Value Added Course

COURSE IN EMOTIONAL INTELLIGENCE

Mahatma Gandhi Mission's
Medical College

Value Added Course
[Conducted by Dept of Psychiatry & OBGY]

Emotional Intelligence

Happiness through Enhanced Emotional Intelligence

Introduction:

Emotional intelligence (EQ/EI) is defined as an ability to identify, consider and control emotions in oneself and to recognize them in others, brought on by a combination of self awareness, self management, social awareness and relationship management.

Intelligent quotient (IQ) correlates with academic success but often fails to assure personal and professional success. EQ on other hand is a spastically significant factor in achieving personal and professional growth. While IQ is inborn god gift; EQ can be improved by learning strategies in areas of self awareness, social awareness and relationship management. Most of the professional courses including medical courses offer little to improve EQ of participants in this course.
Present value added course is designed to enable students/participants to lead a happy and fulfilling life by using strategies of EQ/EI.
