### **MGM 114 FELLOWSHIP IN Minimal Invasive Gynaecological Surgery**

#### **PROGRAMME OUTCOME**

The objective of this program is to provide the trainee with the knowledge and expertise to be successful in clinical, research, teaching and administrative activities in the field of Obstetrics and Minimal Invasive Gynaecological Surgery.

#### **COURSE OUTCOME**

CO1 Keyhole surgery has become a norm all around the world and specially so in the field of Gynaecological surgery. Adequate exposure to laparoscopic and hysteroscopic surgery is not possible during the post graduation. Therefore there is need for skill development course after post graduation.

CO2. The objective of the course is to provide a uniform training program for gynaecologists who have completed their residency and desire to acquire additional knowledge and surgical skills in minimally invasive gynaecologic surgery so they may serve as a scholarly and surgical resource for the community in which they practice; have the ability to care for patients with complex gynaecologic surgical disease via minimally invasive techniques; establish sites that will serve a leadership role in advanced endoscopic and reproductive surgery; and further research in minimally invasive gynaecologic surgery.

CO3. Levels of laparoscopic skills: Students should acquire at least level 2 skill before appearing for exams

## Laparoscopy

### *Level 1*

Diagnostic laparoscopy  
Tubal patency tests  
Sterilization

### *Level 2*

Minor adhesiolysis  
Ectopic pregnancy  
Mild endometriosis  
Cystectomy  
Salpingo-oophorectomy  
Tubectomy  
LAVH without significant associated pathology  
Sub-total hysterectomy without significant associated pathology

### *Level 3*

Myomectomy  
Major adhesiolysis with associated pathology  
Total laparoscopic hysterectomy  
Endometriosis (stage III and IV)  
Incontinence procedures  
Suspension procedures
