

Be a teacher programme

In traditional lecture format, students participate with minimal preparation. PEER group teaching magnifies learning.

In this self learning method (Be a teacher), students are allotted one topic and after preparation the student will present the topic to other students. The activity is guided and monitored by teachers and the record is maintained. The remarks of the teachers are also documented.

This activity is conducted by department of ophthalmology, ENT, Pathology etc.

Peer group teaching magnifies learning.
