to undergraduates, in-service nurses and the community health workers.
16. Demonstrate leadership and managerial abilities in community health nursing practice

PRACTICAL

Total hours prescribed = 650

Sr.No.	Dept./Unit	No. of Week	Total Hours
1	Sub-Centre, PHC, CHC	12	360 Hours
2	District family welfare bureau	1	20 Hours
3	Urban centers	6	180 Hours
4	Field visits	3	90 Hours
	Total	22 Weeks	650 Hours

Student Activities

- Identification of community leaders and resource persons (community mapping)
- Community health survey
- Community health nursing process- individual, family and special groups and community
- Counseling
- Health education – campaign, exhibition, folk media, preparation of IEC materials
- Organising and participating in special clinics/camps and national health and welfare programmes-Organise atleast one health and family welfare mela /fair (all stalls of national health and family welfare activities should be included)
- Estimation of Vital health statistics -Exercise
- Drill for disaster preparedness
- Organise atleast one in-service education to ANM's/LHV/PHN/HW
- Nutrition – Exercise on nutritional assessment on dietary planning, demonstration and education for various age groups
- Filling up of Records, reports and registers maintained at SC/PHC/CHC
- Assist women in self breast examination
- Conduct antenatal examination
- Conduct vaginal examination
- Conduct deliveries
- Post natal visits
- Perform Episiotomy and suturing
- Prepare Pap smear
- Conduct Insertion/Removal of IUD
- Blood Slide preparation
- Field visits
- Maintenance of log book for various activities

Course Description

This course is designed to assist students to develop a broad understanding of Principles, concepts, trends and issues related to nursing management. Further, it would provide opportunity to students to understand, appreciate and acquire skills in planning, supervision and management of nursing services at different levels to provide quality nursing services.

Objectives

At the end of the course, students will be able to:

1. Describe the philosophy and objectives of the health care institutions at various levels.
2. Identify trends and issues in nursing
3. Discuss the public administration, health care administration vis a vis nursing administration
4. Describe the principles of administration applied to nursing
5. Explain the organization of health and nursing services at the various levels/institutions.
6. Collaborate and co-ordinate with various agencies by using multi-sectoral approach
7. Discuss the planning, supervision and management of nursing workforce for various health care settings.
8. Discuss various collaborative models between nursing education and nursing service to improve the quality of nursing care
9. Identify and analyse legal and ethical issues in nursing administration
10. Describe the process of quality assurance in nursing services.
11. Demonstrate leadership in nursing at various levels

ACTIVITIES :-

1. Prepare prototype personal files for staff nurses, faculty and cumulative records
2. Preparation of budget estimate, Revised estimate and performance budget
3. Plan and conduct staff development programme
4. Preparation of Organization Chart
5. Developing nursing standards/protocols for various units
6. Design a layout plan for speciality units /hospital, community and educational institutions
7. Preparation of job description of various categories of nursing personnel
8. Prepare a list of equipments and supplies for speciality units
9. Assess and prepare staffing requirement for hospitals, community and educational institutions
10. Plan of action for recruitment process
11. Prepare a vision and mission statement for hospital, community and educational institutions
12. Prepare a plan of action for performance appraisal
13. Identify the problems of the speciality units and develop plan of action by using problem solving approach
14. Plan a duty roster for speciality units/hospital, community and educational institutions
15. Prepare: anecdotes, incident reports, day and night reports, handing and taking over reports, enquiry reports, nurses notes, Official letters, curriculum vitae, presentations etc
16. Prepare a plan for disaster management
17. Group work
18. Field appraisal report
19. Supervision of subordinates / Students
20. Clinical teaching for staff and students
21. Assist for condemnation procedures
22. Preparation of advertisement

Course Description

This course is designed to assist students in developing expertise and in-depth understanding in the field of community health nursing. It will help students to develop advanced skills for nursing intervention in various aspects of community health care settings. It will enable the student to function as community health Nurse practitioner/specialist. It will further enable the student to function as educator, manager and researcher in the field of community health nursing.

Objectives

At the end of the course the students will be able to:

1. Appreciate trends and issues related to community health Nursing-reproductive and child health, school health, Occupational health, international health, rehabilitation, geriatric and mental health.
2. Apply epidemiological concepts and principles in community health nursing practice
3. Perform community health assessment and plan health programmes
4. Describe the various components of Reproductive and child health programme.
5. Demonstrate leadership abilities in organizing community health nursing services by using inter-sectoral approach.
6. Describe the role and responsibilities of community health nurse in various national health and family welfare programmes
7. Participate in the implementation of various national health and family welfare programme
8. Demonstrate competencies in providing family centered nursing care independently
9. Participate/Conduct research for new insights and innovative solutions to health problems
10. Teach and supervise nurses and allied health workers.
11. Design a layout of sub center/Primary health center/Community health centre and develop standards for community health nursing practice.

Practical

Total = 960 Hours

1 Week = 30 Hours

Sr.No.	Dept./Unit	No. of Week	Total Hours
1	Urban and Rural community	17	510 Hours
2	School Health	3	90 Hours
3	International health	2	60 Hours
4	Administration(SC/PHC/CHC)	2	60 Hours
5	Occupational health	2	60 Hours
6	Community Mental Health	2	60 Hours
7	Home for aged and Hospice	2	60 Hours
8	Rehabilitation	2	60 Hours
	Total	32 Weeks	960 Hours

Categorization of practical activities

Observed

- MCH office and DPHNO
- CHC/ First Referral Unit(FRU)
- Child guidance clinic
- Institute/Unit for mentally challenged
- District TB centre
- AIDS control society
- Filariasis clinic
- RCH clinic
- STD clinic
- Leprosy clinic
- Community based rehabilitation unit
- Cancer centers
- Palliative care
- Home of old age
- Mental health units
- De-addiction centres
- School health services
- Industry
- Selected industrial health centers
- ESI unit
- Municipality/ corporation office

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

Assisted

- Laparoscopic sterilization
 - Vasectomy
 - All clinics related to RCH
- Monitoring of national health and family welfare programmes

Performed

- Conduct various clinics
- School health assessment.
- Health survey.
- Health assessment
- Drug administration as per the protocols
- Treatment of minor ailments
- Investigating outbreak of epidemic.
- Screening for leprosy, TB and non-communicable disease
- Presumptive and radical treatment for Malaria.
- Counseling
- Report writing
- Referrals
- Writing a project proposal
- Material management- requisition for indent, condemnation, inventory maintenance,
- Training and Supervision of various categories of personnel
- Liaison with NGO's

QUESTION PAPER

Marks :- 75

Time :- 3 Hours

SECTION A

Marks 38

- Q.1) Write Short Answers on any 3 out of 4** **3 X 5 = 15 Marks**
- a. 5 Marks
 - b. 5 Marks
 - c. 5 Marks
 - d. 5 Marks
- Q.2) Long Answers Questions** **15 Marks**
- a. 2 Marks
 - b. 5 Marks
 - c. 8 Marks
- Q.3) Write explanatory notes on any 1 out of 3** **1 X 8 = 8 Marks**
- a.
 - a.
 - b.

SECTION B

Marks 37

- Q.1) Write Short Answers on any 3 out of 4** **3 X 5 = 15 Marks**
- a. 5 Marks
 - b. 5 Marks
 - c. 5 Marks
 - d. 5 Marks
- Q.2) Long Answers Questions** **15 Marks**
- a. 2 Marks
 - b. 5 Marks
 - c. 8 Marks
- Q.3) Write explanatory notes on any 1 out of 3** **1 X 7 = 7 Marks**
- a.
 - b.
 - c.
