Overall Band Score

Overall		6.5	Competent User	The test taker has an effective command of the language despite some inaccuracies, inappropriate usage and misunderstandings. They can use and understand fairly complex language, particularly in familiar situations.
Test	Score	Your result explained		
Listening	7.5	Test takers at Band 7.5 can typically follow extended speech and understand detailed instructions to complete tasks, including some involving complex ideas. They can identify ideas, attitudes, opinions or purposes which are implied by the speaker but not directly stated. They can easily understand meaning, including references within and between sentences, without having to process individual words and structures. They can understand a wide range of vocabulary, including some idiomatic, technical, and academic language, even when the language and ideas are complex.		
		Advice to improve your score Listen to current affairs and documentary programmes, or online talks, without pausing or repeating the recording. Try to remember as much as you can, including new words, main ideas, specific points, and their relationship to each other. Afterward, reconstruct what you've heard. How much are you able to reconstruct? Listen more and try to increase the amount that you can reconstruct. When speakers don't directly say what they mean, we use strategies to guess their meaning. What are some of these strategies that you use in your own language? Use the same strategies to understand them in English.		
Reading	6.0	Test takers at Band 6 can typically deal with a range of factual and opinion-based texts that may be relatively complex and dense with information. They are good at using their vocabulary knowledge to create meaning, both within and across sentences, on a range of general topics and some specialised ones. They can understand implied meanings, and have some ability to understand somewhat complex opinions and arguments. They can generally use reading strategies such as skimming and scanning, and can generally synthesize information and draw inferences.		
		Try to read different types of texts, including general and academic texts, and not just in your subject area. In general interest articles, the main point may come in a different place than you expect. In academic texts there will be fewer opinions, or they may be harder to spot. On the other hand, they can be dense with information. Be aware of the differences, and adjust the reading strategies you use depending on the text you're reading. Decide when to read carefully and when to read quickly. In any case, you may want to give yourself a set amount of time, so that even your careful reading is done more quickly and efficiently.		
Speaking	6.5	Test takers at this band can typically speak at length, although they are sometimes less clear or fluent because of repetition, self-correction, or hesitation to search for words or grammar. Speaking is generally well-organised, and ideas are generally well linked, but with some errors. They have enough vocabulary to discuss topics clearly and at length, although there are often errors, and they can usually paraphrase well. They can use simple and complex grammar structures but with limited range. There may be frequent grammar errors, particularly in more complex structures, but language is usually easy to understand. Pronunciation can be clear and effective, but there may be problems. They are usually easy to understand, although words may be unclear at times.		
		Talk to other English speakers about more abstract topics or more difficult current topics. Keep the discussion going for as long as possible. At the same time, try to express your ideas as accurately as you can, using the best words you know. Many of your ideas will also require the use of complex grammatical structures. If you're using several simple sentences, try to join them up in a way that makes your point clearer. Listen (and read) in English more to help you pick up natural and idiomatic phrases. When listening, note the rhythm and also the words that the speaker stresses. Is your rhythm similar? Are you putting the stress on the right words?		

Test takers at this band can typically address all parts of the question, some more fully than others. (AC) They can give an overview. (GT) The letter has a generally clear purpose; the tone is sometimes not consistent. Key features and bullet points are covered. The point of view and main ideas are relevant but the conclusion(s) may be unclear. Some details might be irrelevant or wrong. Test takers can arrange their ideas logically, so that the writing has a clear progression from start to finish. They are able to use some linking words well, but others with mistakes. They can paragraph their Task 2 writing, although not always logically. They have enough vocabulary to answer the question. They try to use some less common words. They make some spelling mistakes, but the reader can still understand. They can write a mix of simple and complex sentences. The grammar and punctuation mistakes do not usually cause difficulty for the reader.

Practice writing to give information and make arguments. Make sure you cover all the points that need to be covered, providing supporting ideas and details. Reread your work and see if you can make your points clearer. Is the ordering of your ideas logical? Sometimes, rearranging them can make things clearer. You can also try joining up or separating sentences, using the right connecting devices, and changing where you divide your paragraphs. Continue to develop your vocabulary. Words can be similar in meaning but differ in formality, in their tone, and in their implications. Focus on learning the best words to use for the writing task, the situation, and what you want to say. Challenge yourself by producing sentences that are more complex. If you make mistakes with them, don't worry too much; just check and see how you can fix them.

Dear Mr Rushabh Pravin Agrawal

Course: MSc Specialist Physiotherapy Practice
Month: January
Year: 2024

We are pleased to make you an unconditional offer of a place on the above course. Please note that this offer letter will expire on 7th November 2023. If you wish to accept this offer you must return the enclosed reply slip and pay the required deposit payment before that date. No student will be allowed to join the course after the start date without the agreement of the course leader.

ATTENDANCE MODE:	Full-Time
START DATE:	January 2024
END DATE:	June 2025
COURSE DURATION:	18 months
FEES FOR ACADEMIC YEAR 2023/4:	18 215 GBP
FEE DISCOUNT **::	2000 GBP
TOTAL FEE PAYABLE:	16 215 GBP

For fees purposes you have been classed as an international student and this status will usually stay with you for the duration of the course.

The tuition fee displayed above is for the full course. If the full course is more than one year in duration, the fee will be divided into annual payments which will then be rounded. This may mean the total fee you pay is slightly higher than the fee stated above. If you take a break in study or have to re-take part of the course, you may also be charged an additional fee and will be notified of this at the time.

Bursaries and Discounts

****We are pleased to inform you that as you are domiciled in a country eligible for a Vice Chancellors Award and are an International fee-paying applicant you are eligible to receive an automatic discount of 2,000 GBP off your course fee. Please note this discount will be deducted from the remaining fee payable after enrolment. You do not have to apply to receive this discount; however, you must meet the criteria and be self-financing. Please note the discount does not apply to sponsored students. For full terms and conditions please visit our website at <https://www.shu.ac.uk/international/fees-scholarships-and-discounts/scholarships-discounts-and-bursaries/automatic-discounts-and-bursaries>**

Bursaries and discounts are based on a student being eligible for one offer only. Students who may qualify for more than one bursary or discount, will be eligible to receive one. The highest bursary/discount would prevail. Please note this discount will be deducted from the remaining fee payable after enrolment.

This offer is only applicable to international fee-paying students who do not already have their fee discounted by another agreement, i.e corporate contract, partnership discount or government scholarship.

Fees and Funding

A deposit of 3000 GBP is required in order for you to secure a place on the programme and in order to assist us in our planning of student numbers and to issue your CAS. I enclose details of the methods by which payment of the deposit can be made.

As an international student, you must then pay an additional 5000 GBP as an initial pre-payment of your tuition fee before enrolment. After that the rest of your tuition fee shall be paid in full by you no later than the date specified by our Finance team in your invoice.

In addition to tuition fees you are advised to budget a minimum of 9207 GBP per year (or 1023 GBP per month) to cover accommodation and living expenses during your course, this only applies if you study full time. To arrange accommodation and for further information please contact the Accommodation Team on email accommodation@shu.ac.uk

The deposit will be deducted from your programme fee after invoicing has taken place. If you decide to cancel your place within fourteen calendar days of accepting this offer, then your deposit will be refunded in full. After that date and in any event after the start of the course, the deposit becomes non-refundable, and all or part of the deposit will be retained by us to cover the University's reasonable costs and losses. If you want to cancel your place please complete the statutory cancellation form which can be found at: <https://www.shu.ac.uk/study-here/terms-and-conditions-and-student-regulations>
