

ANNUAL REPORT 2016-17

MGMIHS IQAC

SIGNIFICANT ACTIVITIES AND CONTRIBUTIONS MADE BY IQAC

- The IQAC carried out a systematic Student Feedback in a blinded evaluation using the NAAC provided format. Students provided anonymous input on course and teacher attributes concerning all specialities. The input was forwarded to the Institutional heads and corrective measures carried out.
- A monthly Self Appraisal System for Teaching Faculty has been initiated.
- IQAC conducted meetings with the departmental coordinators and Heads of the departments for improving the quality of reporting in quarterly reports.
- Simplification of data acquirement in the form of common annexure format was given to all departmental coordinators.
- Method of reporting feedback streamlined as per IQAC Committee guidelines.
- Different cells for improving the quality of medical education, i.e. Attendance cell, MET cell, Mentoring programme. Advanced Automated Mannequins were added in the MET Cell. Teachers are sent for advanced MET training at MCI nodal centre KEM Mumbai and Nodal officer attend workshop at Ahmedabad, organized by MCI held in Dec. 2016.
- As per the direction of IQAC, preparations are going on for NABH accreditation. Initial inspection of NABH at MGM Medical College & Hospital, Aurangabad is due on 1st week of April 2017.
- IQAC-supervised BLS Training for all teaching and non-teaching staff and ALS Training for Teaching Faculty and PG Students was conducted, qualifying examinations of BLS and ALS training held and certificates issued.

UPDATE OF REGULATION OR SYLLABI

Preclinical

- Videos of animal experiments in First MBBS Physiology Practical/Demonstrations of Experimental Physiology (Annexure-I) introduced.
- Early Clinical Exposure introduced in the curriculum of First MBBS by way of video clipping, animations, and visit to Wards wherever necessary
- ‘Thorax’ portion from Anatomy (1st MBBS) Paper II shifted to Paper I in order to have appropriate topic distribution in two papers.
- The proposed pattern of redistribution of the marks in First MBBS – University Biochemistry Practical Examination (Annexure-III) introduced.
- A workshop on competency based education in both the Campus at Navi Mumbai & Aurangabad for all courses under MGM Institute has conducted.

Paraclinical

- Changes in existing journal of Second MBBS Microbiology (Annexure-IV) & log book of MD Microbiology (Annexure-V) approved.
- Changes in syllabus of Microbiology MBBS (Annexure-VI) for Second MBBS approved.
- Changes in syllabus of Pathology MBBS (Annexure-VII) and Pathology PG Logbook (Annexure-VIII) for Second MBBS approved.
- The topics OSPE, Mal absorption, PUO, Gastric Analysis in Practical of Pathology (UG) for Second MBBS were deleted.

- Histogram & CBC Demos added for UG Students (Pathology) for Second MBBS.
- 10% of Practical marks in Grand Viva for PG examination were allotted for Dissertation Viva.

Medicine and Allied

- Additional Topics included for Third MBBS (Part-I): (i) Chest Medicine: ARDS, OSA and Pulmonary Thrombo-Embolism to be covered in two lectures and (ii) Care of Terminally ill patient under the heading of Geriatric Medicine.
- Changes in syllabus of MD Geriatric Medicine (Annexure-IX) incorporated.
- Changes in syllabus of MD in Emergency Medicine (Annexure-X) incorporated.
- Proposed pattern of redistribution of the marks in Dermatology and Psychiatry subjects in theory papers of Medicine subject at MBBS level for Third MBBS (Part-II) incorporated:
 - Paper 2 section C should be as under: Section C (Marks 10), C1 Psychiatry Section (Marks 10), Question 1 – long question (Marks 4), Question 2- short answer question attempt any 2 (Marks 6) a,b,c.
 - C2 Dermatology Section (Marks 10, Question 1 – long question (Marks 4), Question 2 – Short answer question attempt any 2 (Marks 6) a,b,c.
- Change in internal assessment pattern of Community Medicine (Annexure-XI) for Second MBBS incorporated.
- Examination pattern for MD in Immuno Haematology & Blood Transfusion (Annexure-XIII) introduced.

Surgery and Allied

- Topic of Polytrauma and its management included in the Orthopedic UG syllabus in consultation with Surgery Department for Third MBBS (Part-II).
- Following Topics excluded from the Orthopedic UG syllabus for the batch of Students entering into 3rd MBBS (Part-II) from February 2016 onwards :a) Acute poliomyelitis, b) Fungal infection and Leprosy in orthopaedic, c) Cerebral Palsy and rehabilitation
- Basic knowledge about laparoscopic and hysteroscopic surgeries, Artificial Reproductive Technology, Prenatal diagnosis of congenital anomaly and PNDT act., Social obstetrics (Jananisuraksha Yojana, Role of ASHA workers etc.) included in the OBGY. UG syllabus for Third MBBS (Part-II) to be covered in six lectures.
- Pelvic Dissection Workshop for PG students (OBGY.) conducted every year in Anatomy dissection hall by Dept of OBGY in conjunction with Anatomy department.

Superspeciality

- Six weeks rotation in Radiology and Urology Department for Nephrology Students and six weeks of rotation of Cardiology Students in CVTS and CVTS Students in Cathlab is to be done as per MCI norms.

Biomedical Sciences

- Syllabus for M.Sc. Molecular Biology updated with project work and modified examinations pattern.
- Syllabus for M.Sc. Clinical Embryology updated with project work and modified examinations pattern.
- First semester examination of M.Sc. Courses for 2015-16 batch postponed by one month in order to get sufficient time for completing syllabus.

NEW DEPARTMENT/CENTRE INTRODUCED IN 2016

Free Health Check up Camps 2016

Total camps – 37

COMPUTERIZATION OF ADMINISTRATION AND LIBRARY

- Central Computer Centre provides excellent academic computing facilities to the faculties and Students. All desktops are connected in wired LAN with P4 and above configurations.
- HMS (Hospital Management System) is a comprehensive, integrated information system used to manage all the aspects of a hospital’s operations such as Patient data right from admissions to discharge, administrative, financial & corresponding processing of services. Hospitals also have LIMS (Lab Information Management System) used for clinical laboratory services. A separate PACS system i.e. Picture Archiving and Communication System is used for on-the-spot transmission of images from Radiology Dept to clinical wards and Consultants.
- Each department/unit is provided with computers and peripherals including printers, scanners etc. with current configuration. Most of the departments are connected through LAN, WAN and Wi-Fi.
- 1 GB National Knowledge Network (NKN) Broadband line is installed and functional.
- Laser delivery module as learning material, educational CDs and DVDs are made available. Computer interfaced LCD projectors are provided to the Faculty and Students for computer-aided teaching/learning and for presentations of research papers in conferences/symposia/workshops.
- High-end digital cameras with video shooting facility, voice and picture mixing software and animation facilities at multimedia centre are installed in the University.
- Library has dedicated LIB SYS software for library management. Online journals, e-books and periodicals on all the courses offered by University are available.
- Videoconferencing & Skype facilities are available in the University
- CDs, online journals, and databases are used by faculty and postgraduate students to enhance their knowledge. Various CD-ROMS are available to aid the preparation of teaching material.
- Computer-aided lesson presentation by CCE, A.P. and APSCHE are provided.
- The MGMIHS University website now provides a link for direct uploading of papers presented and published, conferences attended, and research projects, which is accessible to all institutions.
- A training session on IBM-SPSS was held in Central Library, co-ordinated by Community Medicine Department, MGM MC, Navi Mumbai for faculty and PG students.
- Biometric devices and software are used for recording attendance of teaching and non-teaching staff, and then the data is forwarded to HR/accountant for calculation of payrolls based on Tally Software.

TECHNOLOGY UP-GRADATION

- All faculties and students are provided with computer facilities for academic and co-curricular activities, project & research activities, community outreach, collaborative, administrative and financial evaluation activities.
- Each department/unit is provided with necessary number of computers and peripherals including printers, scanners, UPS etc. with current configuration. Most of the departments are connected through LAN, WAN and Wi-Fi. IT department provides training to students and staff for proper use of computers. Computer facilities are also provided for supporting Common Entrance Test, admissions and maintaining students' information.
- Computer interfaced LCD projectors are provided to the Faculty and Students for computer-aided teaching/learning and for presentations of research papers in conferences/symposia/workshops.
- Laser delivery module as learning material, educational CDs and DVDs are made available. The University has installed high-end digital camera with video shooting facility, voice and picture mixing software and animation facilities at multimedia centre. Computer aided presentation of lessons by CCE, A.P., and APSCHE are provided.
- Library has dedicated LIB SYS software for Library management. Online Journals, periodicals, CDs and data bases are available for Teachers and Students.
- The MGMIHS University website now provides a link for direct uploading of papers presented and published, conferences attended, and research projects, which is accessible to all institutions.
- A training session on IBM-SPSS was held in Central Library, co-ordinated by Community Medicine Department, MGM MC, Navi Mumbai for faculty and PG students.
- 1 GB National Knowledge Network (NKN) Broadband line is installed and functional. All desktops are connected in wired LAN with P4 and above configurations. Central Computer Centre provides excellent academic computing facilities to the faculties and Students.

CONTRIBUTION OF IQAC IN ENHANCING AWARENESS ABOUT STUDENT SUPPORT SERVICES

- 2 undergraduate students are members of MGMIHS University Level IQAC and provide input as required.
- IQAC directly interacts with the Dean and students welfare bodies and brings to their notice any problems faced by students.
- The Central IQAC monitors the performance of the institutional IQAC regarding enhancing the awareness of student support services.
- Anti Ragging awareness is done.
- Foundation day, sports and cultural activity are arranged for encouraging students.
- Subsidised good quality food from mess is provided for the students and supervised from time to time by IQAC.

EFFORTS MADE BY THE INSTITUTION FOR TRACKING THE PROGRESSION

- Mentor system and Grievance Redressal System is established.
- Evaluation of attendance and result is done in order to track students' progression.

DETAILS OF STUDENT SUPPORT MECHANISM FOR COACHING FOR COMPETITIVE EXAMINATIONS

- Workshops on UPSC & MPSC exams are arranged.
- Group discussions among students are made available.
- Guidance facility available for students approaching to student's welfare cell

DETAILS OF STUDENT COUNSELLING:

- The Counselling Cell takes care of skill development and career guidance. Facility for psychological counselling is made available for students through Dept. of Psychiatry
- Motivational lectures and orientation programmes are arranged for students.
- Students' mentorship program is available for all medical students.
- Career guidance program are frequently arranged.

DETAILS OF GENDER SENSITIZATION PROGRAMMES:

MGM Medical College Navi Mumbai is part of the project for "Integrating Gender in Medical Education" This project is in collaboration with Maharashtra University of Health Sciences (MUHS), Directorate of Medical Education and Research (DMER), UNFPA and Centre for Enquiry in Health and Allied Themes (CEHAT NGO). There are a total of 7 medical colleges of Maharashtra involved in this project. MGM Medical College, Navi Mumbai is the only private medical college in this project. It is also the only medical college from Mumbai and Navi Mumbai. Dr. Rishikesh A. Wadke from Department of Community Medicine, MGM Medical College, Navi Mumbai is a mentor on this project and he has done Review of Community Medicine Textbooks from Gender Perspective. Subject wise modules are prepared and once these modules are approved by DMER and MUHS they will become a part of teaching curriculum throughout Maharashtra.

Study on "Awareness among medical students regarding sexual harassment at workplace" was undertaken by Dept. of Community Medicine at Aurangabad.

INSTITUTION HAS A MANAGEMENT INFORMATION SYSTEM

Data Management System is installed and functional in MGMIHS. Other modules are being tested currently and will be installed shortly. All affiliated institutions including Hospitals have their individual Management Systems which are fully functional. Continuous upgrading of installed systems is carried out by all stakeholders.

QUALITY IMPROVEMENT STRATEGIES ADOPTED BY THE INSTITUTION FOR EACH OF THE FOLLOWING:

Curriculum Development

On recommendations of the Board of Studies and the Academic Council, the Board of Management approved the following changes in curriculum development which have been introduced. Some of the salient features are:

- Human Anatomy journal for 1st year B.Sc. students of Paramedical courses was introduced.
- Revised method to calculate internal assessment marks for First MBBS as given in point 6.3.3

Teaching and Learning

Continuous feedback from students, staff and other stakeholders is taken and is thoroughly analysed and put up to Board of Studies and Academic Council. Based on above, new strategies in teaching and learning processes are devised, put up to Board of Management, approved and subsequently implemented.

Research and Development

a. Research papers published in 2016:

- International journals: 205
- National journals: 155
- Others: 3

b. Major Research projects in 2016 :

- Completed: 0
- New projects started: 1
- Ongoing projects: 16

c. Conferences organized by university/constituent units in 2016:

- National: 5
- International: 7
- Others: 24

d. PhD programmes in 2016:

- PhD degrees awarded: 9
- New scholars admitted: 7
- Total number of PhD scholars : 131

NEW RESEARCH LABS ESTABLISHED IN 2016: TB RESEARCH LAB.

Existing research labs: Proteomics Lab, Stem Cell Research Lab, Medical nanotechnology & Molecular Biology Lab, MGM Central Research Lab, Genetic research Lab, MGMIHS OMICS Research Centre, Biotechnology Research Lab, Aurangabad and Sleep Medicine Lab carried out their research work at optimum levels. No complaints were received by IQAC regarding funding constraints. All research activities of MGMIHS and its affiliated institutes and departments are managed, supervised, facilitated and scrutinized at all levels by the Research Secretariat which is headed by Pro Vice Chancellor (Research). Students including UG students and faculty members are encouraged and motivated to take up research projects. Seed money is provided to them liberally by the university and guidance given to them to procure funding from extramural sources. Expert services of a Medical

Statistician are made available to them. Progress of PhD scholars is monitored by a Scientific Advisory Committee which meets every three months. The committee closely scrutinized their work and advised them accordingly.

Industry Interaction / Collaboration

Ongoing collaborations:

1. University of Pennsylvania, USA and MGM Institute of Health Sciences, since 2013. (Ongoing)
2. International Sahaja Yoga Research and Health Centre, CBD Belapur, Navi Mumbai and MGM Institute of Health Sciences, since 2013. (Ongoing)
3. M.P.A.S.C. College Panvel and MGM Medical College and Hospital, Kamothe, Navi Mumbai, Since 2013. (Ongoing)
4. Bigtec Private Limited, Bangalore and MGM Institute of Health Sciences, since 2014. (Ongoing)
5. Indian Institute of Technology Bombay and MGM Institute of Health Sciences, Since 2015. (Ongoing)
6. P D Hinduja National Hospital & Medical Research Centre, Mahim and MGM Medical College & Hospital for Laboratory, Investigation of Samples etc, since 2015. (Ongoing)
7. IKP Knowledge Park, Bangalore and MGM Institute of Health Sciences, since 2015. (Ongoing)
8. University of Utah, USA and MGM Institute of Health Sciences, since 2016. (Current)

New collaborations:

1. Nanosynth Materials and Sensors Inc., USA and MGM Institute of Health Sciences, since 2016 (MOU signed in February 2016)
2. Department of Science & Technology (DST), Ministry of Science and Technology, Government of India, New Delhi and MGM Institute of Health Sciences, since 2016.

Details of research funds sanctioned and received from various funding agencies. industry, and other organizations are given in Criterion III, Sl.No-3.6.

ADMISSION OF STUDENTS

Admission to MBBS courses was carried out strictly as per the guidelines of government, based on NEET merit list.

PG admissions were carried out last year through CET.

Welfare schemes for Teaching, Non-teaching staff and students

- Free healthcare is provided to all members of the teaching and non-teaching staff. Their families are provided healthcare in MGM Hospitals at heavily subsidized costs.
- Crèche facility for children of employees.
- Fee concessions are offered to children of MGMIHS and its affiliated institutes employees who get admission to UG/PG courses in Nursing, Physiotherapy and Allied Health Sciences.
- All teaching and non-teaching staff are extended welfare benefits or contributory provident fund, gratuity and other insurance scheme as may be applicable in accordance with law.
- The teaching and non-teaching staffs are given health care services in its hospitals free of cost.
- The staff are also extended health benefits at the MGM hospital at no or subsidized costs.
- Maternity leave to female employees
- Facility for spiritual development at Vipassana and Yoga, Naturopathy.
- Creche facility

EXAMINATION REFORMS

- Question papers are carefully moderated, so that they are relevant to the curriculum taught, broad-based and set in an easy-to-understand language.
- Assessment of candidates in practical's and viva voce is made primarily in finding how much of the subject the candidate knows & not on how much the candidate doesn't know.
- External examiners are requested to give their feedback and comments at the end of each examination. Their feedback forms the basis of further reforms in the examination and evaluation processes. Feedback is also taken from students after completion of examinations.
- Computerised result system
- Theory paper - moderation
- Moderation of answer sheet – 40-50% and 75% above

PROMOTION OF AUTONOMY

All constituent colleges are fully autonomous in financial and administrative matters. University conducts admissions and examinations and forms policy guidelines which are forwarded to the college for implementation. All research projects are supervised, facilitated and funded by university.

- Constituent colleges are autonomous for financial and administrative matters.

ACTIVITIES AND SUPPORT FROM THE ALUMNI ASSOCIATION

The following meetings of MGM Medical College, Navi Mumbai Alumni were held:

- 13th February 2016. Agenda included inviting more Alumni for registration, update of Alumni Website and opening of Alumni Association bank account.
- 19th November 2016. Agenda included Inviting MGM Alumni for guest lectures, Adopting group SMS services for quick updates and Planning for Alumni get-together in 2017.

Alumni of MGM medical College, Aurangabad were associated with career guidance lectures, health camps, donation of books and hearing Aids etc.

ACTIVITIES AND SUPPORT FROM THE PARENT – TEACHER ASSOCIATION

- Regular parent-teacher meetings are held and parent's feedback is taken. Any useful suggestions given by them are implemented. Problems of any poor-performers among students are discussed with their parents and their help sought to solve any issues troubling the students. Besides help of parents located in nearby places is sought in social and community outreach activities of the medical college and hospitals.
- At Navi Mumbai campus, PTA meetings were held on the following dates:
 - 18th February 2016 for First MBBS students and their parents (chaired by the Dean and attended by HODs of Anatomy, Physiology, Biochemistry & Community Medicine as well as the Director of the Central Library).
 - 21st September 2016 for Second MBBS students and their parents (chaired by the Dean and attended by HODs of Pathology, Pharmacology, Microbiology and Forensic Medicine).
- Parents' involvement is encouraged in social and community activities of medical college & hospital

DEVELOPMENT PROGRAMMES FOR SUPPORT STAFF

- Two Members of Non-teaching Staff are currently pursuing Master in Management Studies (MMS) in Human Resources.
- Development programme for nurses held on 2nd July, 2016 in which a seminar on "Awakening the Leader within: Empowering Nurses across career" was held by Mrs. Manisha Sridhar.
- Disaster Management training held on 5th and 6th August, 2016 with the help of Municipal Corporation of Navi Mumbai.
- Regular training programmes held to familiarise all staff members with Fire Safety measures.
- All paramedical staff have been given BLS training in Skills Lab.
- Programmes on spiritual development related to Vipassana, yoga and naturopathy held.

INITIATIVES TAKEN BY THE INSTITUTION TO MAKE THE CAMPUS ECO-FRIENDLY

- Solar powered street lights installed.
- Sewage treatment plants functioning well and recycled water used for watering plants, lawns and trees.
- Lectures on environmental protection and maintenance of eco-friendly campus given to students and employees frequently.
- Swachhta Week celebrated.
- Sanitation, hygiene and environmental protection committees formed in all the institutes.
- Banning of smoking and use of plastic bags being enforced strictly in the campus.
- Tree plantation drive on various occasions.
- Five thousand trees plantation carried out in 2016.
- No vehicle days encouraged
- Use of common vehicle (car pooling) encouraged.
- Regular lectures on orientation and motivation for eco-friendly campus
- Water harvesting system used in campus.

INNOVATIONS

1. Innovation in Education:

- Case & problem based learning as well as integrated teaching implemented for undergraduate students.
- Formative assessment (system-wise) for theory and practicals for undergraduate & postgraduate students.
- Sustained efforts to motivate body donation for cadaveric dissection resulted in obtaining 3000 signed body donation forms from Jagdguru Narendracharya Maharaj Sansthan Nanij Ratnagiri and allocation of body donation cards.
- Acceptance of proposal by Regional chapter of Anatomists of Maharashtra to host MAHACON 2017 at MGMIHS in Navi Mumbai
- Training of staff nurses for infection control
- Regular Self Appraisal System introduced for faculty

ACTION TAKEN REPORT (ATR) BASED ON THE PLANS OF 2016

- For DM Neurology and MCh Neurosurgery courses, MCI inspection is awaited.
- Implementing Competency Based Curriculum and introducing AT-COM module: in process
- External sources of funding have been procured from IKP Knowledge Park, Hyderabad and NanoSynth Materials & Sensors, USA
- Meeting of alumni association
- Conversion of LED lights to solar powered lights is partly done at Aurangabad campus and in process at Navi Mumbai.
- Liver Transplant unit at MGM Medical College Aurangabad is in an advanced stage of completion.

BEST PRACTICES OF THE INSTITUTION

A) First Best Practice:

1. Title of the Practice : Student Feedback

2. Objectives of the Practice

- Collect UG student feedback

3. The Context

- Student feedback collection is mandatory according to NAAC and MCI.
- Student feedback also gives future improvement strategies for the institute.

4. The Practice

- Undergraduate student feedback is collected as per NAAC instructions.
- Feedback forms are simplified for easy filling by the students.
- A triple blinded data collection and analysis protocol is maintained to prevent bias. The feedback of each department is revealed to HOD only after completing collection from the students.
- The faculty are coded before statistical analysis of feedback. The final codes of the faculty are revealed only to the HODs and Dean of the Institute.
- The analysis is submitted to the stakeholders and the management for further inputs to the respective departments.

5. Evidence of Success

Data has been collected at regular intervals, and analysis is in progress. Data analysed so far has been used to implement changes in teaching methodologies to improve these further.

6. Problems Encountered and Resources Required

Paper usage is quite high. In future online students' feedback mechanism is planned.

B) Second Best Practice:

1. Title of the Practice : Introduction of Bioethics into courses of study

2. Objectives of the Practice

- To introduce the subject of Bioethics as an integral part of education in Health Sciences
- To increase the awareness of faculty and students about principles of Bioethics and their applications

3. The Context

Bioethics is an often neglected area of education and training in Health Sciences. However, it occupies a place of increasing importance particularly in the context of expanding awareness of patients and the necessity of correct handling of cases which may have medicolegal implications.

4. The Practice

- Bioethics has been introduced into undergraduate curriculum of all courses.
- A UNESCO-Haifa Chair in Bioethics has been established at the University.
- UNESCO Bioethics (Haifa) chair conducted a Bioethics workshop “3T plus & Integrated Bioethics Health Sciences Training Program” from 22-24 August 2016 at MGMIHS. 63 faculty members from Navi Mumbai and Aurangabad attended the workshop. Faculty were exposed to applications of principles of bioethics in medical practice and were required to conduct individual small group teaching sessions on bioethics as a part of the workshop.

5. Evidence of Success

Faculty and students have been exposed to principles of Bioethics and their awareness of application of the same in daily practice has been increased. Positive effects are already being observed.

6. Problems Encountered and Resources Required

Nil

CONTRIBUTION TO ENVIRONMENTAL AWARENESS / PROTECTION

- Formation of Environmental Sanitation Committee to promote environmental protection.
- Awareness regarding “Swachata Abhiyan”: Meetings held with respective HOD.
- Meeting with Stakeholders like Dean and MS regarding Swachata Mobile Application which is developed by Ministry of Urban Development.
- Awareness regarding “Swachata Mobile Application”: talk to MBBS Students.
- IEC Activities done in order to promote Swachata Mobile Application.
- Ensuring biomedical waste management rules are followed including waste collection, segregation and disposal.
- Supervision over disposal of condemned materials for all building and structures in-order to prevent fire hazard.
- Checking for mosquito breeding sites and taking appropriate preventive measures.
- Supervision over replacements of CFL lights with LED lights for power saving
- Ensuing no smoking zones and plastic free zones are maintained.
- Tree plantation drives undertaken

- No vehicle day celebrated time to time
- Renewable energy (solar) used at MGMMC, Aurangabad.

SWOT ANALYSIS

Strengths:

- Well qualified teaching faculty and research facilities.
- Institution carries out extensive outreach programs of healthcare in Raigad and Nanded districts.

Weaknesses:

- Inability to extend infrastructure at Navi Mumbai campus due to area constraints.

Opportunities:

- High density of population in the vicinity of both campuses and easy accessibility which ensures high patient load in both hospitals and so adequate teaching material at all times.

Threats:

- High attrition rate of faculty due to better emoluments offered by corporate hospitals
- Deterioration in performance due to complacency setting in.

PLANS OF INSTITUTION FOR NEXT YEAR

- To complete the ongoing action plans of last year which have not yet been completed.
- To minimize use of paper in routine official communications
- To obtain NABH accreditation for both teaching hospitals
- To increase the number of research projects and expedite the completion of ongoing projects
- To register more patents during the next year.
