Academic Event Report

Conferences/ Seminars/ CME/Workshop/ Quiz/ Debate/ Guest Lecture etc.

Date:25/01/2017

| No. | Event Report |
|-----|---|
| 1. | Name & Level of Event – College/ Regional/ State/ National/ International. 18 th Joint State Conference of Indian Association of Preventive and Social Medicine (IAPSM) and Indian Public Health Association (IPHA) Maharashtra 2017 |
| 2. | Background/ Introduction – Need/ reasons for holding the prg, Name of Association/ Collaboration etc. The theme of the conference was "PUBLIC HEALTH CENTRIC : GOVERNANCE - FOR EQUITABLE HEALTH DEVELOPMENT". A range of collaborative governance mechanisms has developed in many policy arenas in the past. Adaption of governance is driven by the changing nature of societies and the challenges they face. Two challenges go hand in hand: 1. The governance of the health system and the strengthening of health system, which is called health governance; and 2. The joint action of health and non-health sectors, of the public and private sectors and of citizens for a common interest in what is called governance for health. Health 2020 must therefore involve partners from beyond the health sector to reach out to heads of government, parliamentarians, business leaders, mayors and citizens. |
| 3. | Venue - <u>Rukhmini Hall</u> Rukhmini Hall Campus MGM Medical College & Hospital Aurangabad <u>20.01.17 to 21.01.17</u> |

Date: 5/10/2016

| No. | Event Report |
|-----|--|
| 1. | Name & Level of Event – National level Research Methodology Workshop – 2016 |
| 2. | Background/ Introduction – The institutions of higher learning in India are facing crucial challenge in creating, nurturing and maintaining the level of quality research especially in medical sciences. The need of the hour is to develop a sound methodological base of research among the budding educationists and researchers to cope up with future challenges. A good research methodology is a key to sound research output. To operationalize this vision, there is need to train, reorient and reactivate the research scholars in the medical science on research methodology. |

Report of Training in 'E-learning' conducted for Faculties of MGM Medical College, Navi-Mumbai in the year 2016- 2017

E- Learning is a very efficient way of delivering courses **online**. Due to its convenience and flexibility, the resources are available from anywhere and at any time. E- Learning is an excellent Teaching- learning educational tool for improving access to training, communication and interaction, and that facilitates the adoption of new ways of understanding and developing learning in students and Faculties.

Keeping this in mind, the following E-learning training programs were conducted for Faculties of MGM Medical College, Navi-Mumbai, during the year 2016-17. Faculties were trained in "Appropriate use of Media, downloading and using You tube videos for teaching learning".

| Sr. No. | Dates of Training Program | Faculty training in E-learning - Topic | Resource person | No. of participants |
|---------|---------------------------|---|--------------------------------------|---------------------|
| 1 | 05/1/2017 | Appropriate use of Media, downloading and using You tube videos for teaching learning | Dr. Seema Anjenaya & Dr. Ipseeta Ray | 21 |
| 2 | 07/12/2016 | | | 42 |
| 3 | 9/12/2016 | | | 40 |
| 4 | 5/10/2016 | | | 44 |
| 5 | 6/10/2016 | | | 45 |

The Faculties actively participated in the training program.

Report

Name of the training – Anaesthesia machine

Hosting institution – MGM Medical College Navi Mumbai.

Dates – 12.7.2016

This training program was intended to provide with a basic understanding of anaesthesia machine, types of anaesthesia machines, its components, pressure system, working of anaesthesia machine, precautions and risks associated with it & also the safety measures while handling the anaesthesia machine.

The most important piece of equipment that the anaesthesiologist uses is the anaesthesia machine. Safe use of anaesthesia machine depends upon an interaction between the basic design of the machine with its safety features and the knowledge and skills of the anaesthesiologist. The basic function of an anaesthesia machine is to prepare a gas mixture of precisely known, but variable composition.

The gas mixture can then be delivered to a breathing system. Anaesthesia machine itself has evolved from a simple pneumatic device to a complex array of mechanical, electrical and computer – controlled components. Much of the driving force for these changes have been to improve patient safety and user convenience. Though many modifications have been brought out still the basic design has not much changed. Hence, knowledge of the basic design of the anaesthesia machine is a must for all the practicing anaesthesiologists to understand the modern anaesthesia workstation.

Report

Workshop on Anaesthetic management for valve replacement in MS

Name of the training – Anaesthetic management for valve replacement in MS

MGM Medical College Navi Mumbai.

Dates – 14.07.2016

This programme was intended to provide with a basic knowledge of Anaesthetic management for valve replacement in MS prevalence and causes of MS, diagnostic approach and clinical perspective.

The session started with discussions on Anesthetic management of a patient with mitral stenosis. Almost always due to rheumatic disease, normally becomes symptomatic ~ 20 years after the infectious insult, although acute increases in DO_2 requirements can result in earlier onset of symptoms. > 50% of patients will have another, coexisting valvular pathology (most commonly mitral regurgitation, but 25% will have aortic involvement as well).

Normal mitral valve area is 4-6 cm^2 , symptoms usually commence at 2 cm^2 or less. "Critical stenosis" is defined as 1 cm^2 or less, and is usually symptomatic at rest. 1-1.5 cm^2 usually causes mild symptoms on exertion, and 1.5 cm^2 -2.0 cm^2 is usually asymptomatic unless significantly stressed. Assuming a constant area, this can be arranged to pressure gradient = $(CO/diastolic\ time)^2$, which suggests that small changes in CO or diastolic time (with tachycardia) can lead to large changes in the pressure gradient.

Report

Name of the training – Total parenteral nutrition

MGM Medical College Navi Mumbai.

Dates – 20.07.2016

The session started with discussion on Total parenteral nutrition. This programme was intended to provide with a basic knowledge of Total parenteral nutrition.

Total parenteral nutrition (TPN) is a method of feeding that bypasses the gastrointestinal tract. A special formula given through a vein provides most of the nutrients the body needs. The method is used when someone can't or shouldn't receive feedings or fluids by mouth. You'll also need to know how to care for the tube (catheter) and the skin where the catheter enters the body.

REPORT

Name of the Lecture –Guest lecture on pharmacovigilance

Hosting institution – MGM Medical College Navi Mumbai.

Dates – 19.10.2016

The guest lecture on pharmacovigilance was organised by the MGM Medical College Navi-Mumbai on dated. The guest lecture started around 10 am. First the dean of the Medical warmly welcome guest and Ingo grated session.

The pharmacovigilance means the practice of monitoring the effects of medical drugs after they have been licensed for use, especially in order to identify and evaluate previously unreported adverse reactions.

This session about the pharmacovigilance which is concerned with identifying the hazards associated with pharmaceutical products and with minimizing the risk of any harm that may come to patients. Companies must conduct a comprehensive drug safety and pharmacovigilance audit to assess their compliance with worldwide laws, regulations, and guidance.

REPORT

Name of the symposium—UG Symposium on hypertension

Hosting institution – MGM Medical College Navi Mumbai.

Dates – 2.11.2016

This symposium started around 1'o clock. In the discussion the first point was about main cause of hypertension Other factors that can raise the risk of having essential hypertension include obesity; diabetes; stress; insufficient intake of potassium, calcium, and magnesium; lack of physical activity; and chronic alcohol consumption then the type of the hypertension There are two primary hypertension types.

For 95 percent of people with high blood pressure, the cause of their hypertension is unknown this is called essential, or primary, hypertension. There are four stages of high blood pressure or hypertension: STAGE 1 or Prehypertension is 120/80 to 139/89. STAGE 2 or Mild Hypertension is 140/90 to 159/99. STAGE 3 or Moderate Hypertension is 160/100 to 179/109. STAGE 4 or Severe Hypertension is 180/110 or higher.

REPORT

Name of the symposium –UG Symposium on congestive cardiac failure

Hosting institution – MGM Medical College Navi Mumbai.

Dates – 3.11.2016

This symposium started around 10 am. In the discussion the first point was about main cause of congestive cardiac failure (CHF) is a chronic progressive condition that affects the pumping power of your heart muscles. While often referred to simply as "heart failure," CHF specifically refers to the stage in which fluid builds up around the heart and causes it to pump inefficiently. You have four heart chambers.

The most common causes of congestive heart failure are: Coronary artery disease. High blood pressure (hypertension) long standing alcohol abuse. Disorders of the heart valves. Unknown (idiopathic) causes, such as after recovery from myocarditis.

Then the other point of discussion is the Heart failure signs and symptoms may include: Shortness of breath (dyspnea) when you exert yourself or when you lie down. Fatigue and weakness. Swelling (edema) in your legs, ankles and feet. Rapid or irregular heartbeat. Reduced ability to exercise. Persistent cough or wheezing with white or pink blood-tinged phlegm.

REPORT

Name of the symposium –UG Symposium on angina pectoris

Hosting institution – MGM Medical College Navi Mumbai.

Dates – 4.11.2016

This symposium started around 10 am. In the discussion the first point was about main cause of angina pectoris is the medical term for chest pain or discomfort due to coronary heart disease. It occurs when the heart muscle doesn't get as much blood as it needs.

This usually happens because one or more of the heart's arteries is narrowed or blocked, also called ischemia. Angina is not a disease. It is a symptom of an underlying heart problem, usually coronary heart disease (CHD). There are many types of angina, including microvascular angina, Prinzmetal's angina, stable angina, unstable angina and variant angina.

Then discussion moved to next point that was Angina symptoms like Chest pain or discomfort, possibly described as pressure, squeezing, burning or fullness. Pain in your arms, neck, jaw, shoulder or back accompanying chest pain. Shortness of breath. Sweating. Dizziness.

REPORT

Name of the symposium –UG Symposium on Parkinson's disease

Hosting institution – MGM Medical College Navi Mumbai.

Dates – 6.11.2016

This symposium started around 10 am. In the discussion the first point was about Parkinson's disease is a progressive nervous system disorder that affects movement. Symptoms start gradually, sometimes starting with a barely noticeable tremor in just one hand. Tremors are common, but the disorder also commonly causes stiffness or slowing of movement.

Different people experience progression at different speeds, as well. However, physicians have established stages that describe how the disease progresses. These five stages of Parkinson's are known as the Hoehn and Yahr Scale used by physicians throughout the world to classify patients in research studies.

Also discuss what are the early signs of Parkinson's disease. Cramped handwriting or other writing changes. Tremor, especially in finger, hand or foot. Uncontrollable movements during sleep. Limb stiffness or slow movement (bradykinesia) voice changes. Rigid facial expression or masking. Stooped posture.

REPORT

Name of the symposium –Recent advances in the diagnosis of tuberculosis

Hosting institution – MGM Medical College Navi Mumbai.

Dates – 17.03.17

This session started around 10 am. In the discussion the first point was about the session started with discussions on existing strategies in the country and the associated statistics in different states. Subsequently, it mainly focussed on the statistics in the state of Maharashtra, number of new cases, number of old cases, number of drug resistant cases and number of non-compliant cases.

Breakthroughs in the Diagnosis of TB include advances in microscopic examination, *in vitro* culture and application of molecular techniques. The World Health Organization (WHO) has played a large role in evaluating these technologies for their efficacy and feasibility, especially in the developing countries. Amongst these, the Revised National Tuberculosis Control Programme (RNTCP), through its national network of designated microscopy centres and intermediate reference laboratories, has adopted certain technologies that currently implemented in India. Advances in microscopy technology include fluorescent microscopy using light-emitting diode source, sodium hypochlorite microscopy and vital fluorescent staining of sputum smears. Automation of *in vitro* culture has markedly reduced the turnaround time (TAT), even in smear-negative samples, and permits simultaneous detection of resistant mutants. Molecular detection of drug resistance has further reduced the TAT, and the cartridge-based nucleic acid amplification test with its performance convenience and rapid results, appears poised to become the future of tuberculosis (TB) diagnosis in all settings, provided the cost of testing is reduced especially for use in private diagnostic settings.

Subsequent morning started with the discussions about the subsidies in the drug rates and introduction of new drugs in the market.

Challenges in the form of increasing number of MDR TB cases and an upwards going chart on the number of non-compliant cases in the state of Maharashtra was elaborated extensively. The solutions were put forth and an interactive session on how to tackle the disease in the next decade was very lively and informative.

Report of session on Basics procedures and Clinical application of Proprioceptive Neuromuscular Facilitation

Date: 27th December 28, 2016

Venue: MGM Hospital, Kamothe

Time: 09.30 PM-04.00 PM

Organized by : NeuroPT dept.

Speaker: Dr.Akruti Mehta (PT), Certified PNF (Level 1 and 2)

Attendees: Dr.Pothiraj (PT), Dr.Kanika (PT) and post graduate students (Neurospeciality).

Event: Enlightening talk on theories and principles of Proprioceptive neuromuscular facilitation (PNF) was given by Dr.AkrutiMehta(PT). Demonstrations on treatment approaches was given and its application was taught on stroke patient using PNF with goal oriented therapy. Practice sessions were supervised by Dr. Akruti Mehta (PT) which helped to enhance clinical skills.

Sub.: CME "Tuning into your heart" - reg....

Sir/Madam,

As per the discussion held in the meeting on Tuesday, 31st January 2017 at MGM Institute of Health Sciences, Navi Mumbai you are hereby requested to note that, first 2 days of 4 days Continuing Medical Education (CME) for Heartfulness Curriculum ("Tuning into your heart") is scheduled on 24th & 25th February 2017 at Auditorium, Ground Floor, MGM Medical College, Kamothe, Navi Mumbai.

Therefore, you are requested to nominate 10 numbers of participants (5 faculty & 5 UG/PG Students) from your Institute/University Department. The details of nominated participant must be sent to CME Coordinator Dr. Mansee Thakur, I/C Director, MGM institute's University Department of Biomedical Sciences through email at mansimgm07@gmail.com before Wednesday, 15th February 2017. For any clarification on this matter, you may contact Dr. Mansee Thakur on her landline no. : 022 - 27432890.

Kindly note that, this CME is going to be conducted strictly from 09.00 am to 05.00 pm, thus you are requested to ensure that the participant adhere to these timing.

For more details about the CME visit <http://heartfulness.org/cme/>

We have also enclosed the PPT presentation for your perusal.

With Regards,

Report - Symposium on Scientific and Technological Innovations for Persons with Disability-27th February 2017

MGM Institute's University Department of Physiotherapy (MGM IUDOP) and MGM Institute's University Department of Biomedical Sciences, Navi Mumbai celebrated 'National Science Day' by organizing a Symposium on 'Scientific and Technological Innovations for Persons with Disabilities' on 27th February 2017 at MGM University Auditorium, MGM Institute of Health Science (MGMIHS), Navi Mumbai. The program started at 10:00 am with a prayer and lamp lighting by the esteemed team of MGMIHS -Hon. Vice Chancellor Dr Sudhir Kadam, Hon. Pro VC, Lt. Gen. Dr Shibban Kaul, Hon. Pro VC (Research) Dr Chander Puri, Prof Director -Physiotherapy Dr Rajani Mullerpatan and by the invited dignitaries Prof. Anilkumar Gaur, Prof. Ajitkumar Patil and Professor Ketna Mehta.

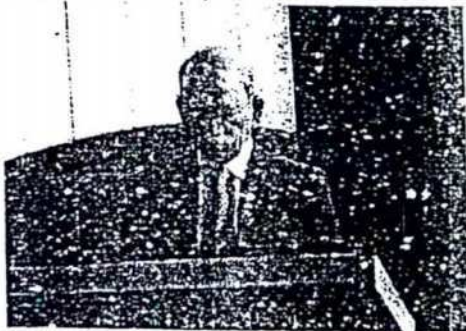

Dr Chander Puri (Pro VC, MGMIHS) welcomed the guests and highlighted the achievements of MGMIHS notably the Grade 'A' accreditation by NAAC. Lt. Gen. Dr Shibban Kaul (Pro VC, MGMIHS) then shared his thoughts on creating an enabling society for all. Dr Sudhir Kadam (Vice Chancellor, MGMIHS) introduced the Symposium by speaking about the life of Dr C.V Raman and provided inspiration for students attending the symposium.

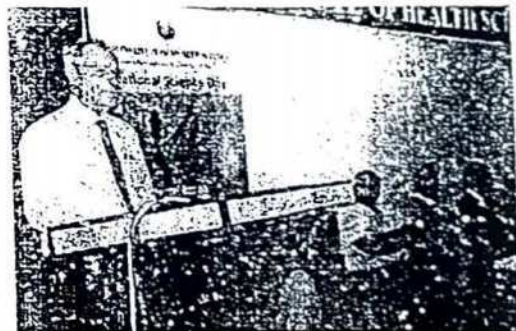

Lamp lighting by Dr. Sudhir N. Kadam, Dr. Chander Puri, Prof. Anilkumar Gaur

NAVI MUMBAI- 410 209

The symposium was divided into three sessions. Session one was chaired by Dr Rajesh Goel (Prof and HOD, Community Medicine, MGMIHS).

The first speaker of the day was Prof Anil Kumar Gaur- Deputy Director at the All India Institute of Physical Medicine and Rehabilitation, Mumbai. He began his talk on 'Technologies for Rehabilitation of Disabled: Recent Advances' at 10:45 am. He spoke on latest technological innovations in the fields of vehicular modifications, communication devices, environmental control devices, assistive computer devices and adaptive housing. He also made the audience aware of the progresses made in the fields of prosthesis, neuro-rehabilitation, robotic therapy and virtual reality.

Prof. Ajitkumar Patil was the second speaker of the day. Prof Patil is the Head of Department of Electrical Engineering at the SBM Polytechnic college, Mumbai. Having overcome the challenges posed by quadriplegia due to a cervical fracture more than 30 years ago, he was the apt person to speak on 'Rehabilitation of Spinal Cord Injury: Technologies and Challenges'. Prof Patil gave a background about his injury and his innovations and shared the challenges he faced throughout his academic years. From a simple writing clamp to electronic wheelchair and from low cost EMG machine to solid state electrocautery, Prof Patil has indigenously developed numerous medical and assistive devices. He ended his talk by highlighting the need to develop Primary Health Centres (PHCs) in India as service providers and supporters for people with disabilities. He extended his full support and help to undertake any form of collaborative research in the field of rehabilitation and technology. Dr Rajesh Goel felicitated Prof Anil Kumar and Prof Ajitkumar Patil for such an informative talk

Prof. Anilkumar Gaur delivering his talk

Dr. Rajani Mullerpatan-Prof-Director MGM IUDOP introduced Dr KG Narayankhedkar, Director General, MGM College of Engineering and Technology to chair session two which commenced at 12.30 pm. Dr. Rajani then introduced speaker, Prof. Prabhat Ranjan, Executive Director, Technology information, Forecasting and Assessment Council, New Delhi to enlighten the audience on 'Use of information and communication technologies to improve quality of life of persons with disability'. Professor Prabhat Ranjan's session was arranged through live video streaming. He shared his interest and initial work on information and communication technology (ICT) of hand gesture based universal remote control to help person with disability (PWD) by using accelerometer. He explained Communication Technology, CePal device which is currently designed to assist people who are partially handicapped that could go a long way to help disabled people with routine tasks. He cited examples of how ICT was developed based on the ability of PWD like Accelerometer for intact hand leg movement, Gyro-Sensor for intact head movement and so on. Dr KG Narayankhedkar enquired Prof. Prabhat if there was any portal to communicate with these patients; for which Prof Prabhat described about *Swavalamban* app that was accessible to all patients for easy communication.

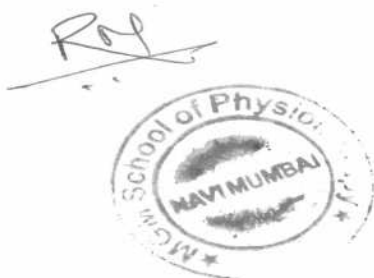

Dr KG Narayankhedkar then introduced second speaker Professor Ketna Mehta- Founder Trustee, Nina Foundation; and editor, and management advisor, Welingkar Institute of Management Development and Research for her talk on 'Design for All'. Prof Ketna emphasized on the 3 A's that were important to fulfill the needs of PWD and to help them lead a dignified life viz. Accessible built environment, Accessible Assistive Technology and Attitudes & Mindset. Although there are 21 disabilities included under Rights of Persons with Disabilities Bill-2016 in India, she expressed discontent on the exclusion of Spinal cord injury. She further stressed the importance of re-designing institutions to make them disabled friendly. Professor shared her personal experience while on a visit to Switzerland where she truly experienced independent living thanks to the disabled friendly environment. She updated information about Accessible India Campaign (Sugamya Bharat Abhiyan) which was launched by Department of Empowerment of Persons with Disabilities (DEPwD) for achieving universal accessibility for PWD. Professor Ketna Mehta was felicitated by Dr KG Narayankhedkar for her exemplary talk.

Dr KG Narayankhedkar chairing session of
Prof Prabhat

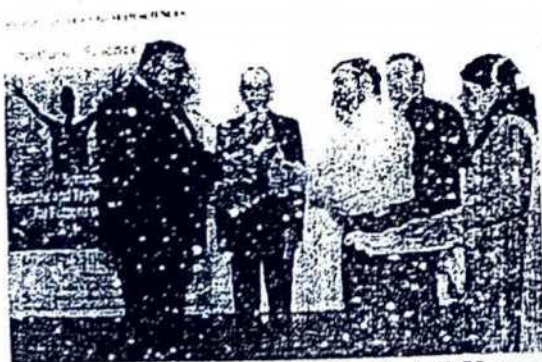

Prof. Ketna Mehta

Followed by Prof.Ketna's talk there was a Poster Presentation competition in which total 19 teams from Engineering, Biomedical and Physiotherapy colleges had participated. Students had prepared posters showcasing innovations and technology that can be implemented in health-care. Dr. Nimain Mohanty-Prof of Paediatrics,MGM Medical College and Hospital and Dr. Hushyam Jindal -Professor, Biomedical Engineering and Technology,MGM CET were the judges for the event; the results of which were to be announced in the concluding session.

Session 3 was chaired by Dr. Sushil Kumar-Prof. & Head, Department of Obstetrics & Gynaecology and Dr.Siddharth Dubbashi -Director Academics and Prof. of Surgery, MGM Medical College and Hospital. Dr.Sushil Kumar introduced and invited Prof Russell D'souza, Executive Director, International Institute of Psychological Medicine,Australia; and Head,Asia Pacific Bioethics Network,UNESCO Chair in Bioethics to enlighten the audience on 'Ethical Dimensions in the Context of Physically Challenged Persons.' Dr.Russell stressed on the need to respect human dignity and protect human vulnerabilities and personal integrity of disabled through Articles 3 & 8.He quoted example of the legendary Aristotle to explain Article 10 demanding Equality, Justice and Equity for the disabled and shared concerns regarding workplace discrimination meted out to them. Dr.N.Mohanty raised a point that if we had to stop discriminating disabled we have to start addressing them *differently abled* and not disabled.This was highly appreciated by Dr.Russell to which he quoted back saying that the other way to look at it is that all are *temporarily abled* who will eventually turn disabled. Dr.Siddharth welcomed Dr.S.N.Kadam to felicitate Dr.Russell for delivering such a enlightening session.

Followed by Dr.Russell's talk, Dr.Sushil Kumar invited Mr.Santosh Raut , Regional Business Development and technical Leader-Orthobionics ,Otto Bock Healthcare India to update the audience about Horizons in Assisted Technology. Mr. Santosh showcased the historical journey of Prosthesis technology and innovations till date. He highlighted contribution of Ottobock's investment in Micro-processor controlled knee joint (1989) and Megatronic knee joint that assured safety,delivered unlimited dynamic mobility along with reducing rehabilitation time. He shared a video captioning Ottobock Running Clinic India 2015 showcasing Paralympic 100m Gold Medalist and World Champion Heinrich Popow, working with energetic Indian amputees while sharing his own inspirational story. Dr.Rajani Mullerpatan requested Prof Sushil Kumar and Dr.Siddharth Dubbashi Mishra to felicitate Mr.Santosh Raut.

Dr.Russel felicitated by Dr.Sushil Kumar

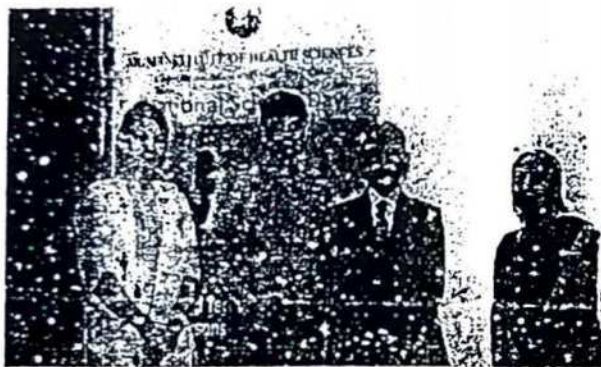

Talk by Mr.Santosh Raut

After finishing the lecture series, the judges of Poster Competition were called upon to announce the winners. The prize winners presented their innovations to the audience and explained its applicability along with highlighting its low cost budget required for the same compared to exorbitant cost of the existing available technology. Winners were awarded with mementos and encouraged to carry out their ideas for larger interest of the society.

Students of Biomedical Sciences enacted a short play featuring plight of disabled people in our country and why it was important to give them equal rights and opportunities. It won lot of applause by all the dignitaries and audience.

The Symposium ended at 5.30 pm by Dr.Rajani Mullerpatan delivering a vote of thanks to all those who made the event a grand success.

Report on Yoga Session

The Women's Day of year 2017 on 8th March was celebrated with a much sharper and sensitive awareness about Human mind and yoga.

A brief yoga session that included few repetitions of Suryanamaskar, its importance and role in life was conducted by Dr. Nikita Sinha (PT).

It was an interactive session with brief explanation of each step and the right technique to do it. About 90% students benefited from the session.

Students were made aware about how simple stretches improves the physical and mental well-being.

A short meditation session of 20 minutes was also conducted.

Students shared their feedback after 20 minutes and reported a peaceful experience.

Regular and periodic yoga sessions are being planned for all students to enhance their physical and mental well being.

Report on Women's Day Celebration

The Women's Day of year 2017 on 8th March 2017 was celebrated with a much sharper and sensitive awareness about Human mind.

To make this more understanding and applicable senior faculties from ART of Living organization were invited.

Mr. Sourav Ghosh and Miss. Manisha Shah who teach and practice meditation from past 12 years and have also conducted various Art of living seminars nationwide spoke in detail about the nature of human mind.

The session was awakening and very interactive which had tips to handle our own minds with the help of simple Pranayama techniques and Yoga.

In addition to this a short meditation was conducted for all faculty members.

The session concluded with a mini lunch and experience sharing.

Report On Gerontology Guest lecture

Guest lecture on **"Gerontology Care and Services for Older adult"** was successfully conducted by Department of Preventive community Physiotherapy, MGM Institute of Health sciences, Kamothe, Navimumbai, on 28th April 2017.

The Guest lecture was organized for Undergraduate students, MPT, and staff the contents covered were beneficial as per the syllabus.

Date: 28th April 2017

Time: 1.00 pm onwards

Venue: Lecture Hall 4, 2nd floor,
MGM Physiotherapy
Kamothe, Navi Mumbai .

Preventive community Physiotherapy department had organized a guest lecture on "Gerontology care and services for older adult" by eminent speaker Mrs Amruta lovekar, Gerontologist ,consultant trainer with regional resource training center of National Defense. Session started with felicitation of speaker by Dr. Vrushali Panhle followed by introduction of speaker and topic to students by Dr. Jyoti Parle. After introduction Dr. Pothiraj, MGM Physiotherapy took lecture on **Challenges of Geriatric Rehabilitation**" followed by Mrs Amruta Lovekar's lecture. In this she covered most of aspect of Gerontology care. She also briefed about assessing community needs. It was interactive session between students and speaker. She also shared her own experience about attitude of family towards older adults. Her speech was enlightening and motivational and entire her accumulated experience and knowledge are formidable.

Report – Guest Lecture on Shoulder Movement Dysfunction

Date: 27/04/2017

Time: 1.30am -3.30 pm

Venue: Seminar Hall of MGM Hospital Building, Kamothe, Navi Mumbai.

Speaker: Dr Bhavana Mhatre, Professor, Professor, PT School & Centre, Seth G.S Medical College & KEM Hospital, Mumbai and Dr Prachita Walankar (PT)

Organizers: Dr Sneha Ganu (PT), Dr Reshma Gurav (PT), Dr Vijaya Krishnan (PT)

Attendees: Beneficiaries, MGM Department of physiotherapy faculty, III BPT & III BPTTh, IV BPT & IV BPTTh, Interns (SOP & COP), MPT I & II students of MGM Institute's University Department of Physiotherapy

Dr. Prachita Walankar (PT) started the seminar revising the basic anatomy & biomechanics of the Shoulder Joint

Dr. Bela Agarwal (PT) welcomed Dr Bhavana Mhatre with a bouquet of flowers.

Dr Reshma Gurav (PT) introduced the speaker Dr Bhavana Mhatre and requested her to enlighten our physiotherapy students regarding Movement analysis for shoulder complex dysfunction- Core competency for physiotherapy clinical decision making

The key points discussed during the seminar were:-

1. The objectives of the session included- movement analysis with respect to kinetics & kinematics, assessment skills, ICF and management of common Shoulder Dysfunctions.
2. The different pain mechanisms were explained.
3. She explained in detail about Kinetic control, motor control and motor control strategies which included core concepts such as local & global stabilizers and global mobilizers
4. Scapulothoracic & Glenohumeral dysfunctions were addressed separately in details.
5. Students were made aware about how the different types of exercises help patients.
6. The queries of the students were solved.

Report of Dr. Sailakshmi Ganesan's Visit Schedule (24/4/17 to 26/4/17)

Dr. Sailakshmi Ganesan had visited University Department of Physiotherapy, MGMIHS between 24/4/17 to 26/4/17. Following are the details of the visit.

| Date | Morning Session 9:30 am - 12:30 pm | Afternoon Session 1:00 pm - 4:00 pm |
|---------|---|--|
| 24/4/17 | Problem based learning by Seminar on Principles of NDT, Assessment, goal setting and management along with Case Demo by 2 nd year MPT students. | Meeting with Dr. Rajani Mullerpatan and Dr. Triveni Shetty(PT) in MGMCIIMS for PhD project discussion and progress report. |
| 25/4/17 | Practical examination of 3 MPT students taken along with Dr. Meruna Bose (PT). | Theory Paper correction of MPT students along with Dr. Meruna Bose (PT). Between 3:30 to 4:30 Feedback regarding examination was given to the MPT students. |
| 26/4/17 | Meeting with Dr. Rajani Mullerpatan. Case Demo by Dr. Triveni Shetty (PT) on a spastic diplegic child with 3D gait analysis for kinematics and kinetics attended by Dr. Rajani Mullerpatan, Dr. Bela Agarwal and Neuro MPT students. | Case Demo continued. |

MGM Centre of Human Movement Science

Course in Clinical Biomechanics

5th, 6th and 7th May 2017

Objectives

- ✓ Understand basic methodology of movement analysis
- ✓ Understand the principles of biomechanical modeling
- ✓ Understand theories of movement control and loading
- ✓ Able to integrate and apply the above to analyze movement problems encountered in patient population

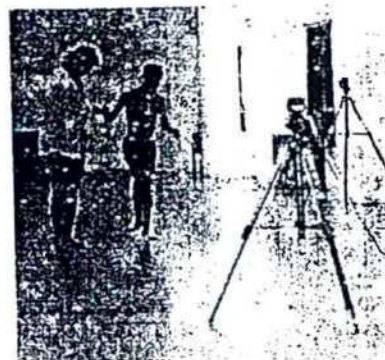

Motion Analysis

Training Programs

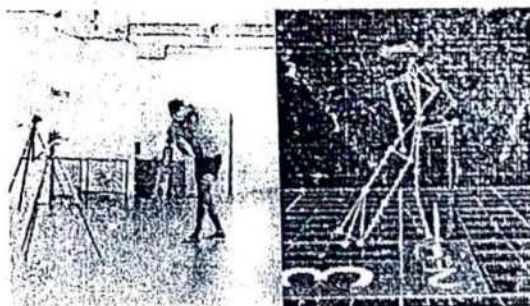

Learning Outcomes: On completion of this course you will achieve enhanced understanding of scope of movement analysis in patient evaluation

Clinical Services

Pre-requisites:

Students, clinicians and professionals with BSc in Health science and/or Engineering or related field relevant to the area of Clinical Kinesiology can apply

Exploring Sports

| Schedule | | |
|---|--|--|
| | Activity | Resource Person |
| 5 th May, 2017 | | |
| Topic: Movement Analysis & Modeling: Biological systems | | |
| 9.00-10.00am | Kinematics of movements | Prof. Rajani P Mullerpatan |
| 10.00- 10.30 am | Rehabilitation technology- continuum from clinical needs- research –industry entrepreneurship | Prof.B. Ravi |
| 10.30-10.50 am | Tea Break | |
| 10.50-11.05 am | Kinetics of movement: Forces, Moments & Power | Prof Robert Van Duersen |
| 11.10-11.50 pm | Musculo-skeletal modeling-I - theoretical approaches | Prof Robert Van Duersen |
| 11.55 -12.40 pm | Musculo-skeletal modeling-II - clinical examples | Prof Robert Van Duersen |
| 12.40-12.50 pm | Interaction | |
| - 13.50 pm | Lunch | |
| - 14:00 pm | Mini projects in clinical biomechanics* | |
| Topic: Application of clinical biomechanics | | |
| 14.00-14.45 pm | Pressure measurement | Prof. Rajani P Mullerpatan |
| 14.45-15:15 pm | Biomechanical principles guiding prosthetic design | Dr Sujatha Srinivasan |
| 15.15 - 15.30 pm | Tea Break | |
| 15.30-16.30 pm | OPENSIM | Prof. Rajani P Mullerpatan Triveni Shetty |
| 6 th May, 2017 | | |
| Topic: Application of clinical biomechanics | | |
| 9.00-9.45am | Muscle & movement | Prof Robert Van Duersen |
| | - Mechanics | Prof. Rajani P Mullerpatan |
| | - Surface EMG | Triveni Shetty |
| 9.50-10.30am | Introduction to finite element modeling | Dr.Rupesh Ghyaar |
| 10.30-10.50 am | Tea break | |
| 10.50-11.30 am | Applications of medical imaging in clinical biomechanics | AlgoSurg Team |
| 11.30-12.30 pm | Application of biomechanical principles to guide Yogasana research | Dr S.N Omkar |

International Day of Yoga 2017

Preamble:

1. This Program was organised by MGM Institute's University Department of Physiotherapy at MGM Institute of Health Science, Navi Mumbai on occasion of celebration of International Day of Yoga.
2. Location of Event: Room opposite Academic Section, MGMIHS, Kamothe
3. Event date and time: 21.06.2017, Morning 10.00 a.m-11.30pm.

Objectives:

1. To bring about awareness of importance of Yoga among students and staff members of MGMIHS.
2. To sensitize participants to adopt Yoga on a daily basis.
3. Practical demonstration on Yogasanas.

Activity

1. The program was coordinated by Dr. Rajani Mullerpatan, Dr Monal Shah (PT) and Dr. Nikita Sinha (PT).
2. Yoga Session was carried by Yoga Instructor, Mr Girish Nehte, A qualified Yoga instructor with a masters degree in Yogaabhyas.
3. Awareness programme for importance Yoga based on AYUSH protocol were demonstrated to participants in morning between 10.00-11.30 am and active participation were ensured. 15 faculty members actively participated in the session.
4. Mr. Girish Nehte briefly introduced the ancient science of Yoga and enlightened on common myth regarding yoga.

Report on faculty Development Session

**Advanced Communication Skills, Positive Responses to Negative Behavior Embracing
Diversity / Respectful Workplace Communications**

Date:-11.03.2017

Time: 60 minutes

| | |
|--|---|
| Venue: Pharmacology Demo hall , Second Floor, MGM Medical College building, Navi Mumbai | Dr. Geeta Thakur – Sr. Teaching staff – Mahatma Education Society's Pillai Group |
|--|---|

A communication skill that's often overlooked is listening. Yet recent surveys tell us that we spend 45 percent of our time listening. Do we listen carefully to what people are telling us? According to one study, we hear only one quarter of what's being said. The rest of the time we're daydreaming or just tuned out completely.

This session was for all the faculty – teaching as well as non-teaching of MGM school of Biomedical Sciences and was under the direct supervision of Dr. Mansee Thakur

The program started with an introductory speech by Dr. Mini Mol one of our faculty members from MGM school of biomedical sciences.

It was Monday the 11th of March, 2017 Dr. Geeta thakur had a talk with the staff on how should we communicate with the students and the staff as she is in teaching profession since last 20 years. How to respond positively to any negative behavior and also discussed about respect that we can acquire at our workplace using our communication skills.

The main objective of this lecture was to understand the differences between formal and informal communication, situations and use appropriate language, how to give positive response to negative behavior. It gives right to work in an environment that is respectful and responsibility to treat everyone at work with consideration.

The lecture was interactive based on group work and self-experiences of faculties. The lecture was helpful to handle various oral communication situations confidently. . Few studies have explored how receiving positive feedback may change these outcomes. She explained this study will explore how both positive and negative behavior feedback contribute to better behavior in student's life. She explained respectful behavior displays personal integrity and professionalism. We all have the right to work in an environment that is respectful and treat everyone at work with consideration.

While at the end of the lecture the faculty took a lot and went from this lecture about advanced communication skills, positive response to negative feedback and respectful workplace communication.

Report on Faculty Development Session

Title: Biomedical Research using synchrotron radiation

Date: 29/06/2017

Time: 2:30 to 4:30pm

| | |
|---|--|
| Venue: 29/06/2017 Microbiology Demo Hall MGM Medical College Kamothe, Navi Mumbai | Guest Speaker:Mr. Vishal Dhamgaye "Biomedical Research using synchrotron radiation" |
|---|--|

A seminar was conducted on "Biomedical Research using synchrotron radiation" the speaker has highlighted on the research using sensor radiation. The guest has also highlighted on different method which is used in diagnostic technique through radiation. He had also focused on reducing the effect of radiation through newly formed equipment. The seminar was a good and keen in up bring and reducing effects of radiation which can provide good interpretation of forthcoming research studies.

Report on Faculty Development Session

Title : Yoga and Spirituality at Workplace

Speaker : Dr. Mohandas Hegde, Director – CREST (Centre For Research Education Sadhana And Training, Bangalore)

Venue :Room opposite to Academic Section, 3rd Floor, MGMIHS

Time : 10 to 11.30am

MGM School of Biomedical Sciences conducted a Yoga and meditation session for participants on the occasion of International Day of Yoga on 27th June 2017. The session started with a brief introduction and welcome speech followed by felicitating the speaker of the day Dr Mohandas Hegde by our Registrar.

Yoga is a way to connect with the higher Self and integrate all aspect of life so as to live in balance and harmony. It brings us closer to nature and helps us move towards oneness. This is the real promise of Yoga. The primary objective in yoga is the regulation of the restless mind. Everything good or evil originates from the mind and it is the mind alone that governs all our feelings, emotions and impulse. To achieve this we conducted a session on ‘Yoga and Meditation at Workplace’ by our guest speaker Dr Mohandas Hegde , Director of Centre for Research Education Sadhana and Training, Bangalore and a Heartfulness trainer from the last 25 years. Dr Hegde captivated the audience with his valuable and inspiring thoughts .There were more than thirty five staff members for this event.

He explained the art of meditation and elaborated the meaning of spirituality and its related misconception ,He briefed how meditation plays an important role in a place like Mumbai, where a city never sleeps and were people are enthusiastic, full of energy but spend their entire life in a hectic schedule. We need to learn to discipline our mind through yoga and meditation which will empower us to achieve much more in all aspects of our life.

The Director of School of Biomedical Sciences envisions to build a strong community where our staff can avail the benefits of meditation in everyday life hence listed in our agenda to set up a meditation and yoga centre at our MGM campus.

Title: Strategies for staff motivation

Date: 02.9.2016

Time: 2.30 to 4.30 pm

**Venue: Pharmacology Demo hall ,
Second Floor, MGM Medical
College building, Navi Mumbai**

**Guest Speaker
Dr. MohanDas Hegde
Director
CREST BANGALORE
Mobile: 9008518090**

The Education society of MGM Institute of Health Sciences organized a teaching programme for the Teaching and Non-teaching Faculty of MGM School of Biomedical Sciences, Kamothe, Navi Mumbai which was held on 02.09.2016 from 2.30 to 4.30 pm. The main purpose of the programme was faculty development and motivation.

The program began with a welcome note by Himanshu Gupta and felicitated by Dr. Z.G.Badade to our Guest Faculty Dr.Mohandas Hegde, Director of CREST BANGALORE. He spoke on the strategies for staff motivation. Speaking to the audience he emphasized on the key points of the strategy like: providing an Effective reward system, Redesigning jobs, Creating flexibility, Help fulfil career goals, provide training, give constant feedback, communicating often, lead with vision, express gratitude and celebrate wins.

After the lecture, Dr.M.Hegde conducted a open forum for teaching and nonteaching staff and answering queries. The programme came to an end with a vote of thanks by Dr. Mini Mol.

Report on Lecture on Ethics and Research

Date : 25/11/2016

Time: 2:00 to 4:00pm IST

**Venue: Class room , second floor
MGM Medical College building,
Navi Mumbai**

A lecture focusing on need for Ethics and Research, for our PhD students was given by Dr. Mansee Thakur, HOD-Dept of Medical Biotechnology on 25th November 2016

She explained that there are multiple reasons why it is necessary to adhere to the basic norms of scientific conduct during academic research. It is particularly important to have a clear distinction between acceptable and unacceptable conduct especially when human beings or animals are involved in a study. Given the competitive nature of research, it has become increasingly challenging for scientists to report unique and pioneering research. Nevertheless, the practice of misreporting data and scientific results continues to be followed by some members of the research community. She explained with various examples the Do's and Don'ts in scientific research

Report on Industry Academic Innovative Practice

Hybrid capture Cervical cancer detection and Latent TB detection as public health topics

Date:-11.01.2016

Time: 2:00 to 4:00pm IST

**Venue: Lecture hall 2, Ground floor
MGM Medical College building,
Navi Mumbai**

It is surprising that the role of university education is an almost neglected topic in the research concerning university–industry collaboration. Despite education there is a great demand of interdisciplinary research being a primary goal of universities and providing great potential in terms of improving competences. The link between university research and industrial innovation has been widely recognized among academics and industrial practitioners.

Recognizing this thrust area we organized a guest lecture focusing on scope of Industry –Academia collaboration. The seminar started with the short introduction of Dr. Vishal Vishnu Raut given by Mrs. Renuka Bhosle. On 11th January, 2016, a seminar was held on the topic “Hybrid capture Cervical cancer detection and Latent TB detection as public health topics”. The speaker for this topic was Dr. Vishal Raut, who has worked at different industries and has many achievements attached to his credit. He has also been with BARC and has completed his thesis on DNA damage in Plants.

The topic that he explained was very interesting and that boosted the knowledge of our staff and also gave an idea about the protection towards intellectual wealth.

The speaker was well known about what he spoke and he taught us lot during the session and explained it up to the mark and as there was a questionnaire at the end of each session to which all the staff participated well and got all their answers related to the questions that were asked.

The program was for all the faculty members and students of MGMIHS. At the end of the session Director, Dr.Z.G.Badade offered a token of appreciation to Dr. Vishal Vishnu Raut who spared time from his busy schedule only to enlighten us.

Report on faculty Development Session

Topic - Time and Stress Management

Date:-17.06.2017

Time: 2.30 pm to 4.30pm

| | |
|---|--|
| Venue: Conference hall, Second Floor MGMSBS, MGM Medical College building, Navi Mumbai | Mr. Tushar Pradhan Chief Investment Officer HSBC Asset Management (India) Private Limited |
|---|--|

To be ethical means we have a Commitment to Excellence which requires that we be at our best at all times. Hospital Management can be very stressful, and when we are too stressed we are NOT at our best. A little stress is good, but too much can make us difficult to be around, less effective managers and can even make us physically sick.

On 17th June 2017, a seminar on the topic of Time and stress management was conducted by Mr. Tushar Pradhan who is a Chief Investment officer at HSBC. **The main purpose of seminar was to know the importance of stress management and also show how to manage stress which will help the faculty sharing by his own experience as a follower of Hearfulness Institute since last 15 years.**

He also said time is the most important thing, it can be managed by doing the right and not setting things right, being in control of life and not driven by circumstances, enjoying journey of life everyday of it, not waiting for a perfect future and having right balance in wheel of life.

Therefore the stress is managed by redirecting it into our work, exercise, meditation and keep a regular schedule and seek help advice from others

To conclude with the session the faculty was highly impressed by his motivational speech.

Report on faculty Development Session

Youth Development Trends

Date:-11.02.2017

Time: 2:30 to 4:30 pm

| | |
|--|--|
| Venue: Pharmacology Demo hall , Second Floor, MGM Medical College building, Navi Mumbai | Dr. NiveditaShreyansh Director – Public Relations & Corporate Communications at Mahatma Education Society’s, Pillai group |
|--|--|

The guest was felicitated by Dr. Raman Yadav, Director – Omics Lab. The session started with an introductory speech by Ms. RenukaBhosle and the introduction of Dr. NiveditaShreyansh, who is one of the best at giving a talk on youth development trends. The guest speaker began by sharing her experience as a motivator for the future generation. She explain how she was motivated to organize a spiritual youth fest in collaboration with Heartfulness institute with all the colleges across Mumbai in which MGMIHS had whole heartedly supported the initiative. She spoke about the need for todays youth to “Listen to their heart” as the youth in our country plays a dynamic and vital for its long run development. The hidden power and demographic shift of the Indian youth population can improve our economy.

This session was organized for all the staff of MGM School of Biomedical Sciences. It was a great pleasure have Dr. NiveditaShreyansh who really explained the topic about the youth and their trends in the current society.

She covered major topics about and it was really a pleasant moment when all the staff were really listening very carefully to her.

She emphasized on the topics that are as follows:

Education, Civic Engagement, Migration, Morality and Health care, Medical care at delivery , Crime and Youth, Labour force participation, Juvenile Delinquency, Minimum wages, Policy Initiative for Youth in India

While all these topics were covered by the speaker there were several questions that were to be asked by the staff and by which Dr. Nivedita Shreyansh really took good care of that she took down all the questions and answered to all of them one by one after the session was over.

The staff enjoyed the session and praised Dr. Mansee Thakur for arranging such a session on youth development trends which was really necessary for the staff. Thereafter we had a vote of thanks which was given by Mrs. Renuka Yuvraj Bhosle.

In the end the staff took so much about the session and went that they were touched by the speech and they enjoyed the seminar arranged.

| Venue: Pharmacology Demo hall , Second Floor, MGM Medical College building, Navi Mumbai | Guest speaker Dr.Snehal Deshpande Director- Sneh...RERC Head of Dept- ASCC- Artemis Special children Centre- Gurgaon |
|--|---|

A Seminar was conducted by Dr. Snehal Deshpande who introduced us to various aspect of Health and Stress management. Stress Management is a skill worth improving the two main pillars of stress management, its control and prevention. It is introduced to a wide spectrum of techniques and psychotherapies that aimed at controlling personal level of stress usually for the purpose of improving everyday functionally and for improving health. It also includes various techniques of stress management like- Self-understanding, Self-management, conflict resolution, adoption of a positive attitude, meditation, exercise, regular and effective rest. Implementation of these techniques of stress management in turn leads to a healthy lifestyle. The seminar helped all the teaching, non teaching and paramedical students to handle stress in everyday life leading to a proper balanced in our professional as well as personal life. Session got over by 12:00 pm with vote of thanks by Ms Smital Kulkarni.
