

Clinical Activities (Annexure IIB)

Annexure II B: Clinical

MGM Centre of Human Movement Science is committed to develop biomechanics in India in all 3 domains i.e. academic, research and clinical. MGM Centre of Human Movement Science teams did the tremendous work in all three domains. 380 consented healthy participants (aged between 5-75 yrs) were analyzed to generate normative reference data for Indian population and this is still ongoing. 500 plus patients have been tested.

In past 5 years MHMCHMS has developed research activity and its clinical implementation in the area of cerebral palsy patients, women's health, Biomechanical exploration of yoga and its clinical implementation in diabetes and low back pain, lower limb amputations, dancers as well as development of Indigenous medical assistive devices with help of various intramural, extramural and collaborative funded research projects.
