Respected sir,

With reference to letter no MGM/MED-C/2015/115 dated 20-1-15 a detail inquiry was carried out on 22.01.2015. The statement of complainant, accused and all related witnesses were obtained verbally in person and in writing.

The observations of committee are as follows -

1. The call for Doppler of lower limb was sent on 18.1.15 around 10.30 pm. It was attended by first year resident on duty of Radiology Deptt. However it was not done by either a 2nd year or 3rd year resident on call.
As stated by 1st year on call resident [Dr Pankaj Choudhary], he tried to call on call 2nd year [], who was not in campus.
3rd year resident on call duty [] did not attend call & didn't receive phone call from 1st year resident.
2. The on call 2nd year resident claims that he has seen images sent to him and dictated report to 1st year, however same [images] couldn't be produced by him during inquiry.
3. The same patient's Doppler, was done next day morning. When 3rd year resident asked explanation from 2nd year for not seeing patient and Doppler the day before in night he started arguing.
Although he states that there was no personal comments passed by him during conversation, the statements from other present in USG room that time do not corroborate same.
4. The other statements by few other junior residents of department of Radiology present during argument, did not reveal use of personal remarks during same, however members feel that they were under pressure and were not telling truth. This could be proved by fact that JR-I of other department present alongwith patient stated of heated argument between two and use of language by [] which would offend female &/or her relative.
5. While interrogating, [] confirmed that [] is very insincere in duties and arrogant in his behavior. This was also stated by all other third year residents.
6. On same day [] had a argument with another third year resident & used unparliamantry language during conversation
7. On same day [] had a argument with another third year resident & used unparliamantry language during conversation

as observed by committee during interrogation that Dr. Rajiv had been doing activities in department which are highly objectionable (taking picture of attendance muster, clicking picture of female resident in sonography room without knowledge of the person.)

Recommendations by committee

- All sonography (routine/emergency) should be done by 2nd / 3rd year residents and report should be duly signed, rather than merely writing names
- Committee found Dr. _____ guilty of using abusive language and personal remarks. He also found to be guilty for taking picture of register and residents in USG room. He is being insincere in his work & reports late for duties.
- He is liable of disciplinary action as deemed by rules / regulation of University. He should be suspended for 4 weeks.
- _____ did not attend call in night and should be given extra on call duties for 2 weeks.
- If both complainant & defendant agree for mutual agreement & settlement, committee accepts it, however it should be done with permission & in presence of parents/ guardian of both sides.

As I have experience of staying in a co-education boarding school. The environment I've been exposed to has made me a quality leader for the class in academic as well as sports co-curricular activities & I guess the students be it girl or a boy liked to work under my leadership. I believe I might be able to communicate the gap between girls & boys, women & men in my colleges as well as all the places I will visit throughout my life & bridge the gap between which discriminate both the genders.

1st November,
2018

I am a student of 2nd year MBBS, residing in hostel. On that very day Me and some of my friends approached to the seniors ~~for~~ to get me a mattress. So, the seniors told me about a store in Kalamoli where I can get that. As a result I asked them for their scooter key. And without any hesitation they gave the key to me. After that me and one of my friend Sourav ~~hard~~ driven it to the store and brought the mattress. So, at the end of the story there was no scene of ragging by the seniors. And I did not, do not have any complaint of ragging.

The committee asked me about Achint who was my roommate in first year MBBS. And he mentioned me about his lack of interest in medicine and he wanted to pursue higher education on literature. And because of this ~~his~~ ~~there was mental~~ he had experienced some mental imbalance; most probably I would say he was in depression.

I Taranpreet Singh, Student of 3rd sem would like to elaborate the incident which took place last year. Me, Samabh Kumar, Arkaprava Roy chandhary and adhwint at around 8-9:30 pm, met our seniors near hostel lift because arka needed mattress.

As soon as we met those seniors, our hostel guard saw and told them not to talk to the seniors, then the guard said us to go to the room. I Taranpreet would like to confirm that there was no case of vagging. It was just a minor misunderstanding by the guard.

To,

The Anti Ragging Committee

MGM Medical college

Navi Mumbai

Last year me along with my few friends returning from dinner, we enquired our seniors regarding the mattress. He told me about a store in Kalamboli where we could get. So, my friend Arka requested one of the senior for scooter so that we can get the mattress. After that we went to get the mattress and ~~then~~ returned the keys. During there guard saw ~~a~~ us and told them not to communicate with the juniors. There wasn't any case of ragging from any of the seniors. It was totally a misunderstanding ~~between~~ of the guard.

Yours sincere

The complainant Mr. Dharmesh Kumar Saini (Father) & Mr. Ankit Saini (1st MBBS student of 2017-18 Batch) were called for the meeting vide letter no. MGM/MED-C/2018/2575 dated 02/11/2018 (letter sent by speed post) and by email to be present on 26/11/2018 at ARC meeting to hear his complaint of ragging. In spite of giving sufficient time, they were not present for the meeting. Mr. Dharmesh Kumar Saini the father of Mr. Ankit Saini has addressed a letter dated 20.11.2018 to the Dean, MGM Medical College (also Chairman of the ARC), wherein he raised various incorrect, false, untenable and baseless issues. By the said letter various questions were raised (without gathering the correct information and facts) including regarding the independence of the

ARC. In the letter the father has stated “.... Till the time there are no independent members in the panel, I believe there will be not be a fair hearing and it will not serve any purpose”. On considering the letter, the ARC was of the opinion that the composition of the ARC (independent members in the ARC) be informed to the complainant and he be given one more chance to appear before the ARC.

In view of the aforesaid matter the committee directs as under:-

- (i) The complainant and his father be informed that the committee is constituted as per the statutory requirements and guidelines of the UGC and consist of independent persons such as representatives of NGO, Student representatives , representatives from Civil Administration , representatives of Police Administration , Journalist and representative of parents.
- (ii) The Complainant and his father be directed to attend the next hearing scheduled on 07th December 2018, so as to enable them to present their case.
- (iii) The Complainant be informed that this will be the last opportunity given to the complainant and his father to appear before the committee
- (iv) The Complainant Dr Dharmesh Saini & Mr Achint Saini be informed accordingly.

Subject-Regarding Complaint of Ragging against MGM Institute, Navi Mumbai

Dear Sir,

I'm in receipt of your email dated..3/11/18....whereby you have stated that the hearing before the anti Ragging Committee has been postponed to 26th November 2018 due to not attending the proceedings by my son and us. However, you have not mentioned or acknowledged the reply given to your previous email by me on dated 1/11/18.

Being father of Achint, I am worried about his health and the adverse impact which can be caused to his mental health by visiting the same place which has caused the entire problem in first place and have even refused to acknowledge the same till today. It is pertinent to mention here that my son is still undergoing treatment of the impact caused to his mental health due to inhuman behaviour and torture meted out to him during his short stay at your institute.

I am also failed to understand that how this hearing by your institute's anti- ragging committee will be of any use considering you have already categorically denied officially that no ragging or harassment whatsoever has taken place in your institute in reply to the legal notice sent by my counsel. Had we not been in possession of the documents to show that ragging had taken place and written complaint was made by my son of the same and pursuant of the same, you have even initiated inquiry that time and even issued notice to my son to participate in the inquiry.

Now since your falsehood has been caught red handed, I feel this is an attempt to defuse the same. Till the time there are no independent members in the panel, I believe there will not be a fair hearing and it will not serve any purpose as the official stand of the institute is already clear and in view of the official stand, it is very unlikely the panel constituted by the institute will take any action against the interest of the Institute. It is therefore, I again request you to handover this process to some independent panel which has no concern with the MGM Institute, if you are serious about the important issues like ragging which have not only ruined the life of my son but also many other innocent students lives have been destroyed due to this menace.

Once my concerns will be addressed in any satisfactory way, than only I will be able to make decision to come for any such hearing. Otherwise I will be constrained to look for my other legal remedies and shall not hesitate in adopting any such course which is

necessary to take this issue to logical conclusion till the time justice is not given to my son.

Awaiting your reply.

The Chairman of the ARC (Dean of Medical College) once again reiterated the fact that the complaint was received from the ARC Help line on 18.10.2018 and the present ARC is enquiring into the said complaint. The Chairman also reiterated and informed of the events and proceedings of the committee hearings held on 1.11.2018 and 26.11.2018. He further stated as under:-

- (i) The ARC composition and rules has been made in a very transparent manner and as per the guidelines and requirements of the UGC. The ARC is constituted as per the statutory requirements and guidelines of the UGC and consist of independent persons such as representatives of NGO, student representatives , representatives from Civil Administration , representatives of Police Administration , Journalist and representative of parents.
- (ii) If any student is having any complaint he/she can directly approach their teacher, the ARC, the Dean, the ARC Helpline, the details of which are displayed in a form of a Notice/flex in all common places in campus like hostel, canteen, Mess Hall, Lecture Halls etc. The officers/staff of MGM are available for 24 hours emergency for all the problems of the hostel & the college.

- (iii) MGM as an institute strictly follows the rules and regulations laid down by the authorities/government, the anti- ragging policy. MGM has established an Anti Ragging Committee (ARC), which consist of independent members, is functional and ensures that the anti ragging policy is strictly implemented. MGM has set up anti-ragging flying squad conduct surprise visits at the hostels and the college premises.
- (iv) The names and contact details of the members of the said ARC are put up as an independent Notice (the board is permanently fixed) at a conspicuous place in the institutes premises.
- (v) Mr Achint Saini had visited the psychiatry department of the MGM Hospital on 14.9.2017 and was admitted in the MGM Hospital's psychiatry department under Dr. Rakesh Ghildiyal. At the time of admission Achint Saini complained of sadness of mood, hearing of voices inaudible to others, suspiciousness, fearfulness and depression. He informed the doctor that he was suffering from depression since the past 1 year and consulting a psychiatrist, had being taking treatment at Chandigrah.
- (vi) According to Dr. Rakesh Ghildiyal he was diagnosed for depression and psychotic features.
- (vii) Mr Dharmesh Saini on being informed had come to Mumbai and taken Mr Achint Saini back to the home state Haryana for treatment. An application seeking leave was made to the Dean on 15.9.2017. No complaint of ragging was made to the Dean.
- (viii) On 24.10.2017 Mr Achint Saini and his father again visited the MGM Medical College Hospital's psychiatry department for follow up treatment. At that time Mr Achint Saini gave history of depression symptoms and hearing voices, reduced sleep etc. After examination, he was advised to attend classes/college and a relative was advised to stay with the patient. On this occasion also no complaint of ragging was made to the Doctor.

- (ix) After the said follow up treatment, Mr Achint Saini did not visit the hospital for follow up treatment. Infact contrary to the advice he did not attend classes. After 24.10.2017, there was no contact or follow done by Mr Achint Saini.
- (x) On 15.9.2017, Mr Dharmesh Saini vide a written application dated 15.9.2017 addressed to the Dean of the Medical College sought medical leave. The leave was requested as the father wanted to take Mr Achint Siani for medical treatment. The father undertook to keep the college authorities informed/updated regarding the treatment and assured that Achint Saini would attend classes and try to make up for period which would be lost for the treatment. The Hostel bed/room was retained by the father.
- (xi) At no time did Mr Dharmesh Saini or Mr Achint Saini on 15.9.2017 or 24.10.2017 complain of any ragging or improper behavior nor make any complaint to anybody in respect of the alleged ragging. No reference was made by the father or the student in respect of the complaint made allegedly on 11.9.2017. On the contrary the father had taken away his son after taking medical leave for medical treatment. Again when Mr Dharmesh Saini and Achint Saini visited the hospital and consulted the doctor on 24.10.2017 also no complaint was made. They were in fact advised by the doctor that Mr Achint Saini should attend the classes and that a relative stays with him. The said advice was not to followed, action was taken contrary to the advise. Even at that time no complaint was made regarding ragging nor was it sighted as a reason to not attend classes.
- (xii) After 24.10.2017, the father/complainant nor Mr Achint Saini contacted the dean or any other officer of the Medical College. No classes were attended and the hostel space/bed allotted to Mr Achint Saini was kept occupied and earmarked.
- (xiii) After more than four months a letter dated 9.1.2018 (received by MGM on 15.1.2018) was received wherein the complainant for the first time raised the issue of ragging. The letter was replied to.
- (xiv) As regards the complaint of September 2017 in respect of which an enquiry was done, it was informed that the same was made to the Hostel Warden/ Committee and not to the ARC. The same was dealt with by a Committee

constituted for that purposes. The said complaint was based on some misunderstanding and miscommunication by and between the students. The students (including Anchit Saini) had given statements stating that there was no ragging.

- (xv) No complaint was ever made to the ARC nor were any of the members of the ARC contacted.

The Chairman of the ARC then requested Mr Dharmesh Saini/ Dr. Anjali Saini/ Advocate Shri Jaljaveer to make their submissions. Mr Dharmesh Saini/ Dr. Anjali Saini/ Advocate Shri Jaljaveer made the following joint submissions:

- (i) Mr. Achint Saini was taken away by the father on 15.09.2017 as he was not well at that time and was under treatment. Mr Dharmesh Saini stated that Achint had given a complaint and notice was issued, which showed that ragging had taken place.

Reply: As per the security round report, the said complaint given to the Hostel Warden was investigated by the local committee by calling each of the students both Junior students and the Senior Students. They were called by the warden of the Boys Hostel. An interaction took place with all concerned and the students individually. The students (including Mr Achint Saini) gave statements that the complaint was made due to the misunderstanding and miscommunication. None of the students had any further complaints or issues. Based on the interaction and statements the committee has concluded that there was no ragging and that the complaint was submitted at the behest of the security supervisor. Further as stated hereinabove, there was no complaint made by the student to the ARC or the Dean nor were the parents (as admitted by the parents before the ARC) ever informed by the student of any ragging or any other issues which the student was allegedly facing. The parents specifically admitted before the committee that the student at no point in time ever complained to them or even made any complaint regarding any other issues and that he was being treated for depression. Further only by the act of issuing a notice of hearing or enquiry, it can never be concluded or even contended that ragging has taken place.

- (ii) Such incidence should not happen with other students etc

Reply: As stated hereinabove MGM strictly follows the anti ragging policy. As a preventive measure minimum or zero interaction is kept between the junior and senior students for the initial month. This is precautionary measure. All details and contact numbers regarding the ARC and its members are listed on the board which are put up at various locations in the college. MGM has zero tolerance for ragging. The Institute regularly holds lectures, counseling sessions on anti ragging where the anti ragging policy, the laws and the implications of ragging that may be visited on the concerned are discussed and informed to the students.

Further at the ARC meeting, Dr. Ghildiyal, Prof. & HoD Psychiatry told the committee and reiterated the information he had given the ARC on 1.11.2018. He reiterated that Mr Achint Saini had come to the psychiatrist ward for treatment. He had stated that he was feeling depressed etc. At the time of treatment there was no complaint made regarding ragging. As he had stated that he is feeling depressed, 2 SRs were kept to look after Mr Achint Saini till his father/ complainant arrived from his hometown/state. Mr Achint Saini had complained of depression before he joined the course and that he was undergoing treatment for the same from Sept 2016. The case papers were shown at the hearing.

Further, the 1st MBBS Counsellor Dr Lalita Chavan (teacher of 1st year MBBS) has told the committee that Mr Achint Saini had informed her that he was undergoing depression earlier due to certain family problems etc. He had also informed her that he did not want to join medical college. She also informed that after Mr Achint Saini had left for his home town she made attempts (for 2 consecutive days) to contact Achint and his father on their respective mobile numbers to enquire about the well being of Mr Achint Saini, the said calls were not received or even responded to.

Mr. Ravi Autade, Journalist (Independent member) after hearing the submissions and counter submissions stated that after hearing the parties and after considering the medical history, the medical papers, at the first instance the priority of the parents should be to ensure that the student gets proper health care and medical treatment after which he can pursue the academic career. At this point the Registrar of the MGMIHS (a special invitee) stated that the MBBS seat of Mr Achint Saini is allotted to and earmarked for him. He further stated that the student can rejoin the course after completing the treatment or as advised by the concerned doctors. Further the Registrar also suggested that subject to approval of the MCI and other statutory bodies, management if the parents/student so desire an application can be made to transfer the student to the Aurangabad campus of MGM and he can continue the course at Aurangabad. The Registrar reiterated that the same will only subject to the approval of the MCI and other required authorities.

Further on being specifically questioned by the Registrar, that was any call made by the student to the parents during the period of his stay at Navi Mumbai, both the parents stated that Mr Achint Saini had not called them at all nor made any complaint on the issue of ragging or any other issue.

At the request of the parents the luggage of the student (01 bag with all his materials) which was in the Hostel was returned and the hostel accommodation was vacated.

Further, the ARC also informed the parents that one of the students has informed the ARC at the time of interaction that Mr Achint Saini has joined a course of Literature and is pursuing the same. A confirmation was sought from the parents. The parents did not reply to the same.

The ARC then enquired if the parents any further submissions to make. The parents in reply requested for refund of the entire fees and certificates. The ARC informed the parents that the ARC deals only with the complaints made regarding ragging. As regards the refund of fees, allotment of the MBBS seat and return of certificates the same is beyond its jurisdiction and independent application could be made which will be decided by the concerned competent authority as per the applicable rules and regulations.

Findings of the ARC:

- (i) The Institute strictly follows the rules and regulations laid down by the authorities/government, the anti-ragging policy and established an Anti Ragging Committee (ARC), which consist of independent members, is functional and ensures that the anti ragging policy is strictly implemented. The names and contact details of the members of the said ARC are put up as an independent Notice (the board is permanently fixed) at a conspicuous place in the institutes premises. The contact details are freely available and complaints can be made.
- (ii) From the medical case papers of Mr Achint Saini, it is evident that he complained of sadness of mood, hearing of voices inaudible to others, suspiciousness, fearfulness and depression. He further told the doctor that he was suffering from depression since the past 1 year and consulting a psychiatrist, had being taking treatment at Chandigarh. He was diagnosed for depression and psychotic features. The medical history is given by Mr Achint Saini himself.
- (iii) Further, it has been revealed from the enquiry that Mr Achint Saini did not want to pursue studies in the medical field. This could a major reason for the depression and sadness of mood. Also the

fact that Mr Achint Saini is now doing a course in literature (as is updated on his facebook account) cannot be ignored.

- (iv) As regards the September 2017 complaint, as the same was not made to the ARC, an independent committee was set up which investigated in the matter. The said committee had concluded that there was no ragging. Independent of the said report or the findings contained therein, this ARC has independently enquired into the matter.
- (v) The papers and documents reveal that at any given time i.e on 15.09.2017 or 24.10.2017 did the father of student complain of the alleged ragging. On being asked if the student had informed them of the alleged ragging or any other issue, both the parents replied that there was no complaint or information given to them when the student was residing at the campus.
- (vi) Further the student himself when he went for seeking treatment did not inform the concerned doctor of the alleged ragging or any issues with the senior students. Nor did the student tell Dr Lalita Chavan. There is no complaint from the student. The student had ample opportunity to confide in independent third parties, but the same was not done. From the said conduct of the student, it is clear that no incident of ragging had taken place.
- (vii) Even on 24.10.2017, when Mr Achint Saini and his father again visited the MGM Medical College Hospital's psychiatry department for follow up treatment no complaint was made. It is pertinent to note that that time the student had infact stayed with his parents at his home. Even in such circumstances the student did not complain of the alleged ragging. Even at that time the student only

gave history of depression symptoms and hearing voices, reduced sleep etc. No ragging complaint was made nor was it stated to the Doctor that the said condition was due to the alleged ragging.

- (viii) Further on 24.10.2018 the student was advised to attend classes/college and a relative was advised to stay with the patient. The student and parents acted contrary to the advise. The very fact that the parents again had brought the student to the MGM Hospital for follow up treatment from his home town, this itself demonstrates that there was no case of ragging. This finding is further fortified by the fact that even on 24.10.2018 nor the father nor the student complained of ragging. It pertinent to note that Mr Achint Saini told Dr Lalita Chavan that he was not interested in pursuing studies in the medical field.
- (ix) The ARC also noted that when Dr Lalita Chavan made attempts to contact the parents and the student to enquire about the well being of the student, the said calls were not received nor was there any reply. After the said follow up treatment, Mr Achint Saini did not visit / return call. In case if there was really any complaint of ragging the parents had one more chance to make the grievance to the staff/faulty of the college, who in turn could have informed the ARC members. No such action was taken by the parents. After 24.10.2017, there was no contact or follow done by the parents or the student till the letter of January 2018. This conduct itself raises a doubt on the entire episode/ alleged ragging complaint now made. Further now that the student has joined a course in literature (as is evident from his facebook account) it appears that the student does not want to pursue the medical field

but was forced to do so and now after he has refused the issue of ragging has been raised to seek a refund of fees.

- (x) In fact the parents have acted contrary to the conduct of a normal and prudent person. Even when the father Mr Dharmesh Saini gave a written application dated 15.9.2017 to the Dean of the Medical College and sought medical leave, no ragging complaint or any other complaint was made. The leave was requested for medical treatment. The father undertook to keep the college authorities informed/updated regarding the treatment and assured that Mr Achint Saini would attend classes and try to make up for period which would be lost for the treatment. The Hostel bed was also retained by the father. This conduct belies the entire case and allegation of ragging.
- (xi) After more than four months a letter dated 9.1.2018 received by the Institute was received wherein the father of Mr Achint Saini for the first time raised the issue of ragging. On a perusal of the said letter it is observed by the ARC that the said allegation is general in nature and no particulars have been given. The notice of enquiry which the complaint now produces and on which basis he claims that there was ragging was not even referred to in the said letter. Furthermore the same is only the initial notice of enquiry. A notice of enquiry can never imply that ragging has taken place. The said contention of the complainant to say the least is totally misplaced and unacceptable. Further as stated hereinabove this conduct of the parents also proves that the parents were already aware of the outcome of the enquiry conducted and its outcome from September 2017. It seems that the complainant has

attempted to take advantage of the confusion in respect of the complaint filed with the Hostel warden and a complaint to ARC.

- (xii) As regards the complaint of September 2017 in respect of which an enquiry was done, we find that the same was a complaint to the hostel warden. From the enquiry it is clear that the said complaint was made due to some misunderstanding and or miscommunication between the concerned persons. Further independently of the said enquiry and the report, this ARC has enquired into the matter, taken statements of the students and faculty, perused the medical case papers and come to the conclusion that there was no ragging. The fact remains that no complaint was ever made by the student or the parents to the ARC nor were any of the members of the ARC contacted inspite of the fact that their contact details are freely and openly available.

Conclusions of the investigations

In view of the aforesaid findings, the Anti Ragging Committee is of the considered opinion that no ragging has taken place. The complaint forwarded by the Anti Ragging Help Line vide no. ARCC/MH-4947, dated 18th October 2018, is disposed off accordingly. The ARC Helpline be informed.

He further informed the ARC that being the Chairman of the said Committee he had interacted with the students and also requested the students to state the contents of the interaction and correct facts in a hand written statement. He further informed the ARC that after completing the enquiry it was clear that no incidence of ragging had taken place and that the entire issue had arisen due to certain misunderstanding and or miscommunication between the concerned persons.

Dr. Rakesh Ghildiyal, HoD Psychiatry, MGM Hospital informed the ARC that Mr Achint Saini had visited the psychiatry department of the MGM Hospital on 14.9.2017 and was admitted in the Mahatma Gandhi Mission Hospital's psychiatry department under him. I am a student of 2nd year MBBS, residing in hostel. On that very day Me and some of my friends approached to the seniors ~~for~~ to get me a mattress. So, the seniors told me about a store in Kalamoli where I can get that. As a result I asked them for their scooter key. And without any hesitation they gave the key to me. After that me and one of my friend Sourav ~~hard~~ driven it to the store and brought the mattress. So, at the end of the story there was no scene of ragging by the seniors. And I did not, donot have any complaint of ragging.

The committee asked me about Achint who was my roommate in first year MBBS. And he mentioned me about his lack of interest in medicine and he wanted to pursue higher education on literature. And because of this ~~his~~ ~~there was mental~~ he had experienced some mental imbalance; most probably I would say he was in depression.

As soon as we met those seniors, our hostel guard saw and told them not to talk to the seniors, then the guard said us to go to the room. I Taranpreet would like to confirm that there was no case of vagging. It was just a minor misunderstanding by the guard.

Last year me along with my few friends returning from dinner, we enquired our seniors regarding the mattress. He told me about a store in Kalamboli where we could get. So, my friend Arka requested one of the senior for scooter so that we can get the mattress. After that we went to get the mattress and ~~then~~ returned the keys. During there guard saw us and told them not to communicate with the juniors. There wasn't any case of ragging from any of the seniors. It was totally a misunderstanding ~~between~~ of the guard.

The complainant Mr. Dharmesh Kumar Saini (Father) & Mr. Ankit Saini (1st MBBS student of 2017-18 Batch) were called for the meeting vide letter no. MGM/MED-C/2018/2575 dated 02/11/2018 (letter sent by speed post) and by email to be present on 26/11/2018 at ARC meeting to hear his complaint of ragging. In spite of giving sufficient time, they were not present for the meeting. Mr. Dharmesh Kumar Saini the father of Mr. Ankit Saini has addressed a letter dated 20.11.2018 to the Dean, MGM Medical College (also Chairman of the ARC), wherein he raised various incorrect, false, untenable and baseless issues. By the said letter various questions were raised (without gathering the correct information and facts) including regarding the independence of the

ARC. In the letter the father has stated “.... Till the time there are no independent members in the panel, I believe there will be not be a fair hearing and it will not serve any purpose”. On considering the letter, the ARC was of the opinion that the composition of the ARC (independent members in the ARC) be informed to the complainant and he be given one more chance to appear before the ARC.

In view of the aforesaid matter the committee directs as under:-

- (i) The complainant and his father be informed that the committee is constituted as per the statutory requirements and guidelines of the UGC and consist of independent persons such as representatives of NGO, Student representatives , representatives from Civil Administration , representatives of Police Administration , Journalist and representative of parents.
- (ii) The Complainant and his father be directed to attend the next hearing scheduled on 07th December 2018, so as to enable them to present their case.
- (iii) The Complainant be informed that this will be the last opportunity given to the complainant and his father to appear before the committee
- (iv) The Complainant Dr Dharmesh Saini & Mr Achint Saini be informed accordingly.

Subject-Regarding Complaint of Ragging against MGM Institute, Navi Mumbai

Dear Sir,

I'm in receipt of your email dated..3/11/18....whereby you have stated that the hearing before the anti Ragging Committee has been postponed to 26th November 2018 due to not attending the proceedings by my son and us. However, you have not mentioned or acknowledged the reply given to your previous email by me on dated 1/11/18.

Being father of Achint, I am worried about his health and the adverse impact which can be caused to his mental health by visiting the same place which has caused the entire problem in first place and have even refused to acknowledge the same till today. It is pertinent to mention here that my son is still undergoing treatment of the impact caused to his mental health due to inhuman behaviour and torture meted out to him during his short stay at your institute.

I am also failed to understand that how this hearing by your institute's anti- ragging committee will be of any use considering you have already categorically denied officially that no ragging or harassment whatsoever has taken place in your institute in reply to the legal notice sent by my counsel. Had we not been in possession of the documents to show that ragging had taken place and written complaint was made by my son of the same and pursuant of the same, you have even initiated inquiry that time and even issued notice to my son to participate in the inquiry.

Now since your falsehood has been caught red handed, I feel this is an attempt to defuse the same. Till the time there are no independent members in the panel, I believe there will not be a fair hearing and it will not serve any purpose as the official stand of the institute is already clear and in view of the official stand, it is very unlikely the panel constituted by the institute will take any action against the interest of the Institute. It is therefore, I again request you to handover this process to some independent panel which has no concern with the MGM Institute, if you are serious about the important issues like ragging which have not only ruined the life of my son but also many other innocent students lives have been destroyed due to this menace.

Once my concerns will be addressed in any satisfactory way, than only I will be able to make decision to come for any such hearing. Otherwise I will be constrained to look for my other legal remedies and shall not hesitate in adopting any such course which is

necessary to take this issue to logical conclusion till the time justice is not given to my son.

Awaiting your reply.

- (x) On 15.9.2017, Mr Dharmesh Saini vide a written application dated 15.9.2017 addressed to the Dean of the Medical College sought medical leave. The leave was requested as the father wanted to take Mr Achint Siani for medical treatment. The father undertook to keep the college authorities informed/updated regarding the treatment and assured that Achint Saini would attend classes and try to make up for period which would be lost for the treatment. The Hostel bed/room was retained by the father.
- (xi) At no time did Mr Dharmesh Saini or Mr Achint Saini on 15.9.2017 or 24.10.2017 complain of any ragging or improper behavior nor make any complaint to anybody in respect of the alleged ragging. No reference was made by the father or the student in respect of the complaint made allegedly on 11.9.2017. On the contrary the father had taken away his son after taking medical leave for medical treatment. Again when Mr Dharmesh Saini and Achint Saini visited the hospital and consulted the doctor on 24.10.2017 also no complaint was made. They were in fact advised by the doctor that Mr Achint Saini should attend the classes and that a relative stays with him. The said advice was not to followed, action was taken contrary to the advise. Even at that time no complaint was made regarding ragging nor was it sighted as a reason to not attend classes.
- (xii) After 24.10.2017, the father/complainant nor Mr Achint Saini contacted the dean or any other officer of the Medical College. No classes were attended and the hostel space/bed allotted to Mr Achint Saini was kept occupied and earmarked.
- (xiii) After more than four months a letter dated 9.1.2018 (received by MGM on 15.1.2018) was received wherein the complainant for the first time raised the issue of ragging. The letter was replied to.
- (xiv) As regards the complaint of September 2017 in respect of which an enquiry was done, it was informed that the same was made to the Hostel Warden/ Committee and not to the ARC. The same was dealt with by a Committee

constituted for that purposes. The said complaint was based on some misunderstanding and miscommunication by and between the students. The students (including Anchit Saini) had given statements stating that there was no ragging.

- (xv) No complaint was ever made to the ARC nor were any of the members of the ARC contacted.

The Chairman of the ARC then requested Mr Dharmesh Saini/ Dr. Anjali Saini/ Advocate Shri Jaljaveer to make their submissions. Mr Dharmesh Saini/ Dr. Anjali Saini/ Advocate Shri Jaljaveer made the following joint submissions:

- (i) Mr. Achint Saini was taken away by the father on 15.09.2017 as he was not well at that time and was under treatment. Mr Dharmesh Saini stated that Achint had given a complaint and notice was issued, which showed that ragging had taken place.

Reply: As per the security round report, the said complaint given to the Hostel Warden was investigated by the local committee by calling each of the students both Junior students and the Senior Students. They were called by the warden of the Boys Hostel. An interaction took place with all concerned and the students individually. The students (including Mr Achint Saini) gave statements that the complaint was made due to the misunderstanding and miscommunication. None of the students had any further complaints or issues. Based on the interaction and statements the committee has concluded that there was no ragging and that the complaint was submitted at the behest of the security supervisor. Further as stated hereinabove, there was no complaint made by the student to the ARC or the Dean nor were the parents (as admitted by the parents before the ARC) ever informed by the student of any ragging or any other issues which the student was allegedly facing. The parents specifically admitted before the committee that the student at no point in time ever complained to them or even made any complaint regarding any other issues and that he was being treated for depression. Further only by the act of issuing a notice of hearing or enquiry, it can never be concluded or even contended that ragging has taken place.

- (ii) Such incidence should not happen with other students etc

Reply: As stated hereinabove MGM strictly follows the anti ragging policy. As a preventive measure minimum or zero interaction is kept between the junior and senior students for the initial month. This is precautionary measure. All details and contact numbers regarding the ARC and its members are listed on the board which are put up at various locations in the college. MGM has zero tolerance for ragging. The Institute regularly holds lectures, counseling sessions on anti ragging where the anti ragging policy, the laws and the implications of ragging that may be visited on the concerned are discussed and informed to the students.

Further at the ARC meeting, Dr. Ghildiyal, Prof. & HoD Psychiatry told the committee and reiterated the information he had given the ARC on 1.11.2018. He reiterated that Mr Achint Saini had come to the psychiatrist ward for treatment. He had stated that he was feeling depressed etc. At the time of treatment there was no complaint made regarding ragging. As he had stated that he is feeling depressed, 2 SRs were kept to look after Mr Achint Saini till his father/ complainant arrived from his hometown/state. Mr Achint Saini had complained of depression before he joined the course and that he was undergoing treatment for the same from Sept 2016. The case papers were shown at the hearing.

Further, the 1st MBBS Counsellor Dr Lalita Chavan (teacher of 1st year MBBS) has told the committee that Mr Achint Saini had informed her that he was undergoing depression earlier due to certain family problems etc. He had also informed her that he did not want to join medical college. She also informed that after Mr Achint Saini had left for his home town she made attempts (for 2 consecutive days) to contact Achint and his father on their respective mobile numbers to enquire about the well being of Mr Achint Saini, the said calls were not received or even responded to.

Mr. Ravi Autade, Journalist (Independent member) after hearing the submissions and counter submissions stated that after hearing the parties and after considering the medical history, the medical papers, at the first instance the priority of the parents should be to ensure that the student gets proper health care and medical treatment after which he can pursue the academic career. At this point the Registrar of the MGMIHS (a special invitee) stated that the MBBS seat of Mr Achint Saini is allotted to and earmarked for him. He further stated that the student can rejoin the course after completing the treatment or as advised by the concerned doctors. Further the Registrar also suggested that subject to approval of the MCI and other statutory bodies, management if the parents/student so desire an application can be made to transfer the student to the Aurangabad campus of MGM and he can continue the course at Aurangabad. The Registrar reiterated that the same will only subject to the approval of the MCI and other required authorities.

Further on being specifically questioned by the Registrar, that was any call made by the student to the parents during the period of his stay at Navi Mumbai, both the parents stated that Mr Achint Saini had not called them at all nor made any complaint on the issue of ragging or any other issue.

At the request of the parents the luggage of the student (01 bag with all his materials) which was in the Hostel was returned and the hostel accommodation was vacated.

Further, the ARC also informed the parents that one of the students has informed the ARC at the time of interaction that Mr Achint Saini has joined a course of Literature and is pursuing the same. A confirmation was sought from the parents. The parents did not reply to the same.

The ARC then enquired if the parents any further submissions to make. The parents in reply requested for refund of the entire fees and certificates. The ARC informed the parents that the ARC deals only with the complaints made regarding ragging. As regards the refund of fees, allotment of the MBBS seat and return of certificates the same is beyond its jurisdiction and independent application could be made which will be decided by the concerned competent authority as per the applicable rules and regulations.

Findings of the ARC:

- (i) The Institute strictly follows the rules and regulations laid down by the authorities/government, the anti-ragging policy and established an Anti Ragging Committee (ARC), which consist of independent members, is functional and ensures that the anti ragging policy is strictly implemented. The names and contact details of the members of the said ARC are put up as an independent Notice (the board is permanently fixed) at a conspicuous place in the institutes premises. The contact details are freely available and complaints can be made.
- (ii) From the medical case papers of Mr Achint Saini, it is evident that he complained of sadness of mood, hearing of voices inaudible to others, suspiciousness, fearfulness and depression. He further told the doctor that he was suffering from depression since the past 1 year and consulting a psychiatrist, had being taking treatment at Chandigarh. He was diagnosed for depression and psychotic features. The medical history is given by Mr Achint Saini himself.
- (iii) Further, it has been revealed from the enquiry that Mr Achint Saini did not want to pursue studies in the medical field. This could a major reason for the depression and sadness of mood. Also the

fact that Mr Achint Saini is now doing a course in literature (as is updated on his facebook account) cannot be ignored.

- (iv) As regards the September 2017 complaint, as the same was not made to the ARC, an independent committee was set up which investigated in the matter. The said committee had concluded that there was no ragging. Independent of the said report or the findings contained therein, this ARC has independently enquired into the matter.
- (v) The papers and documents reveal that at any given time i.e on 15.09.2017 or 24.10.2017 did the father of student complain of the alleged ragging. On being asked if the student had informed them of the alleged ragging or any other issue, both the parents replied that there was no complaint or information given to them when the student was residing at the campus.
- (vi) Further the student himself when he went for seeking treatment did not inform the concerned doctor of the alleged ragging or any issues with the senior students. Nor did the student tell Dr Lalita Chavan. There is no complaint from the student. The student had ample opportunity to confide in independent third parties, but the same was not done. From the said conduct of the student, it is clear that no incident of ragging had taken place.
- (vii) Even on 24.10.2017, when Mr Achint Saini and his father again visited the MGM Medical College Hospital's psychiatry department for follow up treatment no complaint was made. It is pertinent to note that that time the student had infact stayed with his parents at his home. Even in such circumstances the student did not complain of the alleged ragging. Even at that time the student only

gave history of depression symptoms and hearing voices, reduced sleep etc. No ragging complaint was made nor was it stated to the Doctor that the said condition was due to the alleged ragging.

- (viii) Further on 24.10.2018 the student was advised to attend classes/college and a relative was advised to stay with the patient. The student and parents acted contrary to the advise. The very fact that the parents again had brought the student to the MGM Hospital for follow up treatment from his home town, this itself demonstrates that there was no case of ragging. This finding is further fortified by the fact that even on 24.10.2018 nor the father nor the student complained of ragging. It pertinent to note that Mr Achint Saini told Dr Lalita Chavan that he was not interested in pursuing studies in the medical field.
- (ix) The ARC also noted that when Dr Lalita Chavan made attempts to contact the parents and the student to enquire about the well being of the student, the said calls were not received nor was there any reply. After the said follow up treatment, Mr Achint Saini did not visit / return call. In case if there was really any complaint of ragging the parents had one more chance to make the grievance to the staff/faulty of the college, who in turn could have informed the ARC members. No such action was taken by the parents. After 24.10.2017, there was no contact or follow done by the parents or the student till the letter of January 2018. This conduct itself raises a doubt on the entire episode/ alleged ragging complaint now made. Further now that the student has joined a course in literature (as is evident from his facebook account) it appears that the student does not want to pursue the medical field

but was forced to do so and now after he has refused the issue of ragging has been raised to seek a refund of fees.

- (x) In fact the parents have acted contrary to the conduct of a normal and prudent person. Even when the father Mr Dharmesh Saini gave a written application dated 15.9.2017 to the Dean of the Medical College and sought medical leave, no ragging complaint or any other complaint was made. The leave was requested for medical treatment. The father undertook to keep the college authorities informed/updated regarding the treatment and assured that Mr Achint Saini would attend classes and try to make up for period which would be lost for the treatment. The Hostel bed was also retained by the father. This conduct belies the entire case and allegation of ragging.
- (xi) After more than four months a letter dated 9.1.2018 received by the Institute was received wherein the father of Mr Achint Saini for the first time raised the issue of ragging. On a perusal of the said letter it is observed by the ARC that the said allegation is general in nature and no particulars have been given. The notice of enquiry which the complaint now produces and on which basis he claims that there was ragging was not even referred to in the said letter. Furthermore the same is only the initial notice of enquiry. A notice of enquiry can never imply that ragging has taken place. The said contention of the complainant to say the least is totally misplaced and unacceptable. Further as stated hereinabove this conduct of the parents also proves that the parents were already aware of the outcome of the enquiry conducted and its outcome from September 2017. It seems that the complainant has

attempted to take advantage of the confusion in respect of the complaint filed with the Hostel warden and a complaint to ARC.

- (xii) As regards the complaint of September 2017 in respect of which an enquiry was done, we find that the same was a complaint to the hostel warden. From the enquiry it is clear that the said complaint was made due to some misunderstanding and or miscommunication between the concerned persons. Further independently of the said enquiry and the report, this ARC has enquired into the matter, taken statements of the students and faculty, perused the medical case papers and come to the conclusion that there was no ragging. The fact remains that no complaint was ever made by the student or the parents to the ARC nor were any of the members of the ARC contacted inspite of the fact that there contact details are freely and openly available.

Conclusions of the investigations

In view of the aforesaid findings, the Anti Ragging Committee is of the considered opinion that no ragging has taken place. The complaint forwarded by the Anti Ragging Help Line vide no. ARCC/MH-4947, dated 18th October 2018. is disposed off accordingly. The ARC Helpline be informed.

Dear Sir,

I am in receipt of your E-mail dated 09.07.2019 alongwith attachment of letter dated 05.07.2019 which was attached with this E-mail dated 09.07.2019 which is addressed to my son whereby you have requested us to be present for hearing before the Anti Ragging Committee on 2nd August, 2019 at 11:00 AM at Dean's Office. It is further stated in this E-mail and attached letter that original document submitted at the time of admission to First MBBS Course at MGM Medical College, Kamothe, Navi Mumbai / MGM Institute of Health Sciences can personally be collected after submitting acknowledgement of documents.

It is appalling that you have not reverted to my previous emails dated 1/07/19 and 2/05/19 wherein I have raised my concerns for coming to the campus for such hearings and again without even acknowledging any of my previous emails and letters which have been sent in reply to your previous emails last being reply to your email dated 25.06.2019. I had raised various concern in reply to your email dated 25.06.2019 but as always neither you have acknowledged my email nor resolved any of the concern raised in the said reply and again sent the same email for coming to the campus on 2nd August, 2019 at 11:00 AM at Dean's Office. This conduct prima facie lacks bona fide on your behalf. You have been trying to pressurize me and mentally harass me by not acknowledging and replying to any of my emails and concerns raised therein. Once again I am raising my concerns herein below and till the time same are not resolved, we will not be able to come to campus.

It is pertinent to mention that in all previous communications as well as our visit on 07.12.2018 to your campus for attending meeting of the Anti ragging Committee, it was communicated to you that the Achint is still undergoing treatment of the impact caused to his mental health due to inhuman behaviour and torture meted out to him during his short stay at your institute and the adverse impact which can be caused to his mental health by visiting the same place which has caused the entire problem in first place. It was also acknowledged by the one of the professor of your institute who was

2

present in the meeting on 07.12.2018, after seeing the latest reports of the treatment of Achint that visiting the campus will have adverse impact on his mental health. It was requested to you time and again that enquiry should be kept at some neutral venue, apart from the campus, so that the victim Achint can come present and give his statement. It was also promised by you in the previous meeting on 07.12.2018 that the said request will be considered by you but still you have done nothing about it and again asked Achint to come to the same campus which caused entire problem in first place, to collect his documents that too after more than a year since he was ragged and tortured at your campus which forced him to leave your institute, in spite being aware it would be detrimental to his treatment. We again request you to change the venue of the meeting to some neutral venue apart from college campus in view of possible impact on my son's mental health.

It is also pertinent to mention that the college has never shared any progress report of the investigation being conducted by them and when I had requested them to share the report of the investigation, the college had flatly refused to provide me with the copy of the same and never disclosed what progress has been made in the investigation. When such has been the conduct and attitude of the college regarding this investigation, the question of my being satisfied with the same does not even arise and thus the representation made by the college that I was satisfied with the investigation on the basis of which my complaint was closed by you is absolutely wrong and has no substance in it. It is also pertinent to mention that during my conversation with you yesterday on call, you had disclosed that close also represented that I am not reverting to their emails. This statement is also absolutely wrong as there is no email of college which I have not reverted to. In fact the college has not sent me any email of late barring one in which they have asked my son to come to the campus personally and collect his documents which was duly replied by me.

That till today the college has not taken any concrete steps to do fair investigation. The college had not even made any effort to record the statement of the victim at any neutral venue considering his medical condition as he is still undergoing

medical treatment for fear psychosis which he developed during his short stay in the college campus when he was brutally ragged by the seniors and his doctors have advised strongly against visiting the same campus where entire problem had started as it can have adverse impact on his mental health as well as on the treatment being given to him. This entire background was communicated to the college multiple times in writing and as well as in person when I alongwith my wife and younger brother visited the campus to take part in the college investigation being conducted by the college at the same campus where my son was made to suffer during his short stay. The college has not agreed till date to record statement of my son at any neutral venue. This further shows that college is not serious about the present investigation and only doing a cover up job.

It is also pertinent to mention that till today neither you have shared/communicated the status report of the enquiry being conducted in the complaint of my son with him or with us nor have communicated to us what action is being taken against the persons who tortured my son in short stay at your campus. Also, you have not mentioned anything about refund of the amount which was charged by you for entire year at the time of his admission as he stayed only for few days and was forced to leave due to inhuman behaviour and torture meted out to him during his short stay at your institute and your failure to protect him and provide him with safe environment to pursue his studies.

It is appalling that the college has not done any fair investigation in the complaint given by me for the atrocities committed on my son in the name of ragging during his short stay at the college campus. The college rather than doing a fair investigation, has been trying to cover up the acts of atrocities committed against my son and college is trying to protect the responsible persons for the same. The malafide intentions of the college are prima facie clear from the fact that they had completely denied to fact of ragging done at the campus with my son and also completely denied the fact that he had ever filed any complaint against such act of ragging during his short stay at the campus in their response to my legal notice which I had got sent to them after they had

(6) (4)

failed to give reply to any of my letters which I had written them many times. This stand taken by the college in their response that no ragging had taken place in the campus and no complaint was made regarding the same is absolutely wrong as I had the documentary proof of the same as when the complaint was made by my son during his short stay of the inhumane acts being done to harass him and other students of his class by the seniors in the name of ragging, then a investigation was conducted by Dr. Rahul Kadam, who was warden of boy's hostel and notice was issued to my son Achint alongwith three other his batch mates to attend that inquiry. This clearly shows that college had been trying to do the cover up of the atrocities committed on my son during the short stay of few days at the college campus to save the reputation of the college ignoring the fact that the life of my child has been ruined due to these acts.

Being father of Achint, I am worried about his health and the adverse impact which can be caused to his mental health by visiting the same place which has caused the entire problem in first place and have even refused to acknowledge the same till today. It is pertinent to mention here that my son is still undergoing treatment of the impact caused to his mental health due to inhuman behavior and torture meted out to him during his short stay at your institute. As far as matter of returning the original documents of my son are concerned, the same can be sent by courier to us and we are ready to sent any acknowledgement for same in writing trough post.

Once my concerns will be addressed in any satisfactory way, than only I will be able to make decision to come to campus for collecting documents. Otherwise I will be constrained to look for my other legal remedies and shall not hesitate in adopting any such course which is necessary to take this issue to logical conclusion till the time justice is not given to my son.

Awaiting your reply.

Respected Sir/ Madam,

With reference to your E-mail received regarding a complaint, we are submitting the Anti Ragging Committee (ARC) report as per your requirement and for your kind information.

1. Details of investigation done by anti ragging committee members

- a. As reported by ARC Help Line, we have immediately conducted emergency meeting of college Anti Ragging Committee on 24th June 2017 & 27th June 2017 and the details are as follows :
 - i) All first year Post Graduate students are called and counseled to feel them safe and assured their safety environment.
 - ii) The ARC had also discussed with (Ex.Surgeon.Vice Admiral) Dr.Sushil Kumar, AVSM, NM, VSM, Professor & HOD of Obst. & Gynaecology about occurrence of any such cases reported by any of the First Year PG students of ObGy and there were no such incidence.
 - iii) The ARC had a meeting with First year and Second year PGs individually and interacted with them. All PGs have submitted individual written statements with out any fear, undue pressure / influence. (copies enclosed in **Annexure – I (A)**)
 - iv) The Parents of first year Post Graduate students of ObGy, have informed via E-Mail that they have no complaints about ragging against any of the Second Year PG students for their wards.(E-Mail copies enclosed in **Annexure – I(B)**)
 - v) The 2nd year PGs of ObGy are temporary prohibited from departmental work to avoid any possible disputes between 1st Year and 2nd year PGs. Their statements are also enclosed. (copies enclosed in **Annexure – I (C)**)
 - vi) The DCP Zone-2, Panvel deputed representative were present in the ARC committee and also investigated independently by interacting with the first & second year PGs separately and by taking confidential statements. The separate investigation report is submitted to you. (Copy enclosed as **Annexure –II**)

2. Conclusions of the investigations :

- a. The Anti Ragging Committee is of the considered opinion that none of the First Year OBGy Residents were prevented by 2nd year ObGy Residents from bathing, sleeping or preventing from eating food or threatened. All of them are working under a stress free and cordial environment as per their written statement.
 - b. It has also not come out in the investigation that any of the 2nd year Residents have coerced the First Year Residents not to have food, bathing or have prevented them from sleeping or threaten them. They have been treating the First Year Residents with compassion and empathy. However , in cases of Medical emergencies / mass casualties Resident Doctors may delay routine meals and sleep for giving prompt medical services to the needy/ delivery patients.
 - c. It appears that the said complaint does not have enough contents and does not constitute RAGGING and thus no further action is required. No prima facie Ragging case has been found or reported in this regard.
3. List of the anti Ragging Committee members alongwith their signatures and designations in Anti Ragging Committee .

The List of Anti Ragging Committee members as per UGC regulations alongwith their signatures and designations is enclosed as **Annexure No. III**

Since there are no violation of laws of Anti Ragging by any of the students. Hence no punishment is suggested or given by the Anti Ragging Committee to any of the Post graduate students.
